Garden Plants Taxonomy Bijan Dehgan,2023-04-05 Horticulture has remained far behind in understanding of botanical principles Recent phylogenetic DNA based reorganization of higher plants has revolutionized taxonomic treatments of all biological entities even when morphology does not completely agree with their organization This book is an example of applying principals of botanical phylogenetic taxonomy to assemble genera species and cultivars of 200 vascular plant families of ferns gymnosperms and angiosperms that are cultivated for enhancement of human living space homes gardens and parks The emphases are on cultivated species but examples of some plants are often shown in the wild and in landscapes In providing descriptions it is assumed that students and other interested individuals have no background in general botany plant characteristics or nomenclature Fundamental features of all plant groups discussed are fully illustrated by original watercolor drawings or photographs Discussion of the families is grounded on recent botanical phylogenetic treatments which is based on common ancestry monophyly Of course phylogenetic taxonomy is not a new concept and was originally based on morphological characteristics it is the DNA based phylogeny that has revolutionized modern biological classifications In practical terms this book represents the horticultural treatment that corresponds to phylogenetic based botanical taxonomy to which is added cultigens and cultivated genera and species Hence the harmony between horticultural and botanical taxonomy This book covers phylogenetic based taxonomy of Angiosperms Eudicots A companion volume covers Ferns Gymnosperms and Angiosperms Monocots

Heroines of Horticulture Stefan White,2024-10-28 A celebration and a salute to 100 brave determined creative women over the past few centuries who have shaped North America s heritage and landscapes through their horticulture work and contributions Through tales of invention creativity dogged research innovation perspiration and inspiration spanning from the early 1700s to the mid 1980s

Heroines of Horticulture offers readers insight into 100 influential women who met and overcame obstacles to contribute a horticulture legacy that has helped shape the land that surrounds us today in North America. Many of the featured women are unknown or forgotten figures of horticulture history, making this book an overdue opportunity to acknowledge their work and celebrate their achievements that have left a lasting legacy. Profiles include the following: Martha Danielle Logan 1704-1779, An early American botanist who was instrumental in seed exchanges between Britain and the North American colonies. She wrote an influential gardening advice column and was a major collector of plants endemic to the Carolinas. Annie Linda Jack 1839-1912, The first Canadian professional female garden writer. Upon her marriage, she had stipulated for 1 acre of land to be devoted to any department of horticulture; she chose the profits to be her own pocket money. She wrote about her experiences in the Rural New Yorker under the title A Woman's Acre. The American horticulturalist Liberty Hyde Bailey referred to Annie Linda Jack's garden as one of the most original gardens I know. Mary Gibson Henry 1884-1967, An American botanist and plant collector from Lower Merion Township, Pennsylvania, near Philadelphia, who also served as president of the American Horticultural Society. The daylily *Hymenocallis henryae* is named in her honor. Nelva Weber 1908-1990, An American landscape architect who wrote extensively about landscape design. She opened her practice in 1945 in New York City. Prior to that, she worked on the Palisades Parkway with C. C. Combs. She was also employed by the architecture firm Shaw Maess Murphy and later as a designer on city parks for the New York City Parks Department. And many more. *Heroines of Horticulture* is the perfect addition to the shelves and coffee tables of gardening enthusiasts and women's history and feminist history readers and makes a great gift for anyone with a love of gardening or landscape design and history.
