Free Trade And Frustration Anglo Austrian Negotiations 1860 7:

Free Trade and Frustration Karl F. Helleiner, 1973-12-15 Three treaties were signed between Britain and Austria in the decade of the 1860s as British businessmen and diplomats tried to spread the gospel of Free Trade amid the protectionist gloom Britain's patient endeavours to convert other nations to the policy of Free Trade were made in the hopes of advancing economic liberalism and furthering the trend towards free exchanges and international divisions of labour a development which it was hoped would prove conducive to worldwide economic growth and amity among nations But all of Britain's efforts were met with dogged resistance This work is a model monograph derived largely from hitherto untapped primary sources the Austrian State archives and the Public Record Office in London In narrating the history of these parleys and negotiations it sheds light on European commercial diplomacy a century ago when the British system began to be rebuffed by other European nations it also reveals the personal influences underlying shifts in imperial and imperialist policies **The Rise of Free Trade** Cheryl Schonhardt-Bailey, 1997 Why was Britain the first country to opt for unilateral free trade 150 years ago On 16 May 1846 the House of Commons voted to abolish tariff protection for agriculture the famous repeal of the Corn Laws Britain then adhered to her free trade policy despite both her relative economic decline and the protectionist policies of her leading trade rivals the USA and Germany This four volume set examines and explains the contentious issues surrounding the policy shift to free trade and the subsequent persistence of that policy This set provides a comprehensive collection of articles including previously unpublished material on nineteenth century British trade policy and a new and comprehensive introduction by the editor putting the material into context The Letters of Richard Cobden: 1860-1865 Richard Cobden, 2007 The Letters of Richard Cobden 1804 1865 provides in four printed volumes the first critical edition of Cobden's letters publishing the complete text in as near the original form as possible The letters are accompanied by full scholarly apparatus together with an introduction to each volume which reassesses Cobden's importance in their light Together these volumes make available a unique source of the understanding of British liberalism in its European and international contexts throwing new light on issues such as the repeal of the Corn Laws British radical movements the Crimean War the Indian Mutiny Anglo French relations and the American Civil War The fourth and final volume drawing on some forty six archives worldwide is dominated by Cobden's search for a permanent political legacy at home and abroad following the severe check to his health in the autumn of 1859 In January 1860 he succeeded in negotiating the Anglo French Commercial Treaty a landmark in Anglo French relations designed to bind the two nations closer together and to provide the basis for a Europe united by free trade Yet the Treaty's benefits were threatened by a continuing naval arms race between Britain and France fuelled by what Cobden saw as self interested scare mongering in his tract The Three Panics 1862 By 1862 an even bigger danger was the possibility that British industry's need for cotton might precipitate intervention in the American Civil War Much of Cobden's correspondence now centred on the necessity of non intervention and a campaign for

the reform of international maritime law while he played a major part in attempts to alleviate the effects of the Cotton Famine in Lancashire In addition to Anglo American relations Cobden the International Man continued to monitor the exercise of British power around the globe He was convinced that the gunboat diplomacy of his prime antagonist Lord Palmerston was ultimately harmful to Britain whose welfare demanded limited military expenditure and the dismantling of the British colonial system Known for a long time as the prophet in the wilderness in 1864 Cobden welcomed Palmerston's inability to intervene in the Schleswig Holstein crisis as a key turning point in Britain's foreign policy which together with the imminent end of the American Civil War opened up the prospect of a new reform movement at home Disappointed with the growing apathy of the entrepreneurs he had once mobilised in the Anti Corn Law League Cobden now promoted the enfranchisement of the working classes as necessary and desirable in order to achieve the reform of the aristocratic state for which he had campaigned since the 1830s

Liberal Diplomacy and German Unification Scott Murray, 2000-06-30 This work explores the early diplomatic career of Robert Morier the British Foreign Office's foremost expert on German affairs in the period leading up to German unification in 1871 As the subject of an intellectual biography Morier provides valuable insights into the effects of German events and ideas upon the changing character of mid Victorian liberalism Morier is an important figure in understanding the dynamics of Anglo German relations during this period not only because of his unrivalled knowledge of German affairs but also because of his broad connections to prominent liberal politicians and intellectuals in both countries Through Morier's career Murray examines the general currents of political economic and cultural change Murray addresses four main components of liberal thought under debate during the mid Victorian period constitutionalism and self government the problem of nationalism free trade and commercial treaties and church state relations in the aftermath of the first Vatican Council Robert Morier was forced to confront each of these themes as they found concrete expression in German events engaging leading liberal intellectuals and politicians in discussions over the future of both Germany and Britain Thus Germany became an important source of debate among British liberals regarding several fundamental aspects of their ideology the most prominent being the proper role of the state in a modern
