The International Politics of Sport in the Twentieth Century Professor Jim Riordan,Jim Riordan,2002-09-11 This book is the first of its kind It provides a wide ranging perspective through time and place and will be an invaluable tool for students studying sport [Queer Dickens](#) Holly Furneaux,2009-12-10 This book

offers a radically new reading of Dickens It argues that rather than representing a largely conventional conservative view of sexuality and gender his corpus is distinctly queer displaying a fascination with the diversity of gender roles the expandability of notions of the family and the multiplicity of sexual desire Deleuze and Education Inna Semetsky,2013-04-11 These 13 essays address the broad territory of educational theory and philosophy of education Moving from the formal to post formal mode of education the contributors explore education as an experimental and experiential process of becoming grounded in life that represents the becoming Other of Deleuze s thought Some Like It Hot , The Mythical Mediterranean Sea Nick Ceramella,Umberto Gori,2019-04-25 This volume brings together papers presented at the 7th Annual International Conference co organised by Florence University of the Arts Italy and Stony Brook University SUNY USA The contributors explored the many connections that define the Mediterranean Sea as a symbol of tradition and modernity and examined it as a region capable of congregating synergizing and transforming cultures Their writings focus on the relationship between the cultural social and historical environment of Mare Nostrum to pinpoint the elements defining its identity Hence particular emphasis is placed on the role and relevance of the Mediterranean as the first beacon of multi ethnicity which may be seen as a symbol of diversity and unity as well as a model that holds clues to understanding the global merging of cultures As such it is a real shame to see that the general interest in this unique and fascinating area has arisen not thanks to such highly positive features but because as Pope Francis says it has become an open air cemetery where thousands of people keep drowning The multifaceted approach to this topic has resulted in the book being divided into four sections covering the following thematic areas Literature History Culture and Identity *Listening to Iris Murdoch* Gillian Dooley,2022-06-15 When we think of Iris Murdoch s relationship with art forms the visual arts come most readily to mind However music and other sounds are equally important Soundscapes music and other types of sound contribute to the richly textured atmosphere and moral tenor of Murdoch s novels This book will help readers to appreciate anew the sensuous nature of Iris Murdoch s prose and to listen for all kinds of music sounds and silences in her novels opening up a new sub field in Murdoch studies in line with the emerging field of Word and Music Studies This study is supported by close readings of selected novels exemplifying the subtle variety of ways she deploys music sounds and silence in her fiction It also covers Murdoch s knowledge of music and her allusions to music throughout her work and includes a survey of musical settings of her words by various composers **Australia's Asian Sporting Context, 1920s - 30s** Sean Brawley,Nick Guoth,2013-10-18 This book examines Australia s sporting relationships with the Asian region during the interwar period Until now Australia s sporting relationships with the Asian region have been neglected by scholars of Australian and Asian sports history and the broader field of Australia s Asian context Concentrating on the period of the 1920s and 1930s when sporting relationships between Australia and a number of Asian nations emerged in a variety of sports this book demonstrates the depth of these previously under examined connections The book challenges and complicates the broader

historiography of Australia's Asian context a historiography that has been strongly influenced by the White Australia Policy and the Pacific War Why for example did white Australia so warmly welcome visiting Japanese sportsmen at a time when the Pacific region appeared to be inexorably sliding into a war that was informed by racial antagonisms This book examines sporting relations between Australia and seven Asian countries China Japan India Netherlands East Indies Philippines Malaya and Singapore and a range of sports including rugby football swimming hockey boxing cricket and tennis This book was published as a special issue of Sport in Society

The Quakers in English Society, 1655-1725 Adrian Davies, 2000-02-17 The early Quakers denounced the clergy and social elite but how did that affect Friends' relationships with others Drawing upon the insights of sociologists and anthropologists this lively and original study sets out to discover the social consequences of religious belief Why did the sect appoint its own midwives to attend Quaker women during confinement Was animosity to Quakerism so great that Friends were excluded from involvement in parish life And to what extent were the remarkably high literacy rates of Quakers attributable to the Quaker faith or wider social forces Using a wide range of primary source material this study demonstrates that Quakers were not the marginal and isolated people which contemporaries and historians often portrayed Indeed the sect had a profound impact not only upon members but more widely by encouraging a greater tolerance of diversity in early modern society
