## Has Science Got Rid Of God:

**Trading Gods** Brian Causey,2021-01-05 A man recounts his investigation into spirituality and into what he really believed about religion following the September 11th terrorist attacks Suddenly Brian Causey found himself stumbling over life s greatest questions Why are we here How did the universe and life begin Why is there suffering in the world What happens after we die If there is an afterlife how do I get there A portfolio manager at a large investment company Brian would leave the trading floor each day with these questions swirling in his head What he came to realize was that he had to make a decision would he trade the god he had been following under which he could make his own rules without subscribing to any larger organization or authority for the real God The more he researched the difficult questions of life the clearer God s truth became Brian ultimately concluded that the evidence points in the direction of God s existence In *Trading Gods* he shares his personal journey rationale for faith and the supporting research that explains why the real God is the best answer to life s biggest questions We all serve gods of one sort or another in our life Brian s story of being a trader who after the tragedy of 9 11 found his way to the true God of Scripture is both illuminating and inspiring Justin Brierley editor at Premier Christianity and host of the Unbelievable radio show and podcast For both Christian and non Christian alike I encourage you to take this journey with Brian You won t regret it Nate Sala president A Clear Lens     *The Last Stupid Church Book You'll Ever Read* James Townsend,Benjamin Samples,2008-06 IN APPRECIATION FOR THE GREAT RECEPTION AND NUMEROUS SALES WE ARE NOW ABLE TO OFFER THE LAST STUPID CHURCH BOOK AT A LOWER PRICE FOR 2012 THANKS AGAIN TO ALL OUR READERS The Last Stupid Church Book You ll Ever Read is the ground breaking consummation of the authors voyage through today s Christian culture In this book they lay the groundwork for stripping away the outer wrappings and uncovering the true foundations of your belief Is it a social function Is it a psychological need Is it an economic investment Or is it Grace     **The Secret Is Out: God's Truth Vs Satan's Doctrine** Innocent Nangoma,2020-04-16 Once upon a time a man named Godfrey White took it on himself to read the whole bible to determine its validity Unfortunately he could not understand it This upset Godfrey White because he saw the positive impact it had done on other lives and wanted to know more about this One God so that it could impact his life too Mr White was extremely irritated by the bible because when he read it he felt like it was judging him so he felt unworthy of it Mr White would spend hours on hours during the day trying to figure out what God s love was all about but felt it was too overwhelming to take in He would sometimes read it before bed but found the stories as fictional and boring He did his best to study it and maybe understand who God was but failed to do so Therefore Godfrey White placed the book in his closet where all the other books he had finished reading were He continued on with his life but everyday he would hear a voice calling to him Do you wish to know the truth He was not sure where the voice was coming from so he ignored it But the more he ignored it the louder the voice got Godfrey White soon began to lose his mind because the voice would not go away so one day when he was alone in his room he spoke back to the

voice Who is it that is speaking Am I going crazy What is the truth It was at that moment when the voice spoke back to him saying I heard you were searching for me so I called back to you but you ignored me Go to your closet and find that book you have failed to understand and I will guide you to the truth Today the gospel shall be revealed to you and you shall not only receive truth but a relationship with me TheSecretIsOut *Has Science Killed God?* Dennis Alexander,2019-11-21 World leading experts tackle challenging issues of science and faith Here are 20 papers from the Faraday Institute for Science and Religion which is a UK educational charity and a member of the Cambridge Theological Federation which is an affiliate of Cambridge University In addition to academic research the Institute engages in the public understanding of science and religion by means of courses conferences lectures seminars and the media The Faraday Papers provide the general reader with accessible and readable introductions to the relationship between science and religion written by a broad range of authors who are expert in the field They are intended to be read by those without a scientific background Here they are collected for the first time into a single volume Contributors include Has Science Killed God Prof Alister McGrath FRSA The Science and Religion Debate an Introduction Revd Dr John Polkinghorne KBE FRS Why Care for the Environment Prof Sir John Houghton FRS Ethical Issues in Genetic Modification Prof John Bryant The Age of the Earth Prof Bob White FRS Creation and Evolution not Creation or Evolution Prof R J Berry FRSE **Science's War On Reason** Mike Hockney,2016-01-02 People can't reason They don't even know what reason is Reason is almost always harnessed to something that has nothing to do with reason Believers in mainstream religion are feeling types who reason with their emotions or with their mystical intuitions Scientists are sensing types They subordinate their reason to their senses All scientists are empiricists and are opposed to rationalism i.e. the existence of a rational order of reality completely removed from the human senses which can only be apprehended rationally logically mathematically and via intellectual intuition Scientists try to don the cloak of rationalism even though they are explicitly opposed to mathematical rationalism which addresses a more fundamental noumenal reality than the one amenable to phenomenal science *Has Science Found God?* Victor J. Stenger,2009-12-02 In the past few years a number of scientists have claimed that there is credible scientific evidence for the existence of God In 1998 Newsweek went so far as to proclaim on its cover Science Finds God Is this true Are scientists close to solving the greatest of all mysteries Physicist Victor J Stenger delves into this fascinating question from a skeptical point of view in this lucid and engrossing presentation of the key scientific facts Stenger critically reviews the attempts of many contemporary theologians and some scientists to resurrect failed natural theologies in new guises Whether these involve updated arguments from design anthropic coincidences or modern forms of deism Stenger clearly shows that nothing in modern science requires supernatural explanation He offers naturalistic explanations for empirical observations that are frequently given theistic interpretations for example that information in the universe implies an intelligent designer that a universe with a beginning requires a Creator and that the elegant laws of physics suggest a

transcendent realm He shows that alleged spiritual nonmaterial phenomena do not lie beyond the experimental reach of physics This thorough and careful consideration of scientific evidence covers much ground yet remains accessible and highly informative to the educated lay reader

**Lost Relation - Finding Humanity and God** Michael Austin,2009-07 Lost Relation Finding humanity and God When the Party is over This is no trivial pursuit but a carefully argued case for the answers given by biblical Christianity but they are not stuffy and don t ask you to throw away your head and leap Investigate the big questions of our time What does it mean to be human Is Darwinism evidence based science Can we be sure about Jesus identity How could anyone find God And discover A view of Charles Darwin s Victorian society Fascinating insights into Darwin s greatest discovery How evolution destroys reason The riches of biblical Christianity A biblical worldview Assurance of personal faith The total sufficiency of Christ Finding hope when the Party is over Michael Austin author of Dawkins Dilemmas and Looking at the Cross shares biblical answers to some of the most vital questions of our time Besides serving in Christian ministry he worked as a development engineer and became deeply interested in design and creative thinking One aero engine Company he worked for had roots going back to 1808 in the reign of England s George III Originally from the UK he has made his home in Ireland for many years

*God, Science, and Religious Diversity* Robert T. Lehe,2018-07-24 Two major obstacles to belief in God in the twenty first century are the idea that science is incompatible with religious faith and the idea that the diversity of religions undermines the credibility of belief that any one religion could be truer than the others This book addresses both of these challenges to belief in God and explores a connection between them It argues that science and religion are not only compatible but that some recent scientific discoveries actually support belief in the existence of the Creator God The diversity of religions is widely believed to undermine the credibility of religious truth claims because of the assumed lack of any way to settle disagreements between different religions This book argues that one rational way to adjudicate disagreements between the claims of diverse religions is to assess their consistency with contemporary science The book considers how Christian theism and Buddhism fare in harmonizing their metaphysical frameworks with contemporary scientific cosmology Although both theistic and Buddhist worldviews resonate with many recent scientific discoveries the Big Bang theory and cosmic fine tuning favor the Christian doctrine of creation
