Frank Lloyd Wright The Lost Years 1910 1922 A Study Of Influence:

Frank Lloyd Wright--the Lost Years, 1910-1922 Anthony Alofsin, 1993 New definition to the little known work Wright produced during this period which he describes as Wright's primitivist phase He traces this influence in his art through Wright's explorations of primitivist sources innovations in sculpture and an intensification of the architect's use of ornament Less tangible but as important was Wright's view of himself his art and society and Alofsin uncovers the European impact on Frank Lloyd Wright Anthony Alofsin, 2009 This is the first book to examine the the architect s image of himself as a influence of America's most celebrated architect Frank Lloyd Wright on architecture around the world Anthony Alofsin a leading FLW scholar was consulting curator for the 1994 retrospective of the architect at the Museum of Modern Art New Building Character Charles L. Davis II,2019-09-06 In the nineteenth century paradigm of architectural organicism the notion that buildings possessed character provided architects with a lens for relating the buildings they designed to the populations they served Advances in scientific race theory enabled designers to think of race and style as manifestations of natural law just as biological processes seemed to inherently regulate the racial characters that made humans a perfect fit for their geographical contexts architectural characters became a rational product of design Parallels between racial and architectural characters provided a rationalist model of design that fashioned some of the most influential national building styles of the past from the pioneering concepts of French structural rationalism and German tectonic theory to the nationalist associations of the Chicago Style the Prairie Style and the International Style In Building Character Charles Davis traces the racial charge of the architectural writings of five modern theorists Eugene Emmanuel Viollet le Duc Gottfried Semper Louis Sullivan Frank Lloyd Wright and William Lescaze to highlight the social political and historical significance of the spatial structural and ornamental elements of modern architectural styles Sullivans City Zanten David Van, 2000-07-04 Finally the brilliant pencil execution of ornament in his old age became a surrogate for the great architectural projects realized earlier David Van Zanten's essay on how Sullivan's ornament shaped the city is illuminated by archival views and new color photographs by architectural photographer Cervin Robinson BOOK JACKET The Show to End All Shows Kathryn Smith, 2004 Discussion and documents relating to an exhibition called Frank Lloyd Wright American Architect held at the Museum of Modern Art from Nov 12 1940 to Jan 5 1941 **Drawing the Future** David Van Zanten, Ashley Elizabeth Dunn, Leslie Coburn, 2013-04-30 Drawing the Future Chicago Architecture on the International Stage 1900 1925 is an illustrated catalog with companion essays for an exhibition of the same name at the Mary and Leigh Block Museum of Art at Northwestern University Drawing the Future explores the creative ferment among Chicago architects in the early twentieth century coinciding with similar visions around the world The essays focus on the highlights of the exhibition David Van Zanten profiles Walter Burley Griffin and Marion Mahony Griffin Chicago architects who created an influential prize winning plan for Canberra the new capital of Australia Ashley Dunn looks at the two exhibits at the Mus e des Arts D coratifs in Paris

one devoted to the Griffins in 1914 and the other to the French architect Tony Garnier in 1925 demonstrating the impact of World War I on city planning and architecture Leslie Coburn examines Chicago s Neighborhood Center Competition of 1914 15 which sought to redress gaps in Daniel Burnham's plan of 1909 The ambition and reach of Chicago architecture in this epoch would have lasting influence on cities of the future Plaqued by Fire Paul Hendrickson, 2019 From the award winning and nationally best selling author of Hemingway's Boat and Sons of Mississippi an illuminating pathbreaking biography that will change the way we understand the life mind and work of the premier American architect Frank Lloyd Wright has long been known as a rank egotist who held in contempt almost everything aside from his own genius Harder to detect but no less real is a Wright who fully understood and suffered from the choices he made This is the Wright whom Paul Hendrickson reveals in this masterful biography the Wright who was haunted by his father about whom he told the greatest lie of his life And this we see is the Wright of many other neglected aspects of his story his close and perhaps romantic relationship with friend and early mentor Cecil Corwin the eerie unmistakable role of fires in his life the connection between the Tulsa Race Riot of 1921 and the murder of his mistress her two children and four others at his beloved Wisconsin home by a black servant gone mad In showing us Wright's facades along with their cracks Hendrickson helps us form a fresh deep and more human understanding of the man With prodigious research unique vision and his ability to make sense of a life in ways at once unexpected poetic and undeniably brilliant he has given us the defining book on Wright Crafting a Modern World Kurt Helfrich, William Whitaker, 2006-10-12 Crafting a Modern World examines a missing chapter in the history of mid century modernism the story of husband and wife design team Antonin and Noemi Raymond This is the first comprehensive book in English on the duo that creatively transformed design from 1917 to 1966 BOOK JACKET I. R. Davidson Lilian Pfaff,2019-09-02 Julius Ralph Davidson is widely known as the architect of Thomas Mann's house Born 1889 in Berlin Davidson left Germany in 1923 and emigrated to the USA In Los Angeles he designed some 150 projects among them three houses for the experimental Case Study House Program This long overdue publication is a comprehensive documentation of Davidson's life and work highlighting J R's contribution to modernism in California in the 1930s and 1940s The Tender **Detail** Daniel E. Snyder, 2020-06-25 The Tender Detail tells a story about the repression of sentimentality through architectural ornament The protagonists are Louis H Sullivan and Frank Lloyd Wright two of the most important architects and designers of ornament in American history Interweaving close readings of their architecture and writings with wide ranging discussions about sexuality gender and philosophy the book explores how both men worked to solve the problem of late nineteenth century ornamentation It suggests that their solutions while widely different were both intimately rooted in the tender emotions of sentimentality Viewing ornament in this way reveals much not only about Sullivan and Wright's artistic intentions but also about the role of affect the value of beauty and the agency and ontology of objects Illuminated by personal stories from their respective autobiographies which add a level of human interest unusual in an academic work The

Tender Detail is a readable scholarly study which sheds fresh light on Sullivan and Wright's relationship their work and on Four Centuries of Dutch-American Relations Hans Krabbendam, Cornelis A. van the nature of ornament itself Minnen, Giles Scott-Smith, 2009-09-09 A comprehensive history of bilateral relations between the Netherlands and the United The Maya Megan E. O'Neil,2022-07-06 An illuminating look at the myriad communities who have engaged with the ancient Maya over the centuries This book reveals how the ancient Maya and their buildings ideas objects and identities have been perceived portrayed and exploited over five hundred years in the Americas Europe and beyond Engaging in interdisciplinary analysis the book summarizes ancient Maya art and history from the preclassical period to the Spanish invasion as well as the history of outside engagement with the ancient Maya from Spanish invaders in the sixteenth century to later explorers and archaeologists taking in scientific literature visual arts architecture world s fairs and Indigenous activism It also looks at the decipherment of Maya inscriptions Maya museum exhibitions and artists responses and contemporary Maya people s engagements with their ancestral past Featuring the latest research this book will interest scholars as well as general readers who wish to know more about this ancient fascinating culture **Writing Architecture** Carter Wiseman, 2014-07-21 Writing Architecture considers the process methods and value of architecture writing based on Wiseman s 30 years of experience in writing editing and teaching young architects how to write This book creatively tackles a problematic issue that Wiseman considers crucial to successful architecture writing clarity of thinking and expression He argues that because we live our lives within the built environment architecture is the most comprehensive and complex of all art forms Written as a primer for both college level students and practitioners Writing Architecture acknowledges and explores the boundaries between different techniques of architecture writing from myriad perspectives and purposes Using excerpts from writers in different genres and from different historical periods Wiseman offers a unique and authoritative perspective on the comprehensible writing skills needed for success Karl Langer ,2021-12-30 Despite a European training and an early career working with Peter Behrens a migration from Vienna to the Australian state of Queensland positioned the architect Karl Langer 1903 1969 at the very edge of both European and Australian modernism Confronted by tropical heat and glare the economics of affordable housing fiercely proud and regional architectural practices and a suspicion of the foreign Langer moulded the European language of international modernism to the unique climatic and social conditions of tropical Australia This book will tell Langer's story through a series of edited essays focused on key themes and projects Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects it is both an examination of an architect s work and international legacy and also a case study in the trans global dissemination of design ideas Studying the architect's built and proposed work both regional and metropolitan the scale and reach of Langer's practice will be considered for the first time showing how given his continued influence on the contemporary culture of tropical design Langer has been unjustly ignored by the historiography of both Australian and Modernist architecture to date **Egypt and Austria XII - Egypt and the Orient: The Current Research** Mladen Tomorad,2020-09-24 The 12th Egypt and Austria conference Zagreb September 2018 saw 39 presentations on current research related to the interactions between Egypt and the states of the former Habsburg Monarchy and the Ottoman Empire up to the middle of the 20th century 26 papers are presented in this proceedings volume

Resisting Postmodern Architecture Stylianos Giamarelos, 2022-01-10 Since its first appearance in 1981 critical regionalism has enjoyed a celebrated worldwide reception. The 1990s increased its pertinence as an architectural theory that defends the cultural identity of a place resisting the homogenising onslaught of globalisation Today its main principles such as acknowledging the climate history materials culture and topography of a specific place are integrated in architects education across the globe But at the same time the richer cross cultural history of critical regionalism has been reduced to schematic juxtapositions of the global with the local Retrieving both the globalising branches and the overlooked cross cultural roots of critical regionalism Resisting Postmodern Architecture resituates critical regionalism within the wider framework of debates around postmodern architecture the diverse contexts from which it emerged and the cultural media complex that conditioned its reception In so doing it explores the intersection of three areas of growing historical and theoretical interest postmodernism critical regionalism and globalisation Based on more than 50 interviews and previously unpublished archival material from six countries the book transgresses existing barriers to integrate sources in other languages into anglophone architectural scholarship In so doing it shows how the periphery was not just a passive recipient but also an active generator of architectural theory and practice Stylianos Giamarelos challenges long held central notions of supposedly international discourses of the recent past and outlines critical regionalism as an unfinished project apposite for the 21st century on the fronts of architectural theory history and historiography When Buildings Speak Anthony Alofsin, 2006 The canonical inventors of International Style have long dominated studies of modern European architecture But in this text Anthony Alofsin broadens this scope by exploring the rich yet overlooked architecture of the late Austro Wright on Exhibit Kathryn Smith, 2022-07-12 The first history of Frank Lloyd Hungarian Empire and its successor states Wright's exhibitions of his own work a practice central to his career More than one hundred exhibitions of Frank Lloyd Wright's work were mounted between 1894 and his death in 1959 Wright organized the majority of these exhibitions himself and viewed them as crucial to his self presentation as his extensive writings He used them to promote his designs appeal to new viewers and persuade his detractors Wright on Exhibit presents the first history of this neglected aspect of the architect s influential career Drawing extensively from Wright's unpublished correspondence Kathryn Smith challenges the preconceived notion of Wright as a self promoter who displayed his work in search of money clients and fame She shows how he was an artist architect projecting an avant garde program an innovator who expanded the palette of installation design as technology evolved and a social activist driven to revolutionize society through design While Wright's earliest exhibitions

were largely for other architects by the 1930s he was creating public installations intended to inspire debate and change public perceptions about architecture The nature of his exhibitions expanded with the times beyond models drawings and photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum Placing Wright's exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century Wright on Exhibit features color renderings photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright's supervision Palgrave Handbook of Educational Thinkers Brett A. Geier, 2024-08-21 This handbook presents a durable comprehensive and up to date resource covering the seminal thinkers in education of past and present Each entry will capture the professional background of a legendary thinker and presents their key insights new thinking and major legacies to the field of education Carefully brought together to present a balance of gender and geographical contexts as well as areas of thought and work in the broad field of education this handbook provides a unique history and overview of figures who have shaped education and educational thinking throughout the world **Josef Frank** Christopher Long, Josef Frank, 2002 Architect designer and theorist Josef Frank 1885 1967 was known throughout Europe in the 1920s as one of the continent's leading modernists Yet despite his important contributions to the development of modernism Frank has been largely excluded from histories of the movement Josef Frank Life and Work is the first study that comprehensively explores the life ideas and designs of this complex and controversial figure Educated in Vienna just after the turn of the century Frank became the leader of the younger generation of architects in Austria after the First World War But Frank fell from grace when he emerged as a forceful critic of the extremes of modern architecture and design during the early 1930s Dismissing the demands for a unified modern style Frank insisted that it was pluralism not uniformity that most characterized life in the new machine age He called instead for a more humane modernism one that responded to people s everyday needs and left room for sentimentality and historical influences He was able to put these ideas into practice when in 1933 he was forced to leave Vienna for Sweden There his work came to define Swedish or Scandinavian modern design For more than thirty years he was the chief designer for the Stockholm furnishings firm Svenskt Tenn producing colorful cozy and eclectic designs that provided a refreshing alternative to the architectural mainstream of the day and presaged the coming revolt against modernism in the 1960s In this sensitive study of one of the twentieth century s seminal architects and thinkers Christopher Long offers new insight into Josef Frank's work and ideas and provides an important contribution to the understanding of modernist culture and its history
