Francis Hutcheson: An Inquiry Concerning Beauty, Order, Harmony, Design F. Hutcheson, 2012-12-06 THE SENSE OF BEAUTY A FIRST APPROXIMATION It is generally acknowledged that during the first half of the eighteenth century a profound change was wrought in the theory of art and natural beauty To this period we owe the establishment of the modern system of the arts 1 In England the notion of a separate and autonomous discipline devoted solely to art and to beauty came into being through the concept of aesthetic disinterestedness 2 In addition emphasis in the theory of art shifted from object to subject from the work of art to the perceiver and critic Focal point for this change was the sense of beauty which in concert with the moral sense of the British school represented a dominant force in Enlightenment value theory It is Francis Hutcheson who more than anyone else can be thought of as the founder and principal spokesman of this philosophical coterie If the aesthetic sense was instrumental in the transfer of interest in the philosophy of art from object to perceiver the aesthetic and moral senses together were no less important in a parallel transference of value judgment from the rational to the sensitive

Edwards on God Sebastian Rehnman, 2020-11-29 Jonathan Edwards is generally acknowledged as one of the foremost American philosophers Edwards on God offers a historically informed philosophical analysis of his arguments for the existence and nature of God The book begins with a characterization

of Edwards's intellectual profile and philosophical theology. It then explicates and evaluates his arguments from the beginning of existence design being in general virtue as benevolence and his account of natural and moral divine attributes. There is no other such treatment of Edwards's metaphysics of divinity. This volume will be primarily relevant to philosophers, historians, and theologians.

Art and Ethical Criticism Garry L. Hagberg, 2010-10-18 Through a series of essays, *Art and Ethical Criticism* explores the complex relationship between the arts and morality. It reflects the importance of a moral life of engagement with works of art. It forms part of the prestigious New Directions in Aesthetics series, which confronts the most intriguing problems in aesthetics and the philosophy of art today.

Kant and the Experience of Freedom Paul Guyer, 1993 This collection of essays by one of the preeminent Kant scholars of our time transforms our understanding of both Kant's aesthetics and his ethics. Guyer shows that at the very core of Kant's aesthetic theory, disinterestedness of taste becomes an experience of freedom and thus an essential accompaniment to morality itself. At the same time, he reveals how Kant's moral theory includes a distinctive place for the cultivation of both general moral sentiments and particular attachments on the basis of the most rigorous principle of duty. Kant's thought is placed in a rich historical context, including such figures as Shaftesbury, Hutcheson, Hume, Burke, Kames, as well as Baumgarten, Mendelssohn, Schiller, and Hegel. Other topics treated are the sublime, natural versus artistic beauty, genius and art, history and duty, and inclination. These essays extend and enrich the account of Kant's aesthetics in the author's earlier book, *Kant and the Claims of Taste* (1979).

Judgments of Beauty in Theory Evaluation Devon Brickhouse-Bryson, 2020-07-01 In *Judgments of Beauty in Theory Evaluation*, Devon Brickhouse-Bryson argues that judgments of beauty are a justified part of theory evaluation of all sorts, including both scientific theory evaluation and philosophical theory evaluation. He supports this argument with an account of beauty inherited from Kant and Mothersill, on which the distinctive nature of judgments of beauty is that they are unprincipled yet possible. Brickhouse-Bryson analyzes two important methods of theory evaluation: reflective equilibrium and simplicity, and argues that these methods require making judgments of beauty understood. He further argues that these methods of theory evaluation are not anomalies but that they point to a deeper lesson about the nature of theorizing and the necessity of using judgments of beauty to evaluate systems like theories. This book has implications for the debate in philosophy of science over judgments of beauty and also prompts a reckoning in philosophy itself over the use of judgments of beauty in philosophical theory evaluation.

Jonathan Edwards's Philosophy of Nature Avihu Zakai, 2010-05-20 *Jonathan Edwards's Philosophy of Nature: The Re-Enchantment of the World in the Age of Scientific Reasoning* analyses the works of Jonathan Edwards (1703-1758) on natural philosophy in a series of contexts within which they may best be explored and understood. Its aim is to place Edwards's writings on natural philosophy in the broad historical, theological, and scientific context of a wide variety of religious responses to the rise of modern science in the early modern period. John Donne's reaction to the new astronomical philosophy of Copernicus, Kepler, and Galileo, as well as to Francis Bacon's new natural

philosophy Blaise Pascal's response to Descartes mechanical philosophy the reactions to Newtonian science and finally Jonathan Edwards's response to the scientific culture and imagination of his time **Osmin's Rage** Peter Kivy, 2018-09-05

In his new concluding chapter Peter Kivy advances his argument on behalf of a distinctive intellectual and musical character of opera before Mozart He proposes that happy endings were a musical as opposed to a dramatic necessity for opera during this period and that Mozart's Idomeneo is properly enjoyed and judged only when listeners are attuned to its seventeenth and eighteenth century forebears *Literary Knowing in Neoclassical France* Ann T. Delehanty, 2013

Literary Knowing in Neoclassical France analyzes the work of several literary critics in France and England at the end of the seventeenth and beginning of the eighteenth centuries who were inspired by the idea that literature especially the literary sublime might offer us the deepest kind of knowledge Dominique Bouhours Nicolas Boileau Ren Rapin John Dennis and the abbé Dubos believed that literature could deliver truths that transcend our world and were analogous or even equal to the truths of divine revelation Ann Delehanty argues that this shift towards the transcendental realm pushed the definition of the literary work away from describing its objective properties and towards its effects on the mind of the reader After placing these ideas about literature in the context of the religious and philosophical thinking of Blaise Pascal Delehanty traces the evolution of a debate about literature in the writings of the critics in question They embraced theories of sentiment and the passions as the epistemological means of identifying and knowing the transcendental aspects of a literary work that eventually came to be known as aesthetics By tracing the historical evolution of the relationship between transcendentalism and aesthetics in French and English neoclassical thought *Literary Knowing in Neoclassical France* provides new and engaging insights into an important moment in our literary history James Thomson Richard Terry, Reader in Eighteenth-Century English Literature Richard Terry, 2000-01-01

James Thomson *Essays for the Tercentenary* is the first collection of essays devoted exclusively to the works of the eighteenth century Scottish poet James Thomson The volume is divided into two sections the first addressing Thomson's writings themselves and the second the reception of his works after his death and their influence on later writers The first section contains essays analyzing the politics and aesthetics of Thomson's major poems and also a reevaluation of Thomson as a heroic dramatist The second section capitalizes on the certainty felt by many in Thomson's own century that the poet especially through his most successful poem *The Seasons* had won for himself an indelible fame This volume provides a definitive reappraisal of his achievement for our own times
