Kern, 2006 Manga from the Floating World is the first full length study in English of the kiby shi a genre of sophisticated pictorial fiction widely read in late eighteenth century Japan By combining analysis of the socioeconomic and historical milieus in which the genre was produced and consumed with three annotated translations of works by major author artist Sant Ky den 1761 1816 that closely reproduce the experience of encountering the originals Adam Kern offers a sustained close reading of the vibrant popular imagination of the mid Edo period The kiby shi Kern argues became an influential form of political satire that seemed poised to transform the uniquely Edoesque brand of urban commoner culture into something more perhaps even a national culture until the shogunal government intervened Based on extensive research using primary sources in their original Edo editions the volume is copiously illustrated with rare prints from Japanese archival collections It serves as an introduction not only to the kiby shi but also to the genre s readers and critics narratological conventions modes of visuality format and relationship to the modern Japanese comicbook manga and to the popular literature and wit of Edo Filled with graphic puns and caricatures these entertaining works will appeal to the general reader as well as to the more experienced student of Japanese cultural history

by the state and dictators Did people recognize that the roses they offered to Stalin and Hitler became a propaganda tool Or were they like the Japanese who including the soldiers did not realize when the state told them to fall like cherry blossoms it meant their deaths Flowers That Kill proposes an entirely new theoretical understanding of the role of quotidian symbols and their political significance to understand how they lead people if indirectly to wars violence and even self exclusion and self destruction precisely because symbolic communication is full of ambiguity and opacity Using a broad comparative approach Emiko Ohnuki Tierney illustrates how the aesthetic and multiple meanings of symbols and at times symbols without images become possible sources for creating opacity which prevents people from recognizing the shifting meaning of the symbols
