The American Wilderness Thomas R. Vale, 2005 Interpretations of wild nature and wilderness are particularly diverse in the American mind given our history our collective economic success and our diverse social and cultural mix Although the meanings we attribute to nature reflect our different views of the role humans should play in the natural world there remains a divide between how we embrace protected landscapes and how we consider natural landscapes or nature itself Thomas Vale explores this phenomenon in *The American Wilderness* Reflections on Nature Protection in the United States In his examination of protected landscapes at all scales from the wooded corners of a city park and the local reserve of

wetland to the vast wilderness of the Everglades and Okefenokee to Central Park and Yosemite Vale argues that nature protection is an act of place creation an act that necessarily links humans to nature and depends on a diverse array of human interactions A rare combination of celebration and criticism Vale s argument is twofold landscapes of protected nature in the United States represent a legitimate natural resource and contrary to expressions in some recent literature such landscapes bond people to nature Providing extensive historical and modern data about the national park national wilderness and national wildlife refuge systems Vale argues for the validity of landscape protection and the benefits of achieving both strict preserves and mixed commodity places in a democratic society His goal is to unite the often disparate threads of nature protection into a fabric that will enhance an appreciation for the extent and richness of nature protection sentiment and action in the United States

Unsettled Remains Cynthia Sugars,Gerry Turcotte,2010-08-27 *Unsettled Remains* Canadian Literature and the Postcolonial Gothic examines how Canadian writers have combined a postcolonial awareness with gothic metaphors of monstrosity and haunting in their response to Canadian history The essays gathered here range from treatments of early postcolonial gothic expression in Canadian literature to attempts to define a Canadian postcolonial gothic mode Many of these texts wrestle with Canada s colonial past and with the voices and histories that were repressed in the push for national consolidation but emerge now as uncanny reminders of that contentious history The haunting effect can be unsettling and enabling at the same time In recent years many Canadian authors have turned to the gothic to challenge dominant literary political and social narratives In Canadian literature the postcolonial gothic has been put to multiple uses above all to figure experiences of ambivalence that have emerged from a colonial context and persisted into the present As these essays demonstrate formulations of a Canadian

postcolonial gothic differ radically from one another depending on the social and cultural positioning of who is positing it. Given the preponderance in colonial discourse of accounts that demonize otherness it is not surprising that many minority writers have avoided gothic metaphors. In recent years however minority authors have shown an interest in the gothic signalling an emerging critical discourse. This spectral turn sees minority writers reversing long standing characterizations of their identity as monstrous or invisible in order to show their connections to and disconnection from stories of the nation.

Eco-man Mark Christopher Allister, 2004. Many canonical literary works look to the wild as the site for establishing a man's selfhood. But nature is just as often subjected to his most violent displays of mastery. This tension lies at the heart of *Eco Man* which brings together two rapidly growing fields: men's studies and ecocriticism.

THE JATAKAS Sarah Shaw, 2006-06-08. When my concentrated mind was purified I directed it to the knowledge of the recollection of past lives. The Buddha on the night of his enlightenment. Associated with the living traditions of folk tale drama and epic the Jatakas recount the development of the Bodhisatta, the being destined to become the present Buddha in his final life, not just through the events of one lifetime but of hundreds. Written in Pali, the language of the Theravada Buddhist canon, the Jatakas comprise one of the largest and oldest collections of stories in the world, dating from the fifth century BCE to the third century CE. Generations in South and South East Asia have grown up with these tales. This volume contains twenty-six stories drawn from various ancient sources and each story reflects one of the ten perfections: giving, restraint, renunciation, wisdom, strength, acceptance, truthfulness, resolve, loving kindness, and equanimity. A detailed introduction elaborates on the ten perfections, explains the forms of enlightenment as well as the structure and the historical and geographical contexts of the stories. Sarah Shaw brings to life the teachings of Buddhism for the scholar and lay reader alike.

Chronotropics Odile Ferly, Tegan Zimmerman, 2023-12-12. This book deconstructs androcentric approaches to spacetime inherited from western modernity through its theoretical frame of the chronotropics. It sheds light on the literary acts of archival disruption, radical remapping, and epistemic marronnage by twenty-first century Caribbean women writers to restore a connection to spacetime, expanding it within and beyond the region. Arguing that the chronotropics points to a vocation for social justice and collective healing, this pan-Caribbean volume returns to autochthonous ontologies and epistemologies to propose a poetics and politics of the chronotropics that is anticolonial, gender-inclusive, pluralistic, and non-anthropocentric. This is an open access book.
