**CHURCH: FAITH SEEKING RELATEDNESS** George Gammack, 2015-08-13 We all know what church is Likewise we are provided with a supply of set notions for God Christ and the Bible which make up the stock in trade equipment for both believer and non believer This study asks fundamental questions about all these from a relational perspective attempting to illumine the faith quest by way of clues from the common realities of human interaction In this it is the appropriate provisions of relationships rather than the assent to doctrines that forms the spiritual basis of community Such a theology of relatedness is urgently needed We must come out of our creedal closets to be part of a new diaspora This demands a secret discipline of

servant relationship at work in that no man's land where there is space for all manner of secular saints and doctrinal devils to discover the possibilities of their togetherness the secret service church in odd places and often strange company

*The Subjective Time Traveler* Jeff Layton, 2023-03-03 A short novel about Time Travel you will meet three time travelers as they venture through the past present and future These travelers from three different time epochs don't use a time machine They are subjective time travelers and Lee Boswell who becomes Chrono is taught how to do this after he goes through a gene therapy treatment that allows his brain to shift and dial in time periods in the past present or future The science behind this and consciousness itself is revealed consistently through the narrative Preconceived notions of what time is regarding the past and the future and time travel are brought into a new light of reasoning

4 12 2023 Following is an official OnlineBookClub.org review of *The Subjective Time Traveler* by Jeff Layton Have you ever wished you had a time machine Would you go back and prevent past mistakes and wars Or would you seek a ringside seat at key historical events And what would your time machine look like The eponymous time machine in H G Wells novel had dials and a seat and physically disappeared when it traveled in time In Jeff Layton's novel *The Subjective Time Traveler* however all that's required is a human mind modified to traverse the fourth dimension In this work that I'd consider speculative fiction Layton introduces himself as the channeling writer for the protagonist Chrono He embarks on his time travels after manifesting a master a shaman named Kyodi in a lucid dream Chrono's first time trip is to the ceremony where Kyodi's consciousness leaves his body He feels the frozen tundra underfoot as he walks to a hut the scene is rich in sensual details exemplifying the vivid descriptions that are one of the most enjoyable aspects of this book Another was the range of history and culture that it covered It includes a long list of dates at one point but the channeling writer reassures readers they need not be put off by this and he pauses on events that left a noticeable mark on the space time continuum Some of these were connected with key religious figures This book's spiritual content was inspiring and its insights into the subjectivity of reality can support mental wellness and healing In explaining the scientific basis for time travel using Einstein's theories the channeling writer packed an amazing volume of ideas into a concise work Don't we know that time travel will never be invented because if it had been we'd have met time travelers already In outlining the rules of subjective time travel Layton shows why this is not necessarily the case I'd encourage you to read this book to find out more The system was partly based on the laws of karma I was slightly missing a full explanation of those Rather the author seemed to assume a thorough knowledge of the Buddhist understanding of karma that some readers may not have In that connection including a slightly more detailed explanation of that point could improve this book Otherwise its detailed descriptions and awe inspiring insights into science philosophy and ontology were impressive This book merits a very good rating because it was vivid mind expanding clear and easy to follow Overall this is a highly recommended work of speculative fiction If you've ever wondered about the mechanics of time travel or how paradox can be prevented this will help provide answers No machine with dials is required this is a subjective trip for the mind

*Clutching Poochie* Jane Bozman,2011-12-29 This is a record of how I dealt with sexual abuse before I was old enough to have words to talk about it I have always known Poochie s name but I did not understand who she was It turns out she was the defining presence in my life From the moment I jumped out of my skin on to the wall when I was three I was eager to talk about it with someone Those around me focused on the legal definition of rape I did not know about rape but I wondered why I jumped out of my skin

**Dreams, Doubt, and Dread** Zachary Thomas Settle,Taylor Worley,2016-08-24 Films are modern spiritual phenomena They function as such in at least three profound ways world projection thought experiments and catharsis i e as dreams doubt and dread Understanding film in this way allows for a theological account of the experience that speaks to the religious possibilities of film that far extend the portrayal of religious themes or content *Dreams Doubt and*

Dread The Spiritual in Film aims to address films as spiritual experiences This collection of short essays and dialogues examines films phenomenologically through the experience of the viewer as an agent having been acted upon in the functioning of the film itself Authors were invited to take one of the main themes and creatively consider how film in their experiences has provided opportunities for new modes of thinking Contributors will then engaged one another in a dialogue about the similarities and differences in their descriptions of film as spiritual phenomena The intended aim of this text is to shift contemporary theological film engagement away from a simple mode of analysis in which theological concepts are simply read into the film itself and begin to let films speak for themselves as profoundly spiritual experiences Hybrid

Winship,2018-05-08 Why do we take drugs I haven t the faintest idea but Gary Winship has a damned good go at telling me the answer Some might say this is a largely academic book but as an ex psychiatric nurse and a Jo Public for the last twenty five years I d say there s something in here for everyone We ve all taken drugs at some point in our lives except perhaps my grandma so one way to find out why is by reading this fascinating book Jo Brand comic author and actress *Critical Border*

*Studies* Noel Parker,Nick Vaughan-Williams,2016-03-23 This edited collection formalises Critical Border Studies CBS as a distinctive approach within the interdisciplinary border studies literature Although CBS represents a heterogeneous assemblage of thought the hallmark of the approach is a basic dissatisfaction with the Line in the Sand metaphor as an unexamined starting point for the study of borders A headline feature of each contribution gathered here is a concerted effort to decentre the border By decentring we mean an effort to problematise the border not as taken for granted entity but precisely as a site of investigation On this view the border is not something that straightforwardly presents itself in an unmediated way It is never simply present nor fully established nor obviously accessible Rather it is manifold and in a constant state of becoming Empirically contributors examine the changing nature of the border in a range of cases including the Arctic Circle German Dutch borderlands the India Pakistan region and the Mediterranean Sea Theoretically chapters draw on a range of critical thinkers in support of a new paradigm for border research The volume will be of particular interest to border studies scholars in anthropology human geography international relations and political science *Critical Border Studies* was published as a special issue of *Geopolitics* **The Ruins of Eden** C Walker,2012-11 The Ruins of Eden
