1960s Andre Norton's career took a fateful and important turn. Having written adventure science fiction for almost thirty years, she turned to something new: science fantasy with *Witch World*. This unique world of sorceresses and the many others who fight such adversaries as the Kolder, the Hounds of Alizon, and other threats has proven to be Miss Norton's most beloved and popular creation. Three Against the Witch World, Warlock of the Witch World, and Sorceress of the Witch World, the fourth, fifth, and sixth novels in the series, have long been recognized as novels that comprise the core of the series along with the first three novels. Today, decades after their first publication, these novels of adventure, excitement, and daring remain as fresh and original as when they first appeared. For the first time, they are now available in a single volume for new readers of all ages to discover and for fans to rediscover in an attractive, durable new format. *Lost Lands of Witch World* includes a long introduction by Mercedes Lackey. Napoleon is the dreaded Master of the European continent. And Sarah Cunningham, a woman from our own world, knows all too well what a difference this makes. For not long ago, she was ripped from her life as a United States citizen in our history. Sarah, now the Duchess of Wessex, journeys to North America with her new husband, the Duke, but this is no pleasure trip. The fate of the world, New and Old, rests on her saving her friend Meriel, rescuing Louis, rightful King of France, from the clutches of the Marquis de Sade, and finding the Holy Grail. But she and her beloved Duke are beset by perils that will test their strength and spirit to the utmost.

Beast Master's Planet Andre Norton, Lyn McConchie, 2007-04-01. In 1959, Andre Norton published *The Beast Master*, a fast-paced science fiction adventure that introduced to readers a new kind of hero: Hosteen Storm. Storm, a Navajo from the American southwest, served in the Planetary Confederacy forces as a Beast Master, teamed with an African eagle, a meercat, and a dune cat. Telepathically linked to his team animals, Storm served valiantly in the war that eventually defeated the alien Xiks, though victory could not prevent the aliens from destroying Earth. With his homeworld gone, Storm emigrated to the colonized frontier planet Arzor, where he would have to help fight a holdout Xik force that has brought the war to his adopted home. In *Lord of Thunder*, Storm's beast master skills and animal partners are needed to unravel the mystery behind a huge gathering of the indigenous Norbies. Only Storm and his half brother Logan Quade can penetrate the Norbies' clan secrets and discover what is behind the threat of an uprising that could destroy the tenuous peace between the colonists and the aliens who share their planet. These two novels are science fiction adventure at its best. Here is exciting space opera full of colorful, absorbing SF action on an alien world as only Andre Norton can write it. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
