Wright, 2015-05-27 The study of history in Canada has a history of its own and its development as an academic discipline is a multifaceted one The Professionalization of History in English Canada charts the transition of the study of history from a leisurely pastime to that of a full blown academic career for university trained scholars from the mid nineteenth to the late twentieth century Donald Wright argues that professionalization was not in fact a benign process nor was it inevitable It was deliberate Within two generations historians saw the creation of a professional association the Canadian Historical Association and rise of an academic journal the Canadian Historical Review Professionalization was also gendered In an effort to raise the status of the profession and protect the academic labour market for men male historians made a concerted effort to exclude women from the academy History's professionalization is best understood as a transition from one way of organizing intellectual life to another What came before professionalization was not necessarily inferior but rather a different perspective of history As well Wright argues convincingly that professionalization inadvertently led to a popular inverse the amateur historian whose work is often more widely received and appreciated by the general public      **The University of Toronto** Martin L. The Spinster and the Prophet Brian Mckillop, 2011-11-30 Winner of the UBC Medal for Biography and shortlisted for the Drainie Taylor Biography Prize The prolific novelist and social prophet H G Wells had a way with words and usually he had his way with women That is until he encountered the feisty Toronto spinster Florence Deeks In 1925 Miss Deeks launched a 500 000 lawsuit against Wells claiming that in an act of literary piracy Wells had somehow come to use her manuscript history of the world in the writing of his international bestseller The Outline of History a work still in print today Thus began one of the most sensational and extraordinary cases in Anglo Canadian publishing and legal history In this riveting literary whodunit A B McKillop unfolds the parallel stories of two Edwardian figures and the ambition to capture the sweep of history that possessed them both H G Wells was the celebrated writer of autobiographical fiction and futuristic fantasy who at the end of the Great War preached the need for a global world order Florence Deeks was a modest teacher and amateur student of history who intended to correct traditional scholarship's neglect by writing an account of civilization that stressed the contributions of women Her manuscript was submitted to the venerable Macmillan Company in Canada but was rejected and never published Wells's opus completed in an astonishingly short period was released by the same firm in North America the year following As the mystery deepens and new evidence is revealed it seems that the verdict of the courts in Deeks vs Wells may not be that of history The cast of characters is as intriguing as it is wide in Canada the United States and England renowned publishers and editors eminent lawyers and judges leading journalists and all seeing office secretaries Not all it turns out merited their reputations Above all the tale embraces the lives of the philandering Mr Wells his wife and his mistresses and the scarcely noted Miss Florence Deeks her family her life's work and her search for justice

Champion, 2010-05-01 Examining cases such as the introduction of the Maple Leaf to replace the Canadian Red Ensign and Union Jack as the national flag Champion shows that despite what he calls Canada's crisis of Britishness Pearson and his supporters unwittingly perpetuated a continuing Britishness because they and their ideals were the product of a British world Using a fascinating array of personal papers memoirs and contemporary sources this ground breaking study demonstrates the ongoing influence of Britishness in Canada and showcases the personalities and views of some of the country's most important political and cultural figures An important study that provides a better understanding of Canada

**Academic Freedom in Canada** Michiel Horn, 1998-01-01 Covering issues from the resistance in universities to Darwinist thought to the experience of women and ethnic minorities to economic and political correctness from 1860 to the present

The League for Social Reconstruction Michiel Horn, 1980-12-15 In 1931 the first organization of Canadian left wing intellectuals was founded Led by historian Frank Underhill of the University of Toronto and law professor and poet Frank Scott of McGill University the League for Social Reconstruction was critical of industrial capitalism and called for basic social and economic change through educational activity and parliamentary and constitutional channels In the first history of this unique organization Michiel Horn outlines the League's aims and accomplishments and its ideological influence on the CCF and the NDP Initially the LSR avoided the term socialism and remained uncommitted to any political party although its choice of J S Woodsworth as honorary president made its sympathies clear When not long after the LSR's establishment the CCF was founded many League members joined it An attempt to link the LSR openly with the CCF failed but the League soon became known as the CCF's brain trust and the manifesto and programme adopted by the party in 1933 clearly reflected the influence of the LSR members The League's own democratic socialist ideas were most fully stated in Social Planning for Canada 1935 Democracy Needs Socialism 1938 and in the pages of the Canadian Forum acquired by the LSR in 1936 With the disillusionment of the later 1930s the distraction of the war and most of all the increased support enjoyed by the CCF after 1940 the LSR disappeared as a formal organization but its ideas shaped a political tradition which found expression in the CCF and later the NDP

The Fate of Labour Socialism James Naylor, 2016-05-12 Almost a century before the New Democratic Party rode the first orange wave their predecessors imagined a movement that could rally Canadians against economic insecurity win access to necessary services such as health care and confront the threat of war The party they built during the Great Depression the Co-operative Commonwealth Federation CCF permanently transformed the country's politics Past histories have described the CCF as social democrats guided by middle class intellectuals a party which shied away from labour radicalism and communist agitation James Naylor's assiduous research tells a very different story a CCF created by working

class activists steeped in Marxist ideology who sought to create a movement that would be both loyal to its socialist principles and appealing to the wider electorate The Fate of Labour Socialism is a fundamental reexamination of the CCF and Canadian working class politics in the 1930s one that will help historians better understand Canada s political intellectual and labour history *Growing to One World* Eileen R. Janzen, 2013-11-01 J King Gordon s story is one of youthful vision and high ideals sustained throughout a life of concrete action at home and abroad Grounded in his father s social gospel and given intellectual heft and hue by exposure to radical politics at Oxford and in New York he returned to Canada as a self described Christian radical and threw himself into the emerging social and political ferment of the 1930s In *Growing to One World* Eileen Janzen details a life spent championing progressive politics in Canada and a commitment to peace and diplomacy on the international stage As a founding member of the League for Social Reconstruction Gordon was one of the authors of the Regina Manifesto for the newly formed Co operative Commonwealth Federation the forerunner of today s NDP and worked tirelessly on the party s behalf Later he realized his vocation as a member of the United Nations division of human rights serving in Korea the Middle East and the Congo as both an eyewitness to and participant in formative events shaping those regions Exhaustively researched and informed by a sophisticated analytical grasp of political theory and international affairs *Growing to One World* is a compelling look at an important supporter of peace justice and human rights across the globe
