Through the Long Desert: Georgia O'Keeffe and Frank Lloyd Wright Sarah Rovang,2025-09-09 A richly illustrated exploration of newfound connections between American cultural icons Georgia O Keeffe and Frank Lloyd Wright This groundbreaking volume places the artist and architect side by side shedding light on their lives work and mutual love of the American desert Georgia O Keeffe and Frank Lloyd Wright were neither competitors nor direct collaborators Yet these romantic heroes of twentieth century art and architecture largely operated in parallel In this seminal book Rovang weaves together their compelling life stories examining newly discovered links between them and in the process offering a fresh perspective on their work their intermittent yet poignant friendship and their closeness to the desert Starting in 1933 O Keeffe and Wright exchanged roughly two dozen letters in which they expressed admiration for one another but also their passion for the places that informed them many of which they had in common Both were born in rural Wisconsin and built their careers in Chicago and New York However both sought inspiration and fulfillment in places farther afield including in Japan and the desert landscape of the American Southwest Juxtaposing images highlighting shared aspects of their individual biographies and work this unique take on American creative expression explores the nature of artistic friendship and the idea of home Rovang s text gives rich context to the allure and romance of her visual subject offering readers new ways to appreciate O Keeffe s and Wright s monumental contributions to American culture *Annual Report* Frank Lloyd Wright Foundation,1998 **Frank Lloyd Wright and Ralph Waldo Emerson** Ayad B. Rahmani,Ayad Rahmani,2023-09-27 Frank Lloyd Wright and Ralph Waldo Emerson Transforming the American Mind is an interdisciplinary volume of literary and cultural scholarship that examines the link between two pivotal intellectual and artistic figures It probes the degree to which the transcendentalist author influenced the architect s campaign against dominant strains of American thought Inspired by Emerson s writings on the need to align exterior expression with interior self Wright believed that architecture was not first and foremost a matter of accommodating spatial needs but a tool to restore intellectual and artistic freedom too often lost in the process of modernization Ayad Rahmani shows that Emerson s writings provide an avenue for interpreting Wright s complex approach to country and architecture The two thinkers cohered around a common concern for a nation derailed by nefarious forces that jeopardized the country s original promise In Emerson s condemnations of slavery and inequality Wright found inspiration for seeking redress against the humiliations suffered by the modern worker be it at the hands of an

industrial manager or an office boss His designs sought to challenge dehumanizing labor practices and open minds to the beauty and science of agriculture and the natural world Emerson's example helped Wright develop architecture that aimed less at accommodating a culture of clients and more at raising national historical awareness while also arguing for humane and equitable policies Frank Lloyd Wright and Ralph Waldo Emerson presents a new approach to two vital thinkers whose impact on American society remains relevant to this day Building Taliesin Ron McCrea, 2013-10-07 Through letters memoirs contemporary documents and a stunning assemblage of photographs many of which have never before been published author Ron McCrea tells the fascinating story of the building of Frank Lloyd Wright's Taliesin which would be the architect's principal residence for the rest of his life Photos taken by Wright's associates show rare views of Taliesin under construction and illustrate Wright's own recollections of the first summer there and the craftsmen who worked on the site The book also brings to life Wright's kindred spirit she for whom Taliesin had first taken form Mamah Borthwick Wright and Borthwick had each abandoned their families to be together causing a scandal that reverberated far beyond Wright's beloved Wisconsin valley The shocking murder and fire that took place at Taliesin in August 1914 brought this first phase of life at Taliesin to a tragic end **Chicago and the Making of American Modernism** Michelle E. Moore, 2018-12-13 Chicago and the Making of American Modernism is the first full length study of the vexed relationship between America's great modernist writers and the nation's second city Michelle E Moore explores the ways in which the defining writers of the era Willa Cather Ernest Hemingway William Faulkner and F Scott Fitzgerald engaged with the city and reacted against the commercial styles of Chicago realism to pursue their own European influenced mode of modernist art Drawing on local archives to illuminate the literary culture of early 20th century Chicago this book reveals an important new dimension to the rise of American modernism Wright on Exhibit Kathryn Smith, 2022-07-12 The first history of Frank Lloyd Wright's exhibitions of his own work a practice central to his career More than one hundred exhibitions of Frank Lloyd Wright's work were mounted between 1894 and his death in 1959 Wright organized the majority of these exhibitions himself and viewed them as crucial to his self presentation as his extensive writings He used them to promote his designs appeal to new viewers and persuade his detractors Wright on Exhibit presents the first history of this neglected aspect of the architect's influential career Drawing extensively from Wright's unpublished correspondence Kathryn Smith challenges the preconceived notion of Wright as a self promoter who displayed his work in search of money clients and fame She shows how he was an artist architect projecting an avant garde program an innovator who expanded the palette of installation design as technology evolved and a social activist driven to revolutionize society through design While Wright's earliest exhibitions were largely for other architects by the 1930s he was creating public installations intended to inspire debate and change public perceptions about architecture The nature of his exhibitions expanded with the times beyond models drawings and photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum

Placing Wright's exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century. Wright on Exhibit features color renderings, photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright's supervision. *Spirit Into Matter* Julian Cox, Edmund Teske, 2004. Edmund Teske 1911-1996 was one of the alchemists of twentieth-century American photography. Over a sixty-year period he created a diverse body of work that explored the expressive and emotional potentials of the medium. His drive to experiment with sophisticated techniques such as solarization and composite printing liberated a younger generation of American photographers at the same time his subject matter, sometimes abstract, often homoerotic and always lyrical and poetic, opened up new areas for photographers to explore. *Spirit into Matter* is published to coincide with the first major retrospective of Teske's work to be held at the Getty Museum from June 15 to September 19, 2004. Julian Cox provides an introduction and extensive biocritical essay on Teske that traces his long and varied career from Chicago in the 1930s to Los Angeles where the photographer took up residence in 1943. Cox investigates Teske's early associations with such influential figures as Frank Lloyd Wright and Paul Strand and his later associations with iconic figures including filmmaker Kenneth Anger and musicians Ramblin Jack Elliott and the Doors. The first major study of this fascinating and influential artist, *Spirit into Matter* will be a dynamic source of information for students of photography, collectors and all those with an interest in the life and culture of Southern California where Teske worked for more than fifty years.

The Urbanism of Frank Lloyd Wright Neil Levine, 2016. This is the first book devoted to Frank Lloyd Wright's designs for remaking the modern city. Stunningly comprehensive, *The Urbanism of Frank Lloyd Wright* presents a radically new interpretation of the architect's work and offers new and important perspectives on the history of modernism. Neil Levine places Wright's projects produced over more than fifty years within their historical, cultural and physical contexts while relating them to the theory and practice of urbanism as it evolved over the twentieth century. Levine overturns the conventional view of Wright as an architect who deplored the city and whose urban vision was limited to a utopian plan for a network of agrarian communities he called Broadacre City. Rather, Levine reveals Wright's larger, more varied, interesting and complex urbanism demonstrated across the span of his lengthy career. Beginning with Wright's plans from the late 1890s through the early 1910s for reforming residential urban neighborhoods mainly in Chicago and continuing through projects from the 1920s through the 1950s for commercial, mixed-use, civic and cultural centers for Chicago, Madison, Washington, Pittsburgh and Baghdad, Levine demonstrates Wright's place among the leading contributors to the creation of the modern city. Wright's often spectacular designs are shown to be those of an innovative precursor and creative participant in the world of ideas that shaped the modern metropolis. Lavishly illustrated with drawings, plans, maps and photographs, this book features the first extensive new photography of materials from the Frank Lloyd Wright Foundation Archives. *The Urbanism of Frank Lloyd Wright* will serve
