**Bibliographia Cartesiana** Gregor Sebba, 2012-12-06 This book offers a new type of working tool for Cartesian studies It presents the literature of the last 160 years in alphabetical order Part Two combined with a systematic analytical survey Part One and a detailed topical index to the whole Part Three This organization makes it possible to turn bibliograph y from a repository of references into a workshop of research The systematic survey of Part One and the topical index of Part Three together offer a mise au point of Descartes studies over their full historical and topical range The results have often been surprising and illuminating to the author and if his experience is any guide the reader too will begin to wonder about certain seemingly well settled points or marvel at the Protean shapes which our elusive philosopher assumes when mighty commentators force him to reveal his true nature A work which has been in the making for fifteen years must show the traces of expansion in scope and changes in evaluation Bibliographia cartesiana amends my Descartes chapter in A Critical Bibliography of French Literature v 3 1961 see no I9a and supersedes an earlier version of Parts One and Two published in 1959 under the main title Descartes and his Philosophy v 1 set no I8a Part I Introduction to
