Women in Ugarit and Israel Hennie J. Marsman, 2021-10-01 In this volume the presupposition is investigated whether women in a polytheistic society had a better position than women in a monotheistic society To this end the social and religious position of women in Ugarit according to its literary texts is compared to that of women in Israel according to the Hebrew Bible while the wider context of the ancient Near East is also taken into consideration After an overview of feminist biblical exegesis the book discusses the roles of women in the family and in society It also provides an analysis of the roles of women as religious specialists and as worshippers Finally the data on the position of women in the literary texts is compared to that in non literary texts

The Role of Women in Work and Society in the Ancient Near East Brigitte Lion, Cécile Michel, 2016-09-12 Economic history is well documented in Assyriology thanks to the preservation of dozens of thousands of clay tablets recording administrative operations contracts and acts dealing with family law Despite these voluminous sources the topic of work and the contribution of women have rarely been addressed This book examines occupations involving women over the course of three millennia of Near Eastern history It presents the various aspects of women as economic agents inside and outside of the family structure Inside the family women were the main actors in the production of goods necessary for everyday life In some instances their activities exceeded the simple needs of the household and were integrated within the production of large organizations or commercial channels The contributions presented in this volume are representative enough to address issues in various domains social economic religious etc from varied points of view archaeological historical sociological anthropological and with a gender perspective This book will be a useful tool for historians anthropologists archaeologists and graduate students interested in the economy of the ancient Near East and in women and gender studies

magic and deviant sexual behaviour as well as more general issues of sexuality and gender This fascinating book sheds light on the sexual culture of one of the earliest literate civilisations Gender and Aging in Mesopotamia Rivkah Harris,2003 Rivkah Harris s cross cultural and multidisciplinary approach breaks new ground in assessing Mesopotamian attitudes toward youth and mature adulthood aging and the elderly generational conflict gender differences in aging relationships between men and women women s contributions to cultural activities and the ideal woman To uncover Mesopotamian perspectives Harris combed through primary sources including literature and myth letters economic and legal texts and visual materials Even such pivotal cultural influences as the Gilgamesh Epic and Enuma Elish are reinterpreted in an original manner Female and Male: The Cultic Personnel: The Bible and the Rest of the Ancient Near East Richard A. Henshaw,1994-01-01 This long standing series provides the guild of religion scholars a venue for publishing aimed primarily at colleagues It includes scholarly monographs revised dissertations Festschriften conference papers and translations of ancient and medieval documents Works cover the sub disciplines of biblical studies history of Christianity history of religion theology and ethics Festschriften for Karl Barth Donald W Dayton James Luther Mays Margaret R Miles and Walter Wink are among the seventy five volumes that have been published Contributors include C K Barrett Francois Bovon Paul S Chung Marie Helene Davies Frederick Herzog Ben F Meyer Pamela Ann Moeller Rudolf Pesch D Z Phillips Rudolf Schnackenburgm Eduard Schweizer John Vissers Women, Crime and Punishment in Ancient Law and Society Elisabeth Meier Tetlow,2004-12-28 Crime and punishment criminal law and its administration are areas of ancient history that have been explored less than many other aspects of ancient civilizations Throughout history women have been affected by crime both as victims and as offenders Yet in the ancient world customary laws were created by men formal laws were written by men and both were interpreted and enforced by men **Gender Through Time in the Ancient Near East** Diane Bolger,2008-05-16 Although the ancient Near East has been studied by anthropologists archaeologists philologists and historians no single work has explored issues of gender and social identity across the broad temporal and geographical range of Near Eastern civilizations Gender Through Time in the Ancient Near East thus makes a unique contribution to gender studies The volume s contributors an international group of experts from Near Eastern European and American institutions look at the archaeological and other evidence to find out how gender roles were constructed in these ancient worlds and what they meant to the men and women who assumed them History, Texts and Art in Early Babylonia Piotr Steinkeller,2017-06-12 These essays represent a summation of Piotr Steinkeller s decades long thinking and writing about the history of third millennium BCE Babylonia and the ways in which it is reflected in ancient historical and literary sources and art as well as of how these written and visual materials may be used by the modern historian to attain if not a reliable record of histoire v nementielle a comprehensive picture of how the ancients understood their history The book focuses on the history of early Babylonian kingship as it evolved over a period from Late Uruk down to Old Babylonian times and the impact of the concepts

of kingship on contemporaneous history writing and visual art Here comparisons are drawn between Babylonia and similar developments in ancient Egypt China and Mesoamerica Other issues treated is the intersection between history writing and the scholarly lexical and literary traditions in early Babylonia and the question of how the modern historian should approach the study of ancient sources of historical nature Such a broad and comprehensive overview is novel in Mesopotamian studies to date As such it should contribute to an improved and more nuanced understanding of early Babylonian history

Harlot or Holy Woman? Phyllis A. Bird,2019-11-20 Harlot or Holy Woman presents an exhaustive study of qede ah a Hebrew word meaning consecrated woman but rendered prostitute or sacred prostitute in Bible translations Reexamining biblical and extrabiblical texts Phyllis A Bird questions how qede ah came to be associated with prostitution and offers an alternative explanation of the term one that suggests a wider participation for women as religious specialists in Israel s early cultic practice Bird s study reviews all the texts from classical antiquity cited as sources for an institution of sacred prostitution alongside a comprehensive analysis of the cuneiform texts from Mesopotamia containing the cognate qadi tu and Ugaritic texts containing the masculine cognate qd Through these texts Bird presents a portrait of women dedicated to a deity engaged in a variety of activities from cultic ritual to wet nursing and sharing a common generic name with the qede ah of ancient Israel In the final chapter she returns to biblical texts reexamining them in light of the new evidence from the ancient Near East Considering alternative models for constructing women s religious roles in ancient Israel this wholly original study offers new interpretations of key texts and raises questions about the nature of Israelite religion as practiced outside the royal cult and central sanctuary **Mesopotamian Sculpture in Colour** Astrid Nunn,Heinrich

Piening,2020-12-31 We can now be sure that Mesopotamian sculpture of the human form was typically coloured Our project which set out to reconstruct the polychromy of Mesopotamian stone statues dating from the fourth to the first millennium BCE is a part of a slow shift to incorporate more visual evidence in research about colour and perception in the ancient world that has long been dominated by ethno linguistic studies Our scientifically grounded reconstructions serve as a prelude to a more comprehensive exploration of the materiality and aesthetics of Mesopotamian sculpture which open many windows onto historical cultural and symbolic issues In this study we trace the chronological development of the use of colours and consider why they changed over time The manner in which colours served as social markers of gender ethnicity and class for

example are explored from the material culture and textual perspectives When used to describe hair skin and garments Sumerian and Akkadian words for colour denote more than just physical properties They also evoke qualities such as lightness or darkness dullness or glossiness and encode specific symbolic values that impinge on many aspects of society In all cultures the notion of skin colour is subject to social concepts prejudices and ideals and is thus a matter of convention Our discovery that the face and body in particular were so vibrantly coloured provides an entirely new and unexpected view of ancient Near Eastern effigies Through such luminous radiant and lucid colours we are now able to recognise the true faces of the statues and to visualise what was considered beautiful and acceptable to the gods
