defeated the world's largest empire. It was an era that helped usher in the modern world. But it was also an era where the belief in witches, ghosts, and sorcery was prevalent. The belief in supernatural forces stood in contrast with enlightenment thinking, which embraced a more rational view of the world backed by scientific study and experimentation. This conflict between old world thinking and the enlightenment played out in the popular press of the 18th Century in both England and its American colonies. **HAUNTED LAND** uncovers the paranormal tales of Colonial America as told through the newspapers of the time. **Weird U.S.** Mark Moran, Mark Sceurman, 2009-05. Covering all 50 states, *Weird U.S.* takes an unconventional look at the oddities, outcasts, and just plain strange things to see or do in America. **The Haunted Land** Tina Rosenberg, 2010-11-24. The Pulitzer Prize winning look at the collapse of Communism in Eastern Europe. **Shadows and Cypress** Alan Brown, 2009-09-28. From backwaters as dark as a cypress swamp to nooks as mysterious as a musty college library, southerners have conjured spirits and told ghost stories. *Shadows and Cypress: Southern Ghost Stories* is a Dixie's dance that summons ghost tales from Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia. Collecting more than a dozen stories from each state, this book channels the South's entire panorama of creepy locales into one volume. The limestone caves of Kentucky, the swamps of Louisiana and Florida, the pine hills and hollows of Appalachia, and the plains of Texas: these are perfect haunts for a host of narratives about visitors from the spirit world. The many cultures that converged in the American South enriched the region's ghost stories. *Shadows and Cypress* taps African American, French, Hispanic, and Scotch Irish storytelling traditions to capture the distinctive signatures that each has left on ghostlore. Throughout the region, the southern ghost story is hardly a curio from the crypt. It is still alive and well. Folklorist Alan Brown draws stories from crannies as contemporary as the college dormitory or cars parked on a lover's lane. To give the reader the unique experience of hearing a classic ghost story told, Brown presents these tales exactly as they were recorded in his field research or as archived in the trove of the WPA oral collections. A wide variety of specters found only in this region arise in *Shadows and Cypress*. The fillet and loogaroo from Louisiana, plat eye from South Carolina, and haints from across Dixie are among the creatures bumping in the night. Beginning with the Revolutionary War and continuing to the present day, this generous gathering of tales will chill and delight readers and long haunt shelves as a comprehensive sourcebook of the region's supernatural allure. **Weird New York** Chris Gethard, 2005. This book is a travel guide of sorts to New York's local legends and best kept secrets, filled with crazy characters, cursed roads, abandoned sites, and bizarre roadside attractions that the author feels reflect the shared modern folklore of our time. **The Photographic Uncanny** Claire Raymond, 2019-11-23. This book argues for a renewed understanding of the fundamentally uncanny quality of the medium of photography. It especially makes the case for the capacity of certain photographs precisely through their uncanniness to contest structures of political and social dominance. The uncanny as a quality that unsettles the perception of home emerges as a symptom of modern and contemporary society and also as an aesthetic apparatus by which some key

photographs critique the hegemony of capitalist and industrialist domains The book's historical scope is large beginning with William Henry Fox Talbot and closing with contemporary indigenous photographer Bear Allison and contemporary African American photographer Devin Allen Through close readings exegesis of individual photographs and careful deployment of contemporary political and aesthetic theory *The Photographic Uncanny* argues for a re-envisioning of the political capacity of photography to expose the haunted homeless condition of modernity
