Water Resources Review ,1976 **Fishery Bulletin of the Fish and Wildlife Service** ,1956 The Pacific Island States S. Henningham,1995-10-25 In the volatile post Cold War era the small vulnerable states of the Pacific Islands region face several challenges to their security and sovereignty This book focuses on these challenges as part of an examination of security and defence issues in the region It considers trends and issues over the last decade and the uncertain prospects over the next The book emphasizes political diplomatic and military matters including the role of external powers but also considers environmental economic and resources issues *Research Paper* ,1950 *Research Paper - Weather Bureau* United States. Weather Bureau,1949 *Hawaii Educational Review* ,1922 Fishery Bulletin of the ,1956 **Contested Ideas of Regionalism in Asia** Baogang He,2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism centric approaches to regionalism **Fiction** ,2003 American Foreign Relations since Independence Richard Dean Burns,Joseph M. Siracusa,Jason C. Flanagan,2013-03-21 This book provides a succinct and accessible interpretation of the major event and ideas that have shaped U S foreign relations since the American Revolution historical factors that now affect our current debates and commitments in the Middle East as well as Europe and Asia American Foreign Relations since Independence explores the relationship of American policies to national interest and the limits of the nation s power reinterpreting the nature and history of American foreign relations The book brings together the collective knowledge of three generations of diplomatic historians to create a readily accessible introduction to the subject The authors explicitly challenge and reject the perennial debates about isolationism versus internationalism instead asserting that American foreign relations have been characterized by the permanent tension inherent in America s desire to engage with the world and its equally powerful determination to avoid entanglement in the world s troubles This work is ideally suited as a resource for students of politics international affairs and history and it will provide compelling insights for informed general readers **Power across the Pacific** W. Nester,1996-07-24 America s relationship with Japan recently passed its 140th anniversary Although over those years hundreds of books and thousands of

articles have explored different issues or periods of the relationship no book has analyzed the entire relationship from beginning to present The void can perhaps be explained by the relationship s complexity and changes over time Two great cycles of initial partnership and eventual rivalry have shaped American Japanese relations one geopolitical 1853 1945 and the other geoeconomic 1945 present This book fills that void as it systematically untangles the interrelated perceptions convergent and divergent national interests and shifting power relations which have shaped American policies toward Japan within those two great cycles More specifically it highlights the personalities national moods domestic issues and political alignments and other pressing international concerns within which Washington has attempted to define and assert its interests toward Japan **Oceanography and Marine Biology, An Annual Review, Volume 39** R. N. Gibson,2001-07-19 Interest in oceanography and marine biology and the relevance of those fields to global environmental issues creates a demand for authoritative reviews that summarize recent research Oceanography and Marine Biology an Annual Review has catered to this demand since its foundation by the late Harold Barnes more than 35 years ago It is an annual
