Science and Technology Policy F. Tisdell, 2012-12-06 I was asked recently to prepare an independent background report on the subject of priority assessment in science and technology policy for the Australian Science and Technology Council The Council while not necessarily endorsing this book suggested that a wider audience could be interested in the type of material contained in my report and kindly gave me permission to publish the material in my own right The present book contains this and other material some of which was presented at a seminar on National Science Policy Implications for Government Departments arranged by the Department of Science and the Environment Additional ideas were developed in response to comments on the manuscript by referees as a result of discussions with Professor John Metcalfe and Dr Peter
