Undertones of Insurrection Marc Weiner, 2017-09-29 A basic tenet of literary studies is that aesthetic structures are politically significant because they represent an artist's response to the political implications of cultural codes with which the recipient of the modern work is also acquainted This tenet provides the basis for the ideological associations attending the appearance of music in the modern German narrative With his understanding of the arts as involved in often unacknowledged ideological forces within a culture Marc Weiner's *Undertones of Insurrection* bridges the gap between the New Musicology's rewarding infusion of modern cultural and literary theory into the study of music politically insightful examinations of narrative structures in the modern novel and the methodologically conservative area of musical literary relations in Germanic Studies In other words the questions it raises are different from those pursued in most examinations of music and literature because previous works of this kind concerning the literature of German speaking Europe have often disregarded social concerns in general and political issues in particular Ranging from 1900 to *Doctor Faustus* 1947 Weiner study sets the stage by examining public debates that conflated such issues as national identity racism populism the role of the sexes and xenophobia with musical texts In the literary analyses that follow Weiner discusses both obvious connections between music and sociopolitical issues Hesse's equation of jazz and insurrection in *Steppenwolf* and covert ones the suppression of music in *Death in Venice* and the use of politically charged musical subtexts in Werfel's *Verdi* and Schnitzler's *Rhapsody* By uncovering the ideological agendas informing cultural practice in modernist Germany *Undertones of Insurrection* calls for a reevaluation of the function of music in the modern German narrative

social sciences as well as anyone interested in the development of critical theory

Gender, Orientalism and the Jewish Nation Lynne M. Swarts, 2020-01-23 Ephraim Moses Lilien 1874 1925 was one of the most important Jewish artists of modern times As a successful illustrator photographer painter and printer he became the first major Zionist artist Surprisingly there has been little in depth scholarly research and analysis of Lilien's work available in English making this book an important contribution to historical and art historical scholarship Concentrating mainly on his illustrations for journals and books Lynne Swarts acknowledges the importance of Lilien's groundbreaking male iconography in Zionist art but is the first to examine Lilien's complex and nuanced depiction of women which comprised a major dimension of his work Lilien's female images offer a compelling glimpse of an alternate independent and often sexually liberated modern Jewish woman a portrayal that often eluded the Zionist imagination Using an interdisciplinary approach to integrate intellectual and cultural history with issues of gender Jewish history and visual culture Swarts also explores the important fin de siècle tensions between European and Oriental expressions of Jewish femininity The work demonstrates that Lilien was not a minor figure in the European art scene but a major figure whose work needs re-reading in light of his cosmopolitan and national artistic genius
