These images which reached a broad and socially varied audience across Western Europe appeared in virtually all artistic media including illuminated manuscripts stained glass sculpture metalwork and tapestry [Hair, Headwear, and Orthodox Jewish Women](#) Amy K. Milligan, 2014-09-24 Hair Headwear and Orthodox Jewish Women comments on hair covering based on an ethnographic study of the lives of Orthodox Jewish women in a small non metropolitan synagogue It brings the often overlooked stories of these women to the forefront and probes questions as to how their location in a small community affects their behavioral choices particularly regarding the folk practice of hair covering A kallah or bride makes the decision as to whether or not she will cover her hair after marriage In doing so she externally announces her religious affiliation in particular her commitment to maintaining an Orthodox Jewish home Hair covering practices are also unique to women s traditions and point out the importance of examining the women especially because their cultural roles may be marginalized in studies as a result of their lack of a central role in worship This study questions their contribution to Orthodoxy as well as their concept of Jewish identity and the ways in which they negotiate this identity with ritualized and traditional behavior ultimately bringing into question the meaning of tradition in a modern world **A Cultural History of Jewish Dress** Eric Silverman, 2013-01-01 A Cultural History of Jewish Dress is the first comprehensive account of Jewish clothing both profane and sacred from its origins through to the present day Fascinating and accessibly written it will appeal to anybody with an interest in the central role of clothing in defining Jewish identity *Marking the Jews in Renaissance Italy* Flora Cassen, 2017-08-03 This book examines the discriminatory marking of Jews in Renaissance Italy and the impacts this had on the Jewish communities **Medieval Jewish Civilization** Norman Roth, 2014-04-08 This is the first encyclopedic work to focus exclusively on medieval Jewish civilization from the fall of the Roman Empire to about 1492 The more than 150 alphabetically organized entries written by scholars from around the world include biographies countries events social history and religious concepts The coverage is international presenting people culture and events from various countries in Europe Africa and the Middle East For a full list of entries and contributors a generous selection of sample entries and more visit the Medieval Jewish Civilization An Encyclopedia website [Regional Dress](#) Sara Hume, 2022-06-16 Traditional dress is a common phenomenon across much of Western Europe often originating in elaborate practices for rural religious events Yet despite its fundamentally local nature traditional dress in various European regions developed along a similar trajectory sometimes being transformed into political symbols and regional promotion for tourism and always revealing the complexity of rural society in terms of religious divisions class inequality and tension between the desires to protect tradition and embrace modernity To better understand how traditional dress evolved in France and Germany from the 19th to 21st centuries this book takes Alsace as its case study and in doing so illuminates broad experiences of modernity across rural

Europe and answers overarching questions about regionalism and nationalism Specifically Sara Hume unpacks why Alsatian dress was adopted as a symbol of loyalty to France despite being closer in style to German dress practices She explores the impact of political and geographical tensions on the appearance and function of traditional clothing for example in Alsace's situation at the border between France and Germany and in its transformation from disputed territory into capital of a united Europe Logically progressing chapters reveal how modernity did not drive out tradition in rural communities but rather led to processes of adaption preservation and re evaluation Through a rich variety of primary sources including costumes illustrations political cartoons legal documents and oral histories *Regional Dress* sheds light on the little known and rarely documented experiences of rural Europeans Its material culture approach to the study of regionalism is essential to students of traditional and folk dress history European history and design history

**The Jewish Body** Robert Jütte, 2020-12-25 An encyclopedic survey of the Jewish body as it has existed and as it has been imagined from biblical times to the present That the human body can be the object not only of biological study but also of historical consideration and cultural criticism is now widely accepted But why Robert Jütte asks should a historian bother with the Jewish body in particular And is the Jewish body as much a concept constructed over the course of centuries by Jews and non Jews alike as it is a physical reality To comprehend the notion and existence of a Jewish body he contends one needs to look both at the images and traits that have been ascribed to Jews by themselves and others and to the specific bodily practices that have played an important role in creating the identity of a religious and cultural community Jütte has written an encyclopedic survey of the Jewish body as it has existed and as it has been imagined from biblical times to the present often for anti Jewish purposes He examines the techniques for caring for the body that Jews acquire in childhood from parents and authority figures and how these have changed over the course of a more than 2000 year history most of it spent in exile From consideration of traditional body stereotypes such as the so called Jewish nose to matters of gender and sexuality sickness and health and the inevitable end of the body in death *The Jewish Body* explores the historical foundations of the human physis in all its aspects
