Men and the Making of Modern British Feminism Arianne Chernock, 2009-12-18 Men and the Making of Modern British Feminism calls fresh attention to the forgotten but foundational contributions of men to the creation of modern British feminism Focusing on the revolutionary 1790s the book introduces several dozen male reformers who insisted that women s emancipation would be key to the establishment of a truly just and rational society These men proposed educational reforms assisted women writers into print and used their training in religion medicine history and the law to challenge common assumptions about women s legal and political entitlements This book uses men s engagement with women s rights as a platform to reconsider understandings of gender in eighteenth century Britain the meaning and legacy of feminism and feminism s relationship more generally to traditions of radical reform and enlightenment

Debating the Woman Question in the French Third Republic, 1870-1920 Karen Offen, 2018-01-11 Karen Offen offers a magisterial reconstruction and analysis of the debates around relations between women and men how they are constructed and how they should be organized that raged in France and its French speaking neighbors from 1870 to 1920 The woman question encompassed subjects from maternity and childbirth and the upbringing and education of girls to marriage practices and property law the organization of households the distribution of work inside and outside the household intimate sexual relations religious beliefs and moral concerns government sanctioned prostitution economic and political citizenship and the politics of population growth The book shows how the expansion of economic opportunities for women and the drop in the birth rate further exacerbated the debates over their status roles and possibilities With the onset of the First World War these debates were temporarily placed on hold but they would be revived by 1916 and gain momentum during France s post war recovery

Enlightenment Contested Jonathan I. Israel, 2006-10-12 Jonathan Israel presents the first major reassessment of the Western Enlightenment for a generation Continuing the story he began in the best selling Radical Enlightenment and now focusing his attention on the first half of the eighteenth century he returns to the original sources to offer a groundbreaking new perspective on the nature and development of the most important currents in modern thought Israel traces many of the core principles of Western modernity to their roots in the social political and philosophical ferment of this period the primacy of reason democracy racial equality feminism religious toleration sexual emancipation and freedom of expression He emphasizes the dual character of the Enlightenment and the bitter struggle between on the one hand a generally dominant anti democratic mainstream supporting the monarchy aristocracy and ecclesiastical authority and on the other a largely repressed democratic republican and materialist radical

fringe He also contends that the supposedly separate French British German Dutch and Italian enlightenments interacted to such a degree that their study in isolation gives a hopelessly distorted picture A work of dazzling and highly accessible scholarship *Enlightenment Contested* will be the definitive reference point for historians philosophers and anyone engaged with this fascinating period of human development **Beyond the Canon** M. Grever, S. Stuurman, 2007-10-11 *Beyond the Canon* deals with recent politicized processes of canonization and its implications for historical culture in a globalizing and postcolonial world The volume discusses the framing and transmission of historical knowledge and its consequences for the construction of narratives and the teaching of history in multicultural environments Catharine Macaulay's Republican Enlightenment Karen Green, 2020-05-05 The celebrated Catharine Macaulay was both lauded and execrated during the eighteenth century for her republican politics and her unconventional second marriage This comprehensive biography in the life and letters tradition situates her works in their political and social contexts and offers an unprecedented detailed account of the content and influence of her writing the arguments she developed in her eight volume history of England and her other political ethical and educational works Her disagreements with conservative opponents David Hume Edmund Burke and Samuel Johnson are developed in detail as is her influence on more progressive admirers such as Thomas Jefferson Jacques Pierre Brissot Mercy Otis Warren and Mary Wollstonecraft Macaulay emerges as a coherent and influential political voice whose attitudes and aspirations were characteristic of those enlightenment republicans who grounded their progressive politics in rational religion She looked back to the seventeenth century levellers and parliamentarians as important precursors who had advocated the liberty and political rights she aspired to see implemented in Great Britain America and France Her defence of republican liberty and the equal rights of men offers an important corrective to some contemporary accounts of the character and origins of democratic republicanism during this crucial period *A Woman Who Defends All the Persons of Her Sex* Gabrielle Suchon, 2010-05-15 During the oppressive reign of Louis XIV Gabrielle Suchon 1632 1703 was the most forceful female voice in France advocating women s freedom and self determination access to knowledge and assertion of authority This volume collects Suchon s writing from two works *Treatise on Ethics and Politics* 1693 and *On the Celibate Life Freely Chosen or Life without Commitments* 1700 and demonstrates her to be an original philosophical and moral thinker and writer Suchon argues that both women and men have inherently similar intellectual corporeal and spiritual capacities which entitle them equally to essentially human prerogatives and she displays her breadth of knowledge as she harnesses evidence from biblical classical patristic and contemporary secular sources to bolster her claim Forgotten over the centuries these writings have been gaining increasing attention from feminist historians students of philosophy and scholars of seventeenth century French literature and culture This translation from Domna C Stanton and Rebecca M Wilkin marks the first time these works will appear in English The Emplantation of Catholicism in Pre-modern Korea Kevin N. Cawley, 2025-02-06 Tracing the development of Catholic ideas in Japan and China during the late sixteenth and early

seventeenth century this book provides an overview of the evolution of the missionary strategy in East Asia while focusing on the early emplantation of Catholicism in Korea Kevin Cawley recreates the tumultuous period for gender relations and explores interreligious interactions between Confucians and Catholics Highlighting the textual production this period inspired this book examines writings such as the catechism of the Italian Jesuit Matteo Ricci 1552 1610 which went on to convert a group of elite Confucian scholars to the new religion It also underscores the importance of the vernacular catechism written by Chong Yakchong 1760 1801 a convert from a prominent Confucian family who was eventually executed Chong s text made Catholicism easily understandable for women as well as men from lower social classes who eventually converted in significant numbers effecting real social change Outlining the shift from rejection to acceptance of new texts composed by early Korean converts this book explores emergent Catholicism in Japan China and Korea as well as the various challenges encountered and how the mission strategy changed as a result Exploring gender relations both in relation to Confucianism and Catholics during this period this book provides insight into this previously under researched aspect of East Asian Catholicism In this study we learn how religious persecution and political tactics manipulated terrified and exterminated converts to Catholicism From European Jesuits to Korean Confucians this book outlines a fascinating journey of intercultural engagement between Western and Eastern worldviews

Rousseau Today Neal Harris, Denis Bosseau, Ployjai Pintobtang, Owen Brown, 2023-05-30 This book demonstrates that Rousseau offers a distinctive critical voice which is worthy of listening to Rousseau is shown to target not merely social injustices but the very dynamics central to the form of life itself As such we are able to contemplate and engage in a more foundational form of social critique We contend that by returning to Rousseau both as a theorist in his own right and as an interlocutor with the contemporary literature within radical political and social philosophy we can see both the circumscribed nature of contemporary discussion and the true importance of Rousseau s thought In summary Rousseau remains a figure of vital importance across disciplines and it is high time for an edited volume which connects insights centring his thought and impact today

The Routledge Handbook of Dehumanization Maria Kronfeldner, 2021-02-25 A striking feature of atrocities as seen in genocides civil wars or violence against certain racial and ethnic groups is the attempt to dehumanize to deny and strip human beings of their humanity Yet the very nature of dehumanization remains relatively poorly understood The Routledge Handbook of Dehumanization is the first comprehensive and multidisciplinary reference source on the subject and an outstanding survey of the key concepts issues and debates within dehumanization studies Organized into four parts the Handbook covers the following topics The history of dehumanization from Greek Antiquity to the 20th century contextualizing the oscillating boundaries dimensions and hierarchies of humanity in the history of the West How dehumanization is contemporarily studied with respect to special contexts as part of social psychology as part of legal studies or literary studies and how it connects to the idea of human rights disability and eugenics the question of animals and the issue of moral standing How to tackle its complex facets with

respect to the perpetrator s and the target s perspective metadehumanization and selfdehumanization rehumanization social death status and interdependence as well as the fear we show toward robots that become too human for us Conceptual and epistemological questions on how to distinguish different forms of dehumanization and neighboring phenomena on why dehumanization appears so paradoxical and on its connection to hatred essentialism and perception Essential reading for students and researchers in philosophy history psychology and anthropology this Handbook will also be of interest to those in related disciplines such as politics international relations criminology legal studies literary studies gender studies disability studies or race and ethnic studies as well as readers from social work political activism and public policy Women, Imagination and the Search for Truth in Early Modern France Rebecca M. Wilkin, 2016-12-05 Grounded in medical juridical and philosophical texts of sixteenth and seventeenth century France this innovative study tells the story of how the idea of woman contributed to the emergence of modern science Rebecca Wilkin focuses on the contradictory representations of women from roughly the middle of the sixteenth century to the middle of the seventeenth and depicts this period as one filled with epistemological anxiety and experimentation She shows how skeptics including Montaigne Marie de Gournay and Agrippa von Nettesheim subverted gender hierarchies and or blurred gender difference as a means of questioning the human capacity to find truth while positivists who strove to establish new standards of truth for example Johann Weyer Jean Bodin and Guillaume du Vair excluded women from the search for truth The book constitutes a reevaluation of the legacy of Cartesianism for women as Wilkin argues that Descartes opening of the search for truth even to women was part of his appropriation of skeptical arguments This book challenges scholars to revise deeply held notions regarding the place of women in the early modern search for truth their role in the development of rational thought and the way in which intellectuals of the period dealt with the emergence of an influential female public *The Shock of the Ancient* Larry F. Norman, 2011-04-15 The cultural battle known as the Quarrel of the Ancients and Moderns served as a sly cover for more deeply opposed views about the value of literature and the arts One of the most public controversies of early modern Europe the Quarrel has most often been depicted as pitting antiquarian conservatives against the insurgent critics of established authority The Shock of the Ancient turns the canonical vision of those events on its head by demonstrating how the defenders of Greek literature rather than clinging to an outmoded tradition celebrated the radically different practices of the ancient world At a time when the constraints of decorum and the politics of French absolutism quashed the expression of cultural differences the ancient world presented a disturbing face of otherness Larry F Norman explores how the authoritative status of ancient Greek texts allowed them to justify literary depictions of the scandalous The Shock of the Ancient surveys the diverse array of aesthetic models presented in these ancient works and considers how they both helped to undermine the rigid codes of neoclassicism and paved the way for the innovative philosophies of the Enlightenment Broadly appealing to students of European literature art history and philosophy this book is an important contribution to early modern literary and

cultural debates *Religious Transformation in Modern Asia*, 2015-02-24 This volume explores the religious transformation of each nation in modern Asia When the Asian people who were not only diverse in culture and history but also active in performing local traditions and religions experienced a socio political change under the wave of Western colonialism the religious climate was also altered from a transnational perspective Part One explores the nationals of China Taiwan Hong Kong Korea and Japan focusing on the manifestations of Japanese religion Chinese foreign policy the British educational system in Hong Kong in relation to Tibetan Buddhism the Korean women of Catholicism and the Scottish impact in late nineteenth century Korea Part Two approaches South Asia through the topics of astrology the works of a Gujar t saint and Himalayan Buddhism The third part is focused on the conflicts between indigenous religions and colonialism Buddhism and Christianity Islam and imperialism and Hinduism and Christianity in Southeast Asia **Popular Opera in**

Enlightenment Dan Edelstein, 2010-12-15 What was the Enlightenment Though many scholars have attempted to solve this riddle none has made as much use of contemporary answers as Dan Edelstein does here In seeking to recover where when and how the concept of the Enlightenment first emerged Edelstein departs from genealogies that trace it back to political and philosophical developments in England and the Dutch Republic According to Edelstein by the 1720s scholars and authors in France were already employing a constellation of terms such as *l esprit philosophique* to describe what we would today call the Enlightenment But Edelstein argues that it was within the French Academies and in the context of the Quarrel of the Ancients and the Moderns that the key definition concepts and historical narratives of the Enlightenment were crafted A

necessary corrective to many of our contemporary ideas about the Enlightenment Edelstein's book turns conventional thinking about the period on its head Concise clear and contrarian The Enlightenment will be welcomed by all teachers and students of the period
