Fred Sandback: Vertical Constructions Fred Sandback, 2017-07-25

This new publication marks the first comprehensive survey of a seminal body of work that helped make Fred Sandback into the internationally celebrated artist he has become known as today. This catalogue published on the occasion of the exhibition at David Zwirner New York in the fall of 2016 takes its lead from a 1987 mid-career presentation of Sandback's work at Westfälischer Kunstverein in Münster also called *Vertical Constructions*. With a mixture of archival imagery of the sculptures in situ in Münster and new photography of these works installed at Zwirner, this publication is both a historical document and a source of renewed attention to this body of work. It also features an expanded selection of sculpture going beyond what was presented in the 1987 and 2016 exhibitions to include key examples of vertical constructions spanning Sandback's career. New scholarship by Yve Alain Bois revisits his leading argument that was put forth in his essay for the 2005 Kunstmuseum Liechtenstein catalogue about the power of Sandback's immateriality, its ability to linger in our memories in the context of the vertical constructions. Lisa Le Feuvre, a longtime scholar of sculpture, offers a more historical treatment of the show in relation to the artist's writings and other works. Also included is a text by David Gray who responds to Marianne Stockebrand's original essay about the Münster installation; he reveals the dialogues around Sandback's practice at the time and helps us reconstruct the way the influence of his vertical works has continued to grow in the thirty years since.

Aspects Edward A. Vazquez, 2018-01-02. Stretching lengths of yarn across interior spaces. American artist Fred Sandback 1943-2003 created expansive works that underscore the physical presence of the viewer. This book, the first major study of Sandback, explores the full range of his art which not only disrupts traditional conceptions of material presence but also stages an ethics of interaction between object and observer. Drawing on Sandback's substantial archive, Edward A. Vazquez demonstrates that the artist's work with all its physical slightness and attentiveness to place as well as its relationship to minimal and conceptual art of the 1960s creates a link between viewers and space that is best understood as sculptural even as it almost surpasses physical form. At the same time, the economy of Sandback's site-determined practice draws viewers' focus to their connection to space and others sharing it. As Vazquez shows, Sandback's art aims for nothing less than a total recalibration of the senses as the spectator is caught on neither one side nor the other of an object or space but powerfully within it.

Fred Sandback Fred Sandback, 2007. As a student at Yale, Fred Sandback struggled with sculpture until George Sugarman told him, if you are so sick of the parts, why not just make a line with a ball of string and be done with it. For the rest of his career, Sandback used taut and resonant strings to sculpt space and light.
