Freaksgeeks Cool Kids:

Freaks, Geeks, and Cool Kids Murray Milner, 2015-08-20 In *Freaks Geeks and Cool Kids* Second Edition award winning sociologist Murray Milner tries to understand why teenagers behave the way they do The first edition drew upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country where he argued that consumer culture greatly impacts the way our youth relate to one another and understand themselves and society Milner now expands on that concept with a new year of fieldwork fifteen years after he began He has uncovered in teens a move away from consumerism and towards the cultural capital of information in a time of social media and standardized tests

Freaks, Geeks, and Cool Kids Murray Milner Jr., 2013-04-15 In this timely and insightful book award winning sociologist Murray Milner tries to understand why teenagers behave the way they do Drawing upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country he argues that consumer culture has greatly impacted the way our youth relate to one another and understand themselves and society He also suggests that the status systems in high schools are in and of themselves an important contributing factor to the creation and maintenance of consumer capitalism explaining the importance of designer jeans and designer drugs in an effort to be the coolest kid in the class

Freaks, Geeks, and Cool Kids Murray Milner, 2013-10-18 *Freaks Geeks and Cool Kids* argues that the teenage behaviors that annoy adults do not arise from hormones bad parenting poor teaching or the media but from adolescents lack of power over the central features of their lives they must attend school they have no control over the curriculum they can't choose who their classmates are What teenagers do have is the power to create status systems and symbols that not only exasperate adults but also impede learning and maturing Ironically parents educators and businesses are inadvertently major contributors to these outcomes

Freaks, Geeks, and Cool Kids Murray Milner, 2006 **The Best of the Best** Rubén A. Gaztambide-Fernández, 2010-01-30 For two years Rubén Gaztambide Fernández shared the life of what he calls the Weston School an elite New England boarding school Vividly describing the pastoral landscape and graceful buildings the rich variety of classes and activities and the official and unofficial rules that define the school *The Best of the Best* reveals a small world of deeply ambitious intensely pressured students For Gaztambide Fernández Weston is daunting yet strikingly bucolic inspiring but frustratingly incurious and sometimes especially for young women a gilded cage for a gilded age

Educational Dimensions of School Lunch Suzanne Rice, A.G. Rud, 2018-03-06 School lunch is often regarded as a necessary but inconvenient distraction from the real work of education Lunch in this view is about providing

students the nourishment they need in order to attend to academic content and the tests that assess whether content has been learned In contrast the central purpose of this collection is to examine school lunch as an educational phenomenon in its own right Contributing authors drawing from a variety of disciplinary traditions including philosophy sociology and anthropology examine school lunch policies and practices social and cultural aspects of food and eating and the relation among school food the environment and human and non human animal well being The volume also addresses how school lunch might be more widely conceptualized and practiced as an educational undertaking *Children and Youth Speak for Themselves* Heather Beth Johnson,2010-03-23 The volume is a collection of articles from scholars who pay particular attention to children and or adolescents voices interpretations perspectives and experiences within specific social and cultural contexts Contributions include research stemming from a broad spectrum of methodological and theoretical orientations *Always the New Girl* Kelly Vincent,2022-05-10 Knitting nerd Sarah Redmond is always the new girl never the popular one Moving all over the country with her flighty mom seemed to be her lot in life but her junior year at Sierra Vista High School feels like it could be different She s finally on the verge of a social breakthrough But when she gets publicly punked at her first party she and her new friends find a creative way to use their shared obsession with knitting to exact sweet revenge And when their efforts lead to a lucrative business Sarah knows she s set But when her deadbeat dad comes back around she starts to wonder if she should try for a different life instead of following the paths her parents have chosen She d always half thought her small time knitting channel could grow into a big time knitting channel but maybe college as a backup plan isn t such a ridiculous idea after all But is that something a girl like her can really make happen Kudos for the book First place in the 2023 National Excellence in Story Telling NEST Award YA Novel Finalist in the 2023 Next Generation Indie Book Award Young New Adult Fiction 17 Finalist in the 2023 Book Excellence Award Young Adult Fiction 2023 Quarterfinalist in the 2021 BookLife Prize for Fiction Young Adult Middle Grade *Advanced Introduction to Youth Studies* Williamson, Howard,Côté, James E.,2022-10-07 The Advanced Introduction to Youth Studies analyses the historical development of the sociology of youth in the context of changing population demographics Howard Williamson and James C t explore competing paradigms underlying current understanding of youth with reference to key philosophical theoretical and methodological debates Young people s transitions to adulthood and youth cultural behaviour are then explored The authors conclude with a consideration of youth policies and how in the future these may be better informed by sociological research

Pugh, 2009-02-02 Even as they see their wages go down and their buying power decrease many parents are still putting their kids material desires first These parents struggle with how to handle children s consumer wants which continue unabated despite the economic downturn And indeed parents and other adults continue to spend billions of dollars on children every year Why do children seem to desire so much so often so soon and why do parents capitulate so readily To determine what forces lie behind the onslaught of Nintendo Wiis and Bratz dolls Allison J Pugh spent three years observing and interviewing children and their families In Longing and Belonging Parents Children and Consumer Culture Pugh teases out the complex factors that contribute to how we buy from lunchroom conversations about Game Boys to the stark inequalities facing American children Pugh finds that children s desires stem less from striving for status or falling victim to advertising than from their yearning to join the conversation at school or in the neighborhood Most parents respond to children s need to belong by buying the particular goods and experiences that act as passports in children s social worlds because they sympathize with their children s fear of being different from their peers Even under financial constraints families prioritize children feeling normal Pugh masterfully illuminates the surprising similarities in the fears and hopes of parents and children from vastly different social contexts showing that while corporate marketing and materialism play a part in the commodification of childhood at the heart of the matter is the desire to belong pub desc **The Material Child** David Buckingham, 2013-04-26 Children today are growing up in an increasingly commercialised world But should we see them as victims of manipulative marketing or as competent participants in consumer culture The Material Child provides a comprehensive critical overview of debates about children s changing engagement with the commercial market It moves

from broad overviews of the theory and history of children's consumption to insightful case studies of key areas such as obesity sexualisation children's broadcasting and education In the process it challenges much of the received wisdom about the effects of advertising and marketing arguing for a more balanced account that locates children's consumption within a broader analysis of social relationships for example within the family and the peer group While refuting the popular view of children as incompetent and vulnerable consumers that is adopted by many campaigners it also rejects the easy celebration of consumption as an expression of children's power and autonomy Written by one of the leading international scholars in the field *The Material Child* will be of interest to students researchers and policy makers as well as parents teachers and others who work directly with children

Childhood, Agency, and Fantasy Ingrid E. Castro, 2021-01-12 Joining the emergent interdisciplinary investment in bridging the social sciences and the humanities *Childhood Agency and Fantasy Walking in Other Worlds* explores linkages between children's agency and fantasy Fantasy as an integral aspect of childhood and as a genre allows for children's spectacular dreams and hopeful realities Friendship family identity loyalty belongingness citizenry and emotionality are central concepts explored in chapters that are anchored by humanities texts of television film and literature but also by social science qualitative methods of participant observation and interviews Fantasy has the capacity to be a revolutionary change agent that in its modernity can creatively reflect critique or reimagine the social political and cultural norms of our world Such promise is also found to be true of children's agency wherein children's beings and becomings rooted in childhood's freedoms and constraints result in a range of outcomes In the endeavor to broaden theory and research on children's agency fantasy becomes a point of possibility with its expanding subjectivities far reaching terrain and spirit of adventure
