image of mankind in modern times and played an outsized role in both twentieth century art and life from his public emergence with his legendary Triptych 1944 its images so unrelievedly awful that people fled the gallery to his death in Madrid in 1992 Bacon was a witty free spirit and unabashed homosexual at a time when many others remained closeted and his exploits were as unforgettable as his images He moved among the worlds of London s Soho and East End the literary salons of London and Paris and the homosexual life of Tangier Through hundreds of interviews and extensive new research the authors probe Bacon s childhood in Ireland he earned his father s lasting disdain because his asthma prevented him from hunting his increasingly open homosexuality his early design career never before explored in detail the formation of his vision his early failure as an artist his uneasy relationship with American abstract art and his improbable late emergence onto the international stage as one of the great visionaries of the twentieth century In all Francis Bacon Revelations gives us a more complete and nuanced and more international portrait than ever before of this singularly private darkly funny eruptive man and his equally eruptive extraordinary art Bacon was not just an influential artist he helped remake the twentieth century figure

Space and Time in Artistic Practice and Aesthetics Sarah Lippert, 2017-06-30 When the Enlightenment thinker Gotthold Ephraim Lessing wrote his treatise *Laocoon An Essay on the Limits of Painting and Poetry* in 1766 he outlined the strengths and weaknesses of each art Painting was assigned to the realm of space poetry to the realm of time *Space and Time in Artistic Practice and Aesthetics* explores how artists since the eighteenth century up to the present day have grappled with the consequences of Lessing's theory and those that it spawned As the book reveals many artists have been and continue to be influenced by Lessing's theories which have percolated into the art education and art criticism Artists from Jean Raoux to Willem de Kooning and Francis Bacon and art critics such as Clement Greenberg have felt the weight of Lessing's theories in their modes of creation whether consciously or not Should we sound the death knell for the theories of Lessing and his kind Or will conceptions of temporality spatiality and artistic competition continue to unfold This book the first to consider how Lessing's writings connect to visual art's production brings these questions to the fore

Art and Death Chris Townsend, 2008-07-29 This highly sensitive and beautifully written book looks closely at the way contemporary Western artists negotiate death both as personal experience and in the wider community Townsend discusses but moves beyond the spectacle of death in work by artists such as Damien Hirst to see how mortality in particular the experience of other people's death brings us face to face with profound ethical and even political issues He looks at personal responses to death in the work of artists as varied as Francis Bacon Tracey Emin and Derek Jarman whose film *Blue* is discussed here in depth Exploring the last body of work by the Kentucky based photographer Ralph Eugene Meatyard and Jewish American installation artist Shimon Attie's powerful memorial work for the community of Aberfan Townsend considers death in light of the injunction to love thy neighbour

Francis Bacon and the Loss of Self Ernst van Alphen, 1993 Since his death in April 12 Francis Bacon has been acclaimed as one of the very greatest of modern painters Yet most analyses of Bacon actually neutralize his work by discussing it as an existential expression and as the horrifying communication of an isolated individual which simply transfers the pain in the paintings back to Bacon himself This study is the first attempt to account for the pain of the viewer It is also most challengingly an explanation of what Bacon's art tells us about ourselves as individuals For during this very personal investigation the author comes to realize that the effect of Bacon's work is founded upon the way that each of us carves our identity out of the inchoate evidence of our senses using the conventions of representation as tools It is in his warping of these conventions of the senses rather than in the superficial distortion of his images that Bacon most radically confronts art and ourselves as individuals

Bacon Luigi Ficacci, 2003 This introductory volume

shows the best of Francis Bacon's work **Time and Uncertainty** Paul Andre Harris, Michael Crawford, 2004-01-01 The essays in this volume all originated at the 2001 conference of the International Society for the Study of Time The theme Time and Uncertainty sounds redundant but the contributions try to come to terms with the irreducible openness of time and the impermanence of life The essays from various disciplines have been grouped around fracture and rupture grappling with time and uncertainty as a breach and rapture and structure solving uncertainty into pattern Francis Bacon, Paintings Francis Bacon, Marlborough Gallery, 1990 May 23 June 29 1990 **Portraiture** Joanna Woodall, 1997-03-15 Portraiture the most popular genre of painting occupies a central position in the history of Western art Despite this its status within academic art theory is uncertain This volume provides an introduction to major issues in its history Francis Bacon in Your Blood Michael Peppiatt, 2015-08-27 It is a story I have been wanting to write for a long time telling it as it really was before that whole world that I shared with Francis vanishes Michael Peppiatt met Francis Bacon in June 1963 in Soho's French House to request an interview for a student magazine that he was editing Bacon invited him to lunch and over oysters and Chablis they began a friendship and a no holds barred conversation that would continue until Bacon's death thirty years later Fascinated by the artist's brilliance and charisma Peppiatt accompanied him on his nightly round of prodigious drinking from grand hotel to louche club and casino seeing all aspects of Bacon's gilded gutter life and meeting everybody around him from Lucian Freud and Sonia Orwell to East End thugs from predatory homosexuals to Andy Warhol and the Duke of Devonshire He also frequently discussed painting with Bacon in his studio where only the artist's closest friends were ever admitted The Soho photographer John Deakin who introduced the young student to the famous artist called Peppiatt Bacon's Boswell Despite the chaos that Bacon created around him Peppiatt managed to record scores of their conversations ranging over every aspect of life and art love and death the revelatory and hilarious as well as the poignantly tragic Gradually Bacon became a kind of father figure for Peppiatt and the two men's lives grew closely intertwined In this intimate and deliberately indiscreet account Bacon is shown close up grand and petty tender and treacherous by turn and often quite unlike the myth that has grown up around him This is a speaking portrait a living likeness of the defining artist of our times **Francis Bacon** Gilles Deleuze, 2003-06-22 Gilles Deleuze was one of the most influential and revolutionary philosophers of the twentieth century Francis Bacon The Logic of Sensation is his long awaited work on Bacon widely regarded as one of the most radical painters of the twentieth century The book presents a deep engagement with Bacon's work and the nature of art Deleuze analyzes the distinctive innovations that came to mark Bacon's style the isolation of the figure the violation deformations of the flesh the complex use of color the method of chance and the use of the triptych form Along the way Deleuze introduces a number of his own famous concepts such as the body without organs and the diagram and contrasts his own approach to painting with that of both the phenomenological and the art historical traditions Deleuze links Bacon's work to CTzanne's notion of a logic of sensation which reaches its summit in color and the coloring sensation Investigating this

logic Deleuze explores Bacon's crucial relation to past painters such as Velasquez, Cézanne and Soutine as well as Bacon's rejection of expressionism and abstract painting. Long awaited in translation, Francis Bacon is destined to become a classic philosophical reflection on the nature of painting.

T. S. Eliot and the Ideology of Four Quartets John Xiros Cooper, 1995-12-14. Criticism of Eliot has ignored the public dimension of his life and work. His poetry is often seen as the private record of an internal spiritual struggle. Professor Cooper shows how Eliot deliberately addressed a North Atlantic mandarin class fearful of social disintegration during the politically turbulent 1930s. Almost immediately following publication, *Four Quartets* was accorded canonical status as a work that promised a personal harmony divorced from the painful disharmonies of the emerging postwar world. Cooper connects Eliot's careers as banker, director and editor to a much wider cultural agenda. He aimed to reinforce established social structures during a period of painful political transition. This powerful and original study re-establishes the public context in which Eliot's work was received and understood. It will become an essential reference work for all interested in a wider understanding of Eliot and of Anglo-American cultural relations.

After Francis Bacon Nicholas Chare, 2017-07-05. Like an analyst listening to a patient, this study attends not just to what is said in David Sylvester's interviews with Francis Bacon but also crucially to what is left unspoken, revealing interruptions and caesuras. Through interpreting these silences, *After Francis Bacon* breaks with stereotypical ideas about the artist's work and provides new readings and avenues of research. *After Francis Bacon* is the first book to give extended consideration to the way the reception of Bacon's art, including Gilles Deleuze's influential text on the artist, has been shaped by the Sylvester interviews and to move beyond the limiting effects of the interviews, providing fresh interpretations. Nicholas Chare draws upon recent developments in psychoanalysis and forensic psychology to present innovative readings of Bacon's work, primarily based on the themes of sadomasochism and multi-sensory perception. Through bringing Bacon's paintings into dialogue with Joseph Conrad's *Heart of Darkness* and the film *Alien*, he also provides original insights into the ethical relevance the artist's works have for today. This study addresses the complexities of the artist's practice, particularly in relation to sexuality and synaesthesia, and additionally forms a crucial intervention within current debates about creative writing in art history.
