John G. Sabol Jr.,2009-06-24 Phantom Gettysburg discusses the contemporary alternative version of a perceived haunted battlefield In order to understand this alternative perception contemporary anomalous phenomena must be affixed to and analyzed within their exact historical setting and social context An ethnographic model of mid 19thc American culture is used as the basis for this analysis Specifically the cultural beliefs relative to the concepts of death and the afterlife as it was envisioned by these soldiers is the basis for this model This historical ethnographic analysis serves two purposes First it is a means to legitimize the methodology and fieldwork practices of ghost research Second it is meant to analyze the Gettysburg experience and its haunting uncertainty in its historical and sociocultural environment The conclusion that is drawn from this comparative approach alters the reality and representation of an interactive ghostly battlefield presence A Gettysburg haunted by Civil War soldiers is considered for the most part a phantom experience *Whispers Amidst the Ruins:*
