World Politics at the Edge of Chaos Emilian Kavalski, 2015-04-15 Why are policymakers scholars and the general public so surprised when the world turns out to be unpredictable World Politics at the Edge of Chaos suggests that the study of international politics needs new forms of knowledge to respond to emerging challenges such as the interconnectedness between local and transnational realities between markets migration and social movements and between pandemics a looming energy crisis and climate change Asserting that Complexity Thinking CT provides a much needed lens for interpreting these challenges the contributors offer a parallel assessment of the impact of CT to anthropocentric and non anthropocentric post human International Relations Using this perspective the result should be less surprise when confronting the dynamism of a fragile and unpredictable global life This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7129>

Enlightenment Is an Accident Tim Burkett, 2023-05-16 A warm hearted guide to Buddhist practice for those ready to contend with the reality that

enlightenment the realization of non self can't be achieved by the self A well known spiritual saying goes Enlightenment is an accident But we can make ourselves more accident prone As an authentic American Zen takes shape enlightenment continues to be misunderstood as a project to be completed a goal to be achieved or a prize to be awarded Tim Burkett's new book unhooks enlightenment from the hot air balloon of ego and brings it back down to earth Drawing on stories of his first teacher the Zen master Shunryu Suzuki author of Zen Mind Beginner's Mind and Burkett's decades of practice and teaching he reveals how to live in the world with a deep joy that comes from embracing the work and play of this very moment With the wisdom and humor of a seasoned practitioner familiar with all manner of eccentric fixations and silly dead ends he offers views and practices we can use to support the paradoxical process of letting enlightenment happen on its own
