

The Gods hate hubris in a man almost more than any trait. Remember the boastful words of Odysseus to Poseidon after the fall of Troy? He paid for it with ten years of his life, and the lives of all his men. Retract your boast before something bad happens!

Hate Hubris

Scott Stratten, Alison Stratten

Hate Hubris:

Religion of Socrates Mark L. McPherran, 2010-11-01 This study argues that to understand Socrates we must uncover and analyze his religious views since his philosophical and religious views are part of one seamless whole Mark McPherran provides a close analysis of the relevant Socratic texts an analysis that yields a comprehensive and original account of Socrates commitments to religion e g the nature of the gods the immortality of the soul McPherran contends that Socrates saw his religious commitments as integral to his philosophical mission of moral examination and in turn used the rationally derived convictions underlying that mission to reshape the religious conventions of his time As a result Socrates made important contributions to the rational reformation of Greek religion contributions that incited and informed the theology of his brilliant pupil Plato

Emotion in Action: Thucydides and the Tragic Chorus Eirene Visvardi, 2015-01-27 Emotion in Action Thucydides and the Tragic Chorus offers a new approach to the tragic chorus by examining how certain choruses act on their shared feelings Eirene Visvardi redefines choral action analyzes choruses that enact fear and pity and juxtaposes them to the Athenian *d mos* in Thucydides History Considered together these texts undermine the sharp divide between emotion and reason and address a preoccupation that emerges as central in Athenian life how to channel the motivational power of collective emotion into judicious action and render it conducive to cohesion and collective prosperity Through their performance of emotion tragic choruses raise the question of which collective voices deserve a hearing in the institutions of the polis and suggest diverse ways to envision passionate judgment and action

Out of Character David DeSteno, Piercarlo Valdesolo, 2013-05-14 Have you ever wondered why a trumpeter of family values would suddenly turn around and cheat on his wife Why jealousy would send an otherwise level headed person into a violent rage What could drive a person to blow a family fortune at the blackjack tables Or have you ever pondered what

might make Mr Right leave his beloved at the altar why hypocrisy seems to be rampant or even why every once in awhile even you are secretly tempted to lie cheat or steal or conversely help someone you never even met This book answers these questions and more and in doing so turns the prevailing wisdom about who we are upside down Our character argue psychologists DeSteno and Valdesolo isn t a stable set of traits but rather a shifting state that is subject to the constant push and pull of hidden mechanisms in our mind And it s the battle between these dueling psychological forces that determine how we act at any given point in time Drawing on the surprising results of the clever experiments concocted in their own laboratory DeSteno and Valdesolo shed new scientific light on so many of the puzzling behaviors that regularly grace the headlines For example you ll learn Why Tiger Woods just couldn t resist the allure of his mistresses even though he had a picture perfect family at home And why no one including those who knew him best ever saw it coming Why even the shrewdest of investors can be tempted to gamble their fortunes away and why risky financial behavior is driven by the same mechanisms that compel us to root for the underdog in sports Why Eliot Spitzer who made a career of crusading against prostitution turned out to be one of the most famous johns of all time Why Mel Gibson a noted philanthropist and devout Catholic has been repeatedly caught spewing racist rants even though close friends say he doesn t have a racist bone in his body And why any of us is capable of doing the same whether we believe it or not A surprising look at the hidden forces driving the saint and sinner lurking in us all Out of Character reveals why human behavior is so much more unpredictable than we ever realized

Does Socrates Have a Method? Gary Alan Scott, 2009-03-02 Although the Socratic method is commonly understood as a style of pedagogy involving cross questioning between teacher and student there has long been debate among scholars of ancient philosophy about how this method as attributed to Socrates should be defined or indeed whether Socrates can be said to have used any single uniform method at all distinctive to his way of philosophizing This volume brings together essays by classicists and philosophers examining this controversy anew The point of departure for many of those engaged in the debate has been the identification of Socratic method with the elenchus as a technique of logical argumentation aimed at refuting an interlocutor which Gregory Vlastos highlighted in an influential article in 1983 The essays in this volume look again at many of the issues to which Vlastos drew attention but also seek to broaden the discussion well beyond the limits of his formulation Some contributors question the suitability of the elenchus as a general description of how Socrates engages his interlocutors others trace the historical origins of the kinds of argumentation Socrates employs others explore methods in addition to the elenchus that Socrates uses several propose new ways of thinking about Socratic practices Eight essays focus on specific dialogues each examining why Plato has Socrates use the particular methods he does in the context defined by the dialogue Overall representing a wide range of approaches in Platonic scholarship the volume aims to enliven and reorient the debate over Socratic method so as to set a new agenda for future research Contributors are Hayden W Ausland Hugh H Benson Thomas C Brickhouse Michelle Carpenter John M Carvalho Lloyd P Gerson Francisco J Gonzalez James H Leshner Mark McPherran Ronald M Polansky Gerald A Press Francois Renaud and W Thomas Schmid Nicholas D Smith P Christopher Smith Harold Tarrant Joanne B Waugh and Charles M Young
