Surrogacy and Embryo, Sperm, & Egg Donation: What Were You Thinking? Theresa M. Erickson, 2010-07-29 In Surrogacy and Embryo Sperm Egg Donation What Were You Thinking an attorney who practices exclusively in reproductive law shares her expert guidance for those ready to create a family via third party reproduction Theresa Erickson managing partner of Erickson Law APLC and the Founder and Chair of Conceptual Options The Surrogacy and Egg Donation Center educates and guides parents surrogates egg donors sperm donors and embryo donors through fertility infertility IVF and third party reproduction Erickson includes a glossary of terms a list of recommended reading for both parents and their children and legal forms while covering a multitude of relatable topics such as the Top ten myths of third party family building History of reproduction technologies Ways to begin the process Ethical and legal issues Questions to ask when building a family the nontraditional way Methods to select a physician and attorney Four fertility options Infertility is a global tragedy that no one should have to endure alone This guidebook provides valuable information for anyone ready to embark on the journey of becoming parents through third party reproduction **The Other Machine** Dion Farquhar, 2014-04-23 With technological advances in reproduction no longer confined to the laboratory or involving only the isolated individual women and men are increasingly resorting to a variety of technologies unheard of a few decades ago to assist them in becoming parents The public at large and feminists as a group are confused and divided over how to view these technologies and over what positions to take on the moral and legal dilemmas they give rise to Farquhar argues that two perspectives have tended to dominate feminist discussions of these issues She labels these fundamental feminism and market liberalism By linking a theoretical approach with a practical set of issues Farquhar's The Other Machine provides a rigorous analysis of contemporary feminist debates **Women's Sexuality Across the Life Span** Judith C. Daniluk, 2003-06-09 Moving beyond a traditional focus on sexual functioning this book emphasizes the complex interaction of psychological social cultural and biological influences on women's sense of themselves as sexual beings Written for practitioners and educators its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from

their needs and desires Themes explored include the development of sexual awareness and sexuality in childhood and adolescence the critical sexual choices of young adulthood and the multiple transitions characterizing the middle and later years of life The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings

Lesbianism Esther D. Rothblum, Ellen Cole, 1989 In this major contribution to the literature counselors psychologists and therapists address the issues that are vital to the lesbian experience Although ten percent of the female population may be lesbian the majority of people in the U S consider homosexuality lesbianism included obscene vulgar and anti American Despite the prevalence of and proven positive adjustment of lesbians mainstream mental health professionals have mirrored society's attitudes in their conceptualization of lesbianism as deviant and in their treatment of lesbians in therapy The contributors to this compassionate volume examine the need for greater understanding of the issues important to lesbians in order to decrease homophobic stereotypes and to demonstrate how the lesbian experience can serve as an affirmative model of nontraditional lifestyles They focus on lesbian issues rarely discussed in print married lesbians lesbians in rural settings and lesbian nonmonogamy The choices ethical dilemmas and concerns of lesbians as mothers lovers clients and therapists are voiced in this honest and provocative book

The Gendered Cyborg Fiona Hovenden, Linda Janes, Gill Kirkup, Kathryn Woodward, 2013-09-13 The Gendered Cyborg explores the relationship between representation technoscience and gender through the metaphor of the cyborg The contributors argue that the figure of the cyborg offers ways of thinking about the relationship between culture and technology people and machines which disrupt the power of science to enforce the categories through which we think about being human male and female Taking inspiration from Donna Haraway's groundbreaking Manifesto for Cyborgs the articles consider how the cyborg has been used in cultural representation from reproductive technology to sci fi and question whether the cyborg is as powerful a symbol as is often claimed The different sections of the reader explore the construction of gender categories through science the interaction of technoscience and gender in contemporary science fiction film such as Blade Runner and the Alien series debates around modern reproductive technology such as ultrasound scans and IVF assessing their benefits and constraints for women issues relating to artificial intelligence and the internet

Embryos, Ethics, and Women's Rights Elaine Baruch, Amadeo F D'Adamo, Joni Seager, 2014-04-23 Will procreation become just another commodity in the marketplace with designer sperm ova and embryos offered for sale Will the attention and monies focused on the new reproductive technologies take away resources from infertility prevention prenatal care and adoption If states move to regulate such practices will this encourage widespread governmental interference in reproductive choice How will society look at the biologically unique children who are the products of genetic manipulation and more importantly how will these children view themselves This controversial book explores the answers to these questions that are frequently being asked as the battles over reproductive technologies and freedoms become more heated and touch more people's lives Embryos Ethics and Women's Rights examines both the

clinical and personal perspectives of reproductive technologies Experts explain and debate the growing number of procreative possibilities in vitro fertilization genetic manipulation of embryos embryo transfer surrogacy prenatal screening and the fetus as patient Some of the leading authorities in the field including John Robertson Ruth Hubbard and Gena Corea address the ethical legal religious social and psychological concerns that are inherent in the issues Essential reading for every person concerned with control over basic issues of human destiny Embryos Ethics and Women s Rights provides unique and comprehensive coverage on the subject of technologically controlled childbearing and particularly its effects on mothers and their unborn children
