Harvard Composers Walter Piston And His Students From Elliott Carter To Frederic Rzewski:

Harvard Composers Howard Pollack, 1992-09 Walter Piston 1894 1976 taught for over thirty years 1926 1960 at Harvard where he taught such well known composers as Harold Shapiro and Leonard Bernstein The biographies major accomplishments stylistic developments and technical resources of 33 of his students are described Compositional Process in Elliott Carter's String Quartets Laura Emmery, 2019-12-20 Compositional Process in Elliott Carter's String Quartets is an interdisciplinary study examining the evolution and compositional process in Elliott Carter's five string quartets Offering a systematic and logical way of unpacking concepts and processes in these quartets that would otherwise remain opaque the book's narrative reveals new aspects of understanding these works and draws novel conclusions on their collective meaning and Carter's place as the leading American modernist Each of Carter's five string quartets is driven by a new idea that Carter was exploring during a particular period which allows for each quartet to be examined under a unique lens and a deeper understanding of his oeuvre at large Drawing on key ideas from a variety of subjects including performance studies philosophy music cognition musical meaning and semantics literary criticism and critical theory this is an informative volume for scholars and researchers in the areas of music theory and musicology Analyses are supplemented with sketch study correspondence text manuscripts and other archival sources from the Paul Sacher Stiftung the Library of Congress and the New York Public Library *The Music of Elliott Carter* David Schiff, 2018-10-18 Arguably the most important American composer of the century Elliott Carter often has been more highly regarded in Europe than in his native land Interest in his work has grown rapidly in recent years however and the celebration of his ninetieth birthday in December 1998 accompanied by numerous performances and new recordings undoubtedly will increase the attention of his fellow citizens to this remarkable figure Authoritative and gracefully written *The Music of Elliott Carter* engages composers performers and critics and speaks to concertgoers whether attuned to or alarmed by the formidable difficulty of Carter's music David Schiff views the music from the perspective of the composer's development and relates his compositional techniques to those nonmusical arts contemporary American poetry in particular with which Carter has been deeply involved The volume benefits from Schiff's extensive discussions of Carter's works with their most noted performers including Heinz Holliger Oliver Knussen and Ursula Oppens and from the generous cooperation of the composer himself This new edition a thoroughly reorganized revised and updated version of the book published in 1983 accounts for the many new works written by Carter since 1980 and accommodates the burgeoning critical literature on his music Its features include many musical examples and a selected discography In addition to the new foreword the composer has provided his listing of three to six note chords and a note on *Voyage* *Neoclassical Music in America* R. James Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an

expanded tonality No previous book has focused on the nature and scope of this musical tradition Neoclassical Music in America Voices of Clarity and Restraint makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work s reference value

George Whitefield Chadwick Bill F. Faucett, 2012 The definitive biography of a major American composer and musical leader *Oxford History of Western Music* Richard Taruskin, 2009-07-27 The universally acclaimed and award winning Oxford History of Western Music by one of the most prominent and provocative musicologists of our time Richard Taruskin Now in paperback the set has been reconstructed to be available for the first time as individual books each one taking on a critical time period in the history of western music

Composer Genealogies Scott Pfitzinger, 2017-03-01 Throughout the western classical tradition composers have influenced and been influenced by their students and teachers Many musicians frequently add to their personal acclaim by naming their teachers and the lineage through which they were taught Until now the relationships between composers have remained uncataloged and understudied but with enough research it is possible to document entire schools of composition **Composer Genealogies A Compendium of Composers Their Teachers and Their Students** is the first volume to gather the genealogies of more than seventeen thousand classical composers in a single volume Functioning as its own fully cross referenced index this volume lists composers and their dates followed by their teachers and notable students A short introduction presents the parameters by which composers were selected and provides a survey of the literature available for further study Gathering records and information from reference books university websites obituaries articles composers websites and even direct contact with some composers Pfitzinger creates a valuable resource for music researchers composers and performers

Notes Music Library Association, 1994 **Music in the Late Twentieth Century** Richard Taruskin, 2006-08-14 The universally acclaimed and award winning Oxford History of Western Music is the eminent

musicologist Richard Taruskin's provocative erudite telling of the story of Western music from its earliest days to the present. Each book in this superlative five volume set illuminates through a representative sampling of masterworks the themes, styles and currents that give shape and direction to a significant period in the history of Western music. *Music in the Late Twentieth Century* is the final installment of the set covering the years from the end of World War II to the present. In these pages Taruskin illuminates the great compositions of recent times offering insightful analyses of works by Aaron Copland, John Cage, Milton Babbitt, Benjamin Britten, Steve Reich and Philip Glass among many others. He also looks at the impact of electronic music and computers, the rise of pop music and rock n roll, the advent of postmodernism and the contemporary music of Laurie Anderson, John Zorn and John Adams. Laced with brilliant observations, memorable musical analysis and a panoramic sense of the interactions between history, culture, politics, art, literature, religion and music, this book will be essential reading for anyone who wishes to understand this rich and diverse period. [Classical Music](#) Nicole V. Gagné, 2019-07-17. The contemporary music scene thus embodies a uniquely broad spectrum of activity which has grown and changed down to the present hour. With new talents emerging and different technologies developing as we move further into the 21st century, no one can predict what paths music will take next. All we can be certain of is that the inspiration and originality that make music live will continue to bring awe, delight, fascination and beauty to the people who listen to it. This book covers modernist and postmodern concert music worldwide from the years 1888 to 2018. This second edition of *Historical Dictionary of Modern and Contemporary Classical Music* contains a chronology, an introduction and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on the most important composers, musicians, methods, styles and media in modernist and postmodern classical music worldwide from 1888 to 2018. This book is an excellent resource for students, researchers and anyone wanting to know more about modern and contemporary classical music. **Violin Sonatas I-IV and Viola Sonata** Allen Sapp, 2024. The five sonatas in this edition exhibit Allen Sapp's characteristic expansive lyricism and depth of expression. Violin Sonata I was composed in 1942-43 while Sapp was studying with Nadia Boulanger and Aaron Copland. Following his service in Europe during World War II, he composed his Violin Sonata II and Viola Sonata in 1948. Klaus George Roy, in his review of a Boston performance by Joseph De Pasquale, called Sapp's Viola Sonata a work of beauty and immediate emotional appeal. There is a genuine lyric line and warmth of expression carried by a real mastery of the polyphonic medium. Who says the moderns can't write a melody. While these first three string sonatas were cast in a neoclassical style, Violin Sonatas III (1960) and IV (1981) are written with more chromatically complex harmonies and employ serial composition techniques yet still exhibit a strong tonal orientation. Sapp considered Violin Sonata IV as the beginning of his late phase of composition and possibly the most memorable of his works. **Historical Dictionary of**

Choral Music Melvin P. Unger, 2023-08-14. A Library Journal Starred Review, March 2024, praises the book as a remarkable resource that will please both musical professionals and amateurs along with teachers and their students and conductors and

singers Throughout the ages people have wanted to sing in a communal context This desire apparently stems from a deeply rooted human instinct Consequently choral performance historically has often been related to human rituals and ceremonies especially rites of a religious nature Historical Dictionary of Choral Music Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 1 300 cross referenced entries on composers conductors choral ensembles choral genres and choral repertoire This book is an excellent resource for students researchers and anyone wanting to know more about choral music

The Ballad of John Latouche : an American Lyricist's Life and Work Howard Pollack, 2017 In his short life the Virginia born John Treville Latouche 1914-56 made a profound mark on America's musical theater as a lyricist book writer and librettist His signature achievements include theatrical works with composers Earl Robinson Vernon Duke Duke Ellington Jerome Moross and Leonard Bernstein

Choral Music in the Twentieth Century Nick Strimple, 2005-11 Musical works for chorus are among the great masterpieces of 20th century art This guide the first truly comprehensive volume on the choral music of the last century covers the spectacular range of music for vocal ensembles from Saint Saens to Tan Dun The book will be essential to every choral conductor and a valuable resource for choir members choral societies and choruses

Aaron Copland and His World Carol J. Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America's best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s Continually responding to an ever changing political and cultural panorama Copland kept a firm focus on both his private muse and the public he served No self absorbed recluse he was very much a public figure who devoted his career to building support systems to help composers function productively in America This book critiques Copland's work in these shifting contexts The topics include Copland's role in shaping an American school of modern dance his relationship with Leonard Bernstein his homosexuality especially as influenced by the writings of Andr Gide and explorations of cultural nationalism Copland's rich correspondence with the composer and critic Arthur Berger who helped set the parameters of Copland's reception is published here in its entirety edited by Wayne Shirley The contributors include Emily Abrams Paul Anderson Elliott Antokoletz Leon Botstein Martin Brody Elizabeth Crist Morris Dickstein Lynn Garafola Melissa de Graaf Neil Lerner Gail Levin Beth Levy Vivian Perlis Howard Pollack and Larry Starr

Concert Music of the Twentieth Century Mark A. Radice, 2003 Concert Music of the Twentieth Century is about concert music music for contemplation rather than for atmosphere The repertoire discussed in these pages was written by composers with something important to say and with skills to do so Many of the works discussed tie in with a long standing Western European tradition of art music but an equal

voice is given to culturally and ethnically diverse composers active during the past several decades Radice provides data about the pieces the composers who wrote them and the contexts in which they originated Our understanding and evaluation of music is a dynamic process and one that is subject to change Music only has meaning within its social contexts and these are expanding daily Many non Western nations have long standing musical traditions and practices that have entered into the Western mainstream just as Western practices and traditions have influenced the musical cultures of the world to produce new and exciting possibilities for music making Diversity has been a key element in the selection of topics for discussion and the examples included here can serve as gateways for other investigations by interested readers This book is a survey presenting a broad array of representative works The personalities explored include composers performers theorists teachers and organizations In many cases the information comes directly from composers whom the author has interviewed The discussions in this book demonstrate that the world of contemporary music is a fascinating one that offers rich rewards to those interested in understanding the vibrant dynamics of concert music Copland Connotations Peter Dickinson,2002 A mine of information for both general and specialist readers about the life and work of one of America s greatest composers

The Oxford Handbook of Music Censorship Patricia Ann Hall,2018 Addresses censorship as a worldwide issue from its earliest recorded form to the modern day Includes unique case studies of music censorship unfamiliar to Western audiences Documents censorship through a necessarily intersectional lens Oxford University Press *Leonard Bernstein* Paul Laird,2015-06-05 Beginning with an introductory essay on his achievements it continues with annotations on Bernstein s voluminous writings performances educational work and major secondary sources **Making Music Modern** Carol J. Oja,2000 This book recreates an exciting and productive period in which creative artists felt they were witnessing the birth of a new age Aaron Copland Henry Cowell George Gershwin Roy Harris and Virgil Thomson all began their careers then as did many of their less widely recognized compatriots While the literature and painting of the 1920 s have been amply chronicled music has not received such treatment Carol Oja s book sets the growth of American musical composition against parallel developments in American culture provides a guide for the understanding of the music and explores how the notion of the concert tradition as inherited from Western Europe was challenged and revitalized through contact with American popular song jazz and non Western musics
