Austin,2010-09-24 A sequel to the popular Zen and the Brain further explores pivotal points of intersection in Zen Buddhism neuroscience and consciousness arriving at a new synthesis of information from both neuroscience research and Zen studies This sequel to the

widely read *Zen and the Brain* continues James Austin's explorations into the key interrelationships between Zen Buddhism and brain research. In *Zen Brain Reflections*, Austin, a clinical neurologist, researcher, and Zen practitioner, examines the evolving psychological processes and brain changes associated with the path of long-range meditative training. Austin draws not only on the latest neuroscience research and new neuroimaging studies but also on Zen literature and his personal experience with alternate states of consciousness. *Zen Brain Reflections* takes up where the earlier book left off. It addresses such questions as: how do placebos and acupuncture change the brain? Can neuroimaging studies localize the sites where our notions of self arise? How can the latest brain imaging methods monitor meditators more effectively? How do long years of meditative training plus brief enlightened states produce pivotal transformations in the physiology of the brain? In many chapters, testable hypotheses suggest ways to correlate normal brain functions and meditative training with the phenomena of extraordinary states of consciousness. After briefly introducing the topic of Zen and describing recent research into meditation, Austin reviews the latest studies on the amygdala, frontotemporal interactions, and paralimbic extensions of the limbic system. He then explores different states of consciousness, both the early superficial absorptions and the later major peak experiences. This discussion begins with the states called *kensho* and *satori* and includes a fresh analysis of their several different expressions of oneness. He points beyond the still more advanced states toward that rare, ongoing stage of enlightenment that is manifest as sage wisdom. Finally, with reference to a delayed moonlight phase of *kensho*, Austin envisions novel links between migraines and metaphors, moonlight and mysticism. The Zen perspective on the self and consciousness is an ancient one. Readers will discover how relevant Zen is to the neurosciences and how each field can illuminate the other.

Enlightened Contemporaries Steve Kanji Ruhl, 2020-06-16

Enlightened Contemporaries is the first book to compare the lives and teachings of three of the world's most admired spiritual masters: Francis of Assisi, the Christian saint; Dogen, the great Zen Buddhist teacher; and Rumi, the Islamic Sufi master. They lived during the same turbulent century. They integrated mystical experiences of the sacred into their lives, and they can inspire us to do the same. *Enlightened Contemporaries* combines robust scholarship with brisk, engaging, lyrical prose. Offering a thorough introduction for the general reader as well as specialists, it will appeal to those who enjoy an interfaith approach to spiritual exploration, one that links Christian, Buddhist, and Islamic mystical teachings within a vibrant historical context and shows how they not only complement each other but remain profoundly relevant in the twenty-first century. Bringing Saint Francis, Dogen, and Rumi vividly to life as complex and compelling human beings, *Enlightened Contemporaries* lucidly explains their spiritual paths, explores the dynamic age in which these three pioneering teachers struggled and triumphed, and investigates their remarkable poetry. It also deftly examines how Francis, Dogen, and Rumi engaged the world in the context of five shared themes: spiritual love, nature, the body, the role of women, and balancing retreat from society with active involvement. By interweaving the spiritual lives of these Christian, Buddhist, and Muslim teachers, *Enlightened Contemporaries* will help

readers enhance their own lives and find new paths of spiritual understanding *Being-Time* Shinshu Roberts,2018-03-20 A tour de force guide to Zen Master Dogen's most subtle and sophisticated philosophical premises that being and time are inseparable. Impermanence is time itself; being itself yet time and being are not at all as we imagine them to be. To really understand and fully embrace this point is to live in a radically different world, a world of awakening, inclusion, and love. Zen Master Dogen frames the teaching on impermanence explicitly as a teaching about time, and all of Dogen's profoundly poetic teachings flow from his seminal understanding of time as expressed in *Uji Being Time*, the famous and famously difficult essay in his masterwork *Shobogenzo*. In *Uji*, Dogen teaches that time itself, being itself, is luminous, awakening. It is all-inclusive, all-elusive, ultimately healing and eternal. In this book, Shinshu Roberts does full justice, as does no other book I know of, to Dogen's words. She offers interpretation of *Uji* only after careful consideration and marshaling of many sources and offers simple, everyday examples to illustrate points that seem at first abstruse. If this text causes you to doubt your most cherished concepts about your life, it will have done its work. From the Foreword by Norman Fischer, *Being Time* thoroughly explores Dogen's teaching on how we practice as Buddhas by understanding the relationship between being and time as it is and as we perceive it to be. Using Dogen's *Shobogenzo*, *Uji: The True Dharma Eye*, *Being Time*, Shinshu Roberts offers a twofold analysis of this teaching: the meaning of the text and practice with the text, giving examples how we apply Dogen's complex teaching to our daily lives. **Appreciate Your Life** Taizan Maezumi,2002-06-11 A collection of short, inspiring teachings on Zen koans, the Buddha, and more, from a leader in introducing Zen Buddhism to the West. Here is the first major collection of the teachings of Taizan Maezumi Rōshi (1931–1995), one of the first Japanese Zen masters to bring Zen to the West and founding abbot of the Zen Center of Los Angeles and Zen Mountain Center in Idyllwild, California. These short, inspiring readings illuminate Zen practice in simple, eloquent language. Topics include zazen and Zen koans, how to appreciate your life as the life of the Buddha, and the essential matter of life and death. *Appreciate Your Life* conveys Maezumi Rōshi's unique spirit and teaching style, as well as his timeless insights into the practice of Zen. Never satisfied with merely conveying ideas, his *teishō* (the Zen talks he gave weekly and during retreats) evoked personal questions from his students. Maezumi Rōshi insisted that his students address these questions in their own lives. As he often said, Be intimate with your life. The readings are not teachings or instructions in the traditional sense. They are transcriptions of the master's *teishō*, living presentations of his direct experience of Zen realization. These *teishō* are crystalline offerings of Zen insight intended to reach beyond the student's intellect to her or his deepest essence. *The Religious History of Central Asia from the Earliest Times to the Present Day* James Throver,2004 This book by the late Dr. James Throver is the first general survey of the religious history of Central Asia, both Muslim and non-Muslim. It covers the history of religion in Central or Inner Asia from pre-history to the aftermath of the fall of communism. **Mystical Vision and Thought in Medieval Sufism** R. S. Bhatnagar,2005 Philosophical assessment of abstract and symbolic notions underlying the spiritual visions of the saints is not an easy task.

Professor Bhatnagar has admirably done this work In ten chapters of this treatise he clarifies the mystical experiences and sayings of medieval Muslim saints and examines them from philosophical standpoint This monograph has its groundings in intensive study of the primary sources in the original like Kashf al Mahjub of Al Hujwiri Risala of Al Qushayri Kitab al luma of Al Sarraj Kitab al ta arruf of Kalabadhi and Tadhikirat al awliya of Attar Quotations of the saints have been given in original language Professor Bhatnagar feels that the teachings of the prophet of Islam are best understood by the Sufis on account of their mystical experiences gained on the Path of God According to the author the chief tenets of medieval Sufism are mahabbat love for God ma rifa knowledge of God and al tawhid soul s unification with God Besides this work is an impartial assessment of divergent taruq Sufi sects and schools of Sufi thought In addition the author has examined the philosophical doctrines of the eminent Sufis of India by an Indian scholar of Philosophy and Islamic mysticism is an excellent addition to the existing knowledge of Sufi thought
