Shadow Flicker Gregory Bastianelli, 2022-03-29 An old man nearly chokes to death after stuffing dandelion heads into his mouth A pregnant cow repeatedly runs headlong into a fence post Oscar Basaran investigates a series of strange events on the Kidney Island From its highly original premise to its deliciously isolated setting Gregory Bastianelli's SHADOW FLICKER hooked me and kept me squirming until the very last page An entertaining and emotional read I had a blast Jonathan Janz Author of THE SIREN AND THE SPECTER and THE RAVEN Investigator Oscar Basaran travels to Kidney Island off the coast of Maine to document the negative effects of shadow flicker from wind turbines on residents living near the windmills but is unprepared for what he encounters from the islanders Oscar's research shows that sleep deprivation light deficiency and ringing headaches brought on by the noise and constant strobe like effect of the sun filtered through the spinning blades of the turbines brings on hallucinatory episodes for the closest neighbors to the machines Melody Larson's elderly father nearly chokes to death after stuffing dandelion heads into his mouth The Granberrys pregnant cow repeatedly runs headlong into a fence post Tatum Gallagher mourns her young son who vanished more than a year ago presumed swept out to sea by a wave while fishing on the rocky shore but several people claim to see him appear only in the glimmer of the shadow flicker Aerosource the energy corporation that owns the turbines hired Oscar to investigate the neighbors claims but the insurance agent shows no allegiance to the conglomerate especially after learning a previous employee sent to the island a year before has disappeared without a trace When Oscar meets former island school science teacher Norris Squires fired for teaching his students about the harmful effects of shadow flicker he learns a theory regarding Aerosource that sounds too preposterous to believe While it seems the shadow flicker effect has driven some of the island's animals crazy is it possible it's caused an even worse mental breakdown among the human inhabitants Or is something more nefarious at work on the island As Oscar's investigation deepens he discovers the turbines create an unexpected phenomena kept secret by a select group of people on Kidney Island who have made a scientific breakthrough and attempt to harness its dark power FLAME TREE PRESS is the imprint of long standing independent Flame Tree Publishing dedicated to full length original fiction in the horror and suspense science fiction the award winners and exciting original voices

Baldwin,2015-12-03 The science wars have been raging for decades raising many questions about the power of science Some critics claim that science including social science is merely a social construction that fallible humans have created with words and other symbols If this is true is science as formidable a source of knowledge as most scientists claim Baldwin explains why the edifice of science has robust properties that make it one of the most useful forms of knowledge that humans have ever created although it is not perfect He trenchantly examines all sides of the debate and uses the philosophy of pragmatism to reveal the special characteristics that make science work as well as it does Ending the Science Wars shows how science is far better grounded than its critics claim The book not only helps resolve many current debates about science it is a major contribution for explaining science in terms of a powerful philosophical system This makes the book valuable to scientists in all fields of research and intellectually challenging for science's critics **What Happens when We Die** Sam Parnia,2006 Dr Sam Parnia shares the stories of people who have had near death experiences and examines current research on the subject **The World of Horrotica** David Edward Collier,2013-09-05 THE APOCALYPSE CODEX PROPHEZIES

Reflections of a Reluctant Retiree Richard G. Riedel, 2022-03-15 After retirement with time on my hands I decided to sit down and put in print the thoughts that came my way from one reading and another Then I ran into some heart surgery five bypasses and the question Why Why did this happen to me So after that life saving experience in those days when I seemed to be living beyond when I should have perhaps died I took what I have learned in the past and reflected in that history on what I read in the present hoping that I can speak to someone in a future time about a future time about all the possibilities that stand before them as they stood before me Then it will be their turn or maybe your turn to reflect on your life and perhaps share some words with others about their future

Losing the Plot Pardis Dabashi, 2023-11-06 An examination of the relationship between literature and classical Hollywood cinema reveals a profound longing for plot in modernist fiction The modernist novel sought to escape what Virginia Woolf called the tyranny of plot Yet even as twentieth century writers pushed against the constraints of plot driven Victorian novels plot kept its hold on them through the influence of another medium the cinema Focusing on the novels of Nella Larsen Djuna Barnes and William Faulkner writers known for their affinities and connections to classical Hollywood Pardis Dabashi links the moviegoing practices of these writers to the tensions between the formal properties of their novels and the characters in them Even when they did not feature outright happy endings classical Hollywood films often provided satisfying formal resolutions and promoted normative social and political values Watching these films modernist authors were reminded of what they were leaving behind both formally and in the name of aesthetic experimentalism by losing the plot
