Preventing AIDS R Dennis Shelby,Benjamin Bowser,Shiraz

Mishra,Cathy Reback,2012-12-06 Learn how to create professional collaboration between HIV AIDS researchers and community organizations for the benefit of all This book is designed to help frontline prevention organizations answer two questions that are of utmost importance First how effective are their services and second can their work be improved The absence of rigorous evaluation is a barrier to stable funding for community organizations and the strategies in Preventing AIDS Community Science Collaborations can help overcome that barrier The book is a guide to successful cooperative efforts between researchers and community based organizations The information it presents will help community based programs acquire detailed timely information on program effectiveness and outcomes It also provides researchers with methods for accessing hard to reach or hidden HIV high risk groups Handy tables and figures make important data easy to access and understand In Preventing AIDS Community Science Collaborations you ll learn about the difficult but critically important collaboration between community organizations who do frontline prevention work and university scientists who evaluate the effectiveness of that work The book describes the community researcher equal partner collaboration CREPC model for community based collaborative research In addition it examines six unique efforts to prevent the spread of AIDS among high risk populations such as prostitutes injection drug users impoverished pregnant women migrant workers transgendered persons and prison inmates The case studies in Preventing AIDS Community Science Collaborations describe the frustrations of outreach workers and counselors who suddenly must help design a survey they fear will be intrusive and the parallel problems faced by scientists who are told that their traditional measures mean little to outreach workers Preventing AIDS Community Science Collaborations presents funders perspectives on collaborative AIDS research and examines the collaborative and funding aspects of the CAL PEP prevention programs for drug injectors and sex workers efforts to promote HIV prevention for migrant farm workers and evaluate those efforts effectiveness the ongoing collaboration between The Center for AIDS Prevention Studies University of California San Francisco Centerforce a statewide nonprofit agency providing services and advocacy to prisoners and their families and San Quentin State Prison the effort of the Los Angeles County HIV Epidemiology Program and three community based organizations which collaborate to provide culturally appropriate outreach and HIV education prevention services to transgendered individuals of various ethnic origins San Francisco s PHREDA project and the way its creators collaborated to better understand and serve high risk women The U Find Out UFO Study funded by the Universitywide AIDS Research Program of the State of California

**Statistics for Environmental Science and Management, Second Edition** Bryan F.J. Manly,2008-10-21 Revised expanded and updated this second edition of Statistics for Environmental Science and Management is that rare animal a resource that works well as

a text for graduate courses and a reference for appropriate statistical approaches to specific environmental problems It is uncommon to find so many important environmental topics covered in one book Its strength is author Bryan Manly s ability to take a non mathematical approach while keeping essential mathematical concepts intact He clearly explains statistics without dwelling on heavy mathematical development The book begins by describing the important role statistics play in environmental science It focuses on how to collect data highlighting the importance of sampling and experimental design in conducting rigorous science It presents a variety of key topics specifically related to environmental science such as monitoring impact assessment risk assessment correlated and censored data analysis to name just a few Revised updated or expanded material on Data Quality Objectives Generalized Linear Models Spatial Data Analysis Censored Data Monte Carlo Risk Assessment There are numerous books on environmental statistics however while some focus on multivariate methods and others on the basic components of probability distributions and how they can be used for modeling phenomenon most do not include the material on sampling and experimental design that this one does It is the variety of coverage not sacrificing too much depth for breadth that sets this book apart

**Statistics for Environmental Science and Management** Bryan F.J. Manly, 2008-10-21 Presenting a nonmathematical approach to this topic Statistics for Environmental Science and Management introduces frequently used statistical methods and practical applications for the environmental field This second edition features updated references and examples along with new and expanded material on data quality objectives the generalized linear model spatial data analysis and Monte Carlo risk assessment Additional topics covered include environmental monitoring impact assessment censored data environmental sampling the role of statistics in environmental science assessing site reclamation and drawing conclusions from data
