Florence In Transition Volume 1 The Decline:

Florence in Transition Marvin Becker, 2019-08-01 Originally published in 1967 With the waning of the Middle Ages the life of the Italian polis underwent a gradual but unmistakable transformation The leisurely decentralization of the medieval commune which had its roots in feudalism the code of chivalry and religious faith gave place to the tight despotism of the fourteenth century This in turn yielded to democratized government and finally to a stricter legalistic and puritanical rule Marvin Becker's two volume study of Florence examines this metamorphosis and establishes its relationship to the emergence of the Renaissance state Volume One traces the decline of the communal *paideia* in its political social and cultural aspects Through an intensive examination of the fiscal and juridical records of the period and the documents of contemporary literature Dr Becker demonstrates the relationship between the death of communal ideals and the centralization of political power and between the emergence of a strong middle class and a respect for public law He shows the patricians discovering a community of interest with the burghers and the vendetta being replaced by courts of law Finally he traces the growing ability of the Florentine citizenry to cope with crisis through the newly strengthened organs of the republic Volume Two will discuss the establishment of Florence as a Renaissance city state with particular emphasis on the continuum between the medieval commune of the late thirteenth and early fourteenth centuries and the centralized city of the mid fourteenth century A unique contribution of this volume lies in the use made of painstaking and detailed investigation of the voluminous archival resources of the Archivio di Stato of Florence some of which have since been destroyed by the 1966 flood In pursuit of what actually took place during communal council meetings what legislation was passed and what rejected Dr Becker scrutinized tens of thousands of documents in a variety of categories obtaining first hand knowledge of the careers of those in power and gaining illuminating insights into motivations and actions Political social and cultural historians will find *Florence in Transition* Volume One a helpful elucidation of the dynamics of historical change and the birth of a state

In Search of Florentine Civic Humanism, Volume 1 Hans Baron, 2014-07-14 Hans Baron s *Crisis of the Early Italian Renaissance* is widely considered one of the most important works in Italian Renaissance studies Princeton University Press published this seminal book in 1955 Now the Press makes available a two volume collection of eighteen of Professor Baron s essays most of them thoroughly revised unpublished or presented in English for the first time Spanning the larger part of his career they provide a continuation of and complement to the earlier book The essays demonstrate that contemporaneously with the revolution in art modern humanistic thought developed in the city state climate of early Renaissance Florence to a far greater extent than has generally been assumed The publication of these volumes is a major scholarly event a reinforcement and amplification of the author s conception of civic Humanism The book includes studies of

medieval antecedents and special studies of Petrarch Leonardo Bruni and Leon Battista Alberti It offers a thoroughly re

 French and English Humanism of the sixteenth and seventeenth centuries was closely tied to Italian civic thought of the
 fifteenth The work culminates in a reassessment of Jacob Burckhardt s pioneering thought on the Renaissance Originally
