Hats For Jizo:

Hats for Jizo Kyoko Iwasaki, Sumi Schmid, 1988 *Jizo Bodhisattva* Jan Chozen Bays, Heng Sure, 2015-11-10 In *Jizo Bodhisattva* Zen teacher and practicing pediatrician Jan Chozen Bays explores the development of traditional Buddhist practices related to Jizo as well as the growing interest in Jizo practice in modern American Zen Buddhism. She also shows how you can incorporate this rich tradition into your own life through meditations, mantras, and chanting. In traditional Buddhist belief, a bodhisattva is an enlightened being who has forsaken entry into nirvana until all beings are saved. Jizo, one of the four great bodhisattvas of Mahayana Buddhism, is known as the Bodhisattva of the Greatest Vows. He is regarded as the protector of travelers, whether their journeys are in the physical world or in the spiritual realms. Jizo also has special significance for pregnant women and parents whose children have died. Japan in the 21st Century Pradyumna P. Karan, 2010-09-12 The ancient civilization of Japan, with its Shinto shrines and Buddhist temples, is also closely associated with all that is new and modern. Looking outward, Japan sees what it has become since Hiroshima: the world's second largest economy, a source of awe and wonder, a power without arms. Looking inward, Japan sees old ways shaken and new ones developing at a hectic pace. Japan in the Twenty-first Century offers compelling insights into the current realities of the country and investigates the crucial political, economic, demographic, and environmental challenges that face the nation. A combination of text, maps, and photographs provides an essential understanding of Japan's geography, cultural heritage, demography, economic and political development, and of many other important issues. Pradyumna P. Karan explores the obstacles and opportunities that will shape Japan and affect the world community in the coming years. He highlights strategies and policies that will facilitate economic and political change and stimulate the development of effective institutions for long-term sustainable prosperity and economic vitality. Unique field reports drawn from direct observations of events and places in Japan illuminate Japanese traditions and sensibilities. The first full-length English language textbook on Japan's geography, culture, politics, and economy to appear in nearly four decades, *Japan in the Twenty-first Century* will be a vital resource for researchers, academics, general readers, and students of Japan. Pradyumna P. Karan, professor of geography and Japan studies at the University of Kentucky, is the author or editor of numerous books on Asian geography and culture, including *The Japanese City* and *Japan in the Bluegrass*. **The Face of Jizo** Hank Glassman, 2012-01-31 Farther on, I find other figures of Jizo, single reliefs sculptured upon tombs. But one of these is a work of art so charming that I feel a pain at being obliged to pass it by. More sweetly assuredly than any imaged Christ, this dream in white stone of the playfellow of dead children, like a beautiful young boy with gracious eyelids half-closed and face made heavenly by such a smile as only Buddhist art could have imagined, the smile of infinite lovingness and supremest gentleness. Indeed, so charming, the ideal of Jizo is that in the speech of the people a beautiful face is always likened to his. Jizo kao, as the face of Jizo. Lafcadio Hearn, *Glimpses of an Unfamiliar Japan*, 1894. Stone images of the Buddhist deity Jizo, bedecked in a red cloth bib and presiding over offerings of flowers, coins, candles, and

incense are a familiar sight throughout Japan Known in China as a savior from hell's torment Jizo in Japan came to be utterly transformed through fusion with the local tradition of kami worship and ancient fertility cults In particular the Jizo cult became associated with gods of borders or transitions the stone gods known as dosojin Although the study of Jizo is often relegated to the folkloric Hank Glassman in this highly original and readable book demonstrates that the bodhisattva's cult was promoted and embraced at the most elite levels of society The Face of Jizo explores the stories behind sculptural and painted images of Jizo to reveal a fascinating cultural history Employing the methodologies of the early twentieth century renegade art historian Aby Warburg Glassman's focus on the visual culture of medieval Japanese religion is not concerned with the surface form or iconographical lineages of Jizo's images but with the social ritual and narrative contexts that bring the icons to life He skillfully weaves together many elements of the Jizo cult doctrine ritual cosmology iconography to animate the images he examines Thus The Face of Jizo is truly a work of iconology in the Warburgian sense Glassman's choice to examine the cult of Jizo through the medium of the icon makes for a most engaging and approachable history of this most Japanese of Buddhist deities
