The Frankfurt School Zoltan Tarr, 2017-07-12 The Frankfurt School refers to a school of neo Marxist interdisciplinary social theory particular established at the Institute for Social Research at the University of Frankfurt Germany in 1923 Tarr's investigation focuses on three key issues The first is the Frankfurt School's original program of providing a general theory of modern capitalist society The second is the claim to represent a continuation of the original Marxian theory through the school's Critical Theory The third is the scientific validity of Critical Theory in light of the generally accepted canons of the natural and social sciences Tarr proposes that in the last analysis Critical Theory is simply another existentialist philosophy As such it is a specific expression of certain socio historical conditions and of the situation of a particular social group the marginal Jewish bourgeois intelligentsia of Central Europe This European Jewish contribution became apparent after the great metaphysical impulse of the pre Socratic and

Platonic Aristotelian philosophies had run their respective courses Both philosophies represented philosophical schools of ethics and both wanted to help man take up a defense against the storms of passions and fate It was from these ancient sources that the Frankfurt School emerged The Frankfurt School derived its impetus in the twentieth century in which Tarr claims a shift occurred from the ontological to the subjective realm This in turn led to deep changes in philosophical theory and practice which led to a more psychologically oriented mode of social thought This in depth study covers the entire career of the Frankfurt School's Critical Theory from 1923 to 1974 It does so by applying the same standards of criticism to its primary doctrines as it turned on other theories but with a keen sense of balance and fairness

Critical Theory Stephen Eric Bronner, 2017-09-22 In its essence critical theory is western Marxist thought with the emphasis moved from the liberation of the working class to broader issues of individual agency Critical theory emerged in the 1920s from the work of the Frankfurt School which sought to diagnose and cure the ills of society In the second edition of this Very Short Introduction Bronner provides sketches of major critical thinkers such as Ernst Bloch Theodor Adorno and Jürgen Habermas as well as many of the seminal texts and empirical investigations of critical theory

Critical theory and feeling Simon Mussell, 2017-11-02 This book offers a unique and timely reading of the early Frankfurt School in response to the recent affective turn within the arts and humanities Resisting the overly rationalist tendencies of political philosophy it argues that critical theory actively cultivates a powerful connection between thinking and feeling and rediscovers a range of often neglected concepts that were of vital importance to the first generation of critical theorists including melancholia hope unhappiness objects and mimesis In doing so it brings the dynamic work of Walter Benjamin Theodor Adorno Ernst Bloch and Siegfried Kracauer into conversation with more recent debates around politics and affect An important intervention in the fields of affect studies and social and political thought Critical theory and feeling shows that sensuous experience is at the heart of the Frankfurt School's affective politics

The Routledge Companion to the Frankfurt School Peter E. Gordon, Espen Hammer, Axel Honneth, 2018-09-03 The portentous terms and phrases associated with the first decades of the Frankfurt School exile the dominance of capitalism fascism seem as salient today as they were in the early twentieth century The Routledge Companion to the Frankfurt School addresses the many early concerns of critical theory and brings those concerns into direct engagement with our shared world today In this volume a distinguished group of international scholars from a variety of disciplines revisits the philosophical and political contributions of Theodor W Adorno Walter Benjamin Max Horkheimer Herbert Marcuse Jürgen Habermas Axel Honneth and others Throughout the Companion's focus is on the major ideas that have made the Frankfurt School such a consequential and enduring movement It offers a crucial resource for those who are trying to make sense of the global and cultural crisis that has now seized our contemporary world

Origin and Significance of the Frankfurt School (RLE Social Theory)

Phil Slater, 2020-07-26 The term Frankfurt School is used widely but sometimes loosely to describe both a group of intellectuals and a specific social theory Focusing on the formative and most radical years of the Frankfurt School during the 1930s this study concentrates on the Frankfurt School's most original contributions made to the work on a critical theory of society by the philosophers Max Horkheimer and Herbert Marcuse the psychologist Erich Fromm and the aesthetician Theodor W Adorno Phil Slater traces the extent and ultimate limits of the Frankfurt School's professed relation to the Marxian critique of political economy In considering the extent of the relation to revolutionary praxis he discusses the socio economic and political history of Weimar Germany in its descent into fascism and considers the work of such people as Karl Korsch Wilhelm Reich Walter Benjamin and Bertolt Brecht which directs a great deal of critical light on the Frankfurt School While pinpointing the ultimate limitations of the Frankfurt School's frame of reference Phil Slater also looks at the role their work played largely against their wishes in the emergence of the student anti authoritarian movement in the 1960s He shows that in particular the analysis of psychic and cultural manipulation was central to the young rebels theoretical armour but that even here the lack of economic class analysis seriously restricts the critical edge of the Frankfurt School's theory His conclusion is that the only way forward is to rescue the most radical roots of the Frankfurt School's work and to recast these in the context of a practical theory of economic and political emancipation

The SAGE Handbook of Frankfurt School Critical Theory Beverley Best, Werner Bonefeld, Chris O'Kane, 2018-06-04 The SAGE Handbook of Frankfurt School Critical Theory expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting It maps the terrain of a critical social theory expounding its distinctive character vis a vis alternative theoretical perspectives exploring its theoretical foundations and developments conceptualising its subject matters both past and present and signalling its possible future in a time of great uncertainty Taking a distinctively theoretical interdisciplinary international and contemporary perspective on the topic this wide ranging collection of chapters is arranged thematically over three volumes Volume I Key Texts and Contributions to a Critical Theory of Society Volume II Themes Volume III Contexts This Handbook is essential reading for scholars and students in the field showcasing the scholarly rigor intellectual acuteness and negative force of critical social theory past and present

Rethinking the Frankfurt School Jeffrey T. Nealon, Caren Irr, 2002-08-29 By exploring the work of the Frankfurt school today this book helps to define the very field of cultural studies

The Frankfurt School and its Critics The late Tom Bottomore, 2002-11-01 The Institute of Social Research from which the Frankfurt School developed was founded in the early years of the Weimar Republic It survived the Nazi era in exile to become an important centre of social theory in the postwar era Early members of the school such as Adorno Horkheimer and Marcuse developed a form of Marxist theory known as Critical Theory which became influential in the study of class politics culture and ideology The work of more recent members and in particular Habermas has received wide attention throughout Europe and North America Tom Bottomore's study takes a new and controversial look at the

contributions of the Frankfurt School to modern sociology examining several issues not previously discussed elsewhere He discusses the neglect of history and political economy by the critical theorists and considers the relationship of the later Frankfurt School to the radical movements of the 1960s and the present time His critical analysis makes the school's writers accessible through an assessment of their work and an exploration of the relationship of Critical Theory to other forms of sociological thought especially positivism and structuralism

The Frankfurt School and Its Critics T. B.

Bottomore, 2002 Controversial look at the School's contribution to modern sociology examining issues previously not discussed such as the neglect of history and political economy by the critical theorists and the relationship of the School to radical movements

The Idea of a Critical Theory, 1981

Max Horkheimer and the Foundations of the Frankfurt School

John Abromeit, 2011-10-10 This book is the first comprehensive intellectual biography of Max Horkheimer during the early and middle phases of his life 1895-1941 Drawing on unexamined new sources John Abromeit describes the critical details of Horkheimer's intellectual development This study recovers and reconstructs the model of early Critical Theory that guided the work of the Institute for Social Research in the 1930s Horkheimer is remembered primarily as the co-author of *Dialectic of Enlightenment* which he wrote with Theodor W Adorno in the early 1940s But few people realize that Horkheimer and Adorno did not begin working together seriously until the late 1930s or that the model of Critical Theory developed by Horkheimer and Erich Fromm in the late 1920s and early 1930s differs in crucial ways from *Dialectic of Enlightenment* Abromeit highlights the ways in which Horkheimer's early Critical Theory remains relevant to contemporary theoretical discussions in a wide variety of fields

[The Frankfurt School Critique of Capitalist Culture](#) Ronald Jeremiah

Schindler, 2019-05-23 First published in 1998 this volume is an impressive contradictory cultural phenomenon It addresses almost every existing contemporary school of thought whilst belonging completely to none of them through an absence of external signifiers With remarkable erudition Ronald Schindler reveals to official society the truth about itself through explorations of areas including the origins of dialectical intelligence a metatheoretical reconstruction of Marxism Habermas historical materialism and hermeneutics and political visions for the universities

[Theory and Politics](#) Helmut Dubiel, 1985

This important study of the relationship between historical developments and the work of the scholars associated with the Frankfurt Institute for Social Research yields fascinating insights into the actual workings of the Institute and the relationships among its members The book has already had a major impact in Germany where it has opened up the subject for argument and analysis by a new generation of scholars *Theory and Politics* first explores the effect of political experience on the process of theory construction from 1930 to 1945 The central figure in this examination is Max Horkheimer whose work is seen as the key to the shift in the Frankfurt School's focus from materialism to Critical Theory to a critique of instrumental reason Within each of the three periods defined by these foci the author examines external historical political events including the School's emigration to America and their reflection in the group's changing conception of the relation of

theory to practice as well as in its detailed theoretical position Along the way he helps to clarify such questions as the Schools s evolving attitudes toward the Soviet Union fascism science and the desired utopia The book then examines what may have been the strongest stage of Critical Theory the program for interdisciplinary research that emerged in the early 1930s The author acutely portrays Horkheimer s conception of a synthesis between philosophy and empirical social science that would result in a form of social research relevant to the central problems of the day As Martin Jay notes in his foreword Helmut Dubiel has become not only an analyst of Critical Theory but a gifted contributor to its ongoing reception and development He is currently a research fellow at the University of Frankfurt Theory and Politics is included in the series Studies in Contemporary German Social Thought edited by Thomas McCarthy

Critical theory and social pathology

Neal Harris,2022-11-29 In the neoliberal world of the twenty first century the progressive academy urgently needs a vehicle for normative social research Critical theory once answered this call but today its programme is in crisis The pathologies of recognition approach popular among contemporary critical theorists aids neoliberalism rather than challenging it in part because it is unable to grasp the structural nature of power To offer an alternative this book returns to the work of Erich Fromm and Herbert Marcuse using it as the basis for a revived social theoretical foundation As the first generation of critical theorists knew thought itself can be reified our imaginations debased and our desires artificially induced We need to think beyond recognition and embrace a more potent and aggressive form of social critique true to the founding spirit of the Frankfurt School

The Critical Humanism of the Frankfurt School as Social Critique Oliver Kozlarek,2024-05-15 This book aims to extract a kind of Critical Humanism from the works of prominent members of the Frankfurt School Oliver Kozlarek argues that what is compelling about this kind of restitution of humanism is the fact that it sought to be understood not as a conceptual theoretical construction but as a practice of critical social and cultural research This means that it does not orient itself to an ideal image of the human being but to making inhuman conditions of our current societies visible It is above all in this sense that humanism is no longer understood in a Humboldtian educational sense Rather it is about using critical social research as a political practice
