Hawaiian Sculpture:

Hawaiian Sculpture J. Halley Cox, William H. Davenport, 2021-05-25 The first comprehensive study of Hawaiian sculptural tradition *Hawaiian Sculpture* documents most known extant indigenous carvings of the human figure and identifies their location in public and private collections More than 164 illustrations illuminate the wooden sculpture of artists whose names are unknown but who were brilliant by any standard The revised 1988 edition adds recently discovered pieces and a new introduction The first edition discussed 147 pieces the revised edition presents 17 previously uncatalogued works making the volume a valuable addition to the field of Oceanic art *The Painted King* Glenn Wharton, 2011-11-30 The famous statue of Kamehameha I in downtown Honolulu is one of the state's most popular landmarks Many tourists and residents however are unaware that the statue is a replica the original cast in Paris in the 1880s and the first statue in the Islands stands before the old courthouse in rural Kapa au North Kohala the legendary birthplace of Kamehameha I In 1996 conservator Glenn Wharton was sent by public arts administrators to assess the statue's condition and what he found startled him A larger than life brass figure painted over in brown black and yellow with white toenails and fingernails and penetrating black eyes with small white brush strokes for highlights It looked more like a piece of folk art than a nineteenth century heroic monument *The Painted King* is Wharton's account of his efforts to conserve the Kohala Kamehameha statue but it is also the story of his journey to understand the statue's meaning for the residents of Kapa au He learns that the townspeople prefer the more human painted Kamehameha regaling him with a parade chants and leis every Kamehameha Day June 11 He meets a North Kohala volunteer who decides to paint the statue's sash after respectfully consulting with kahuna Hawaiian spiritual leaders and the statue itself A veteran of public art conservation Wharton had never before encountered a community that had developed such a lengthy personal relationship with a civic monument Going against the advice of some of his peers and ignoring warnings about going native Wharton decides to involve the people of Kapa au in the conservation of their statue and soon finds himself immersed in complex political social and cultural considerations including questions about representations of the Native Hawaiian past Who should decide what is represented and how And once a painting or sculpture exists how should it be conserved *The Painted King* examines professional authority and community involvement while providing a highly engaging and accessible look at activist conservation at work wherever it may be found *The Arts of Kingship* Stacy L. Kamehiro, 2009-07-27 *The Arts of Kingship* offers a sustained and detailed account of Hawaiian public art and architecture during the reign of David Kalakaua the nativist and cosmopolitan ruler of the Hawaiian Kingdom from 1874 to 1891 Stacy Kamehiro provides visual and historical analysis of Kalakaua's coronation and regalia the King Kamehameha Statue Iolani Palace and the Hawaiian National Museum drawing them together in a common historical political and cultural frame Each articulated Hawaiian national identities and navigated the turbulence of colonialism in distinctive ways and has endured as a key cultural symbol These cultural projects were part of the monarchy's concerted effort to promote a national culture in the

face of colonial pressures internal political divisions and declining social conditions for Native Hawaiians which in combination posed serious threats to the survival of the nation The Kalakaua leadership endorsed images that boosted international relations and appeased foreign agitators in the kingdom while addressing indigenous political cleavages Kamehiro interprets the images spaces and institutions as articulations of the complex cultural entanglements and creative engagement with international communities that occur with prolonged colonial contact Nineteenth century Hawaiian sovereigns celebrated Native tradition history and modernity by intertwining indigenous conceptions of superior chiefly leadership with the apparatus and symbols of Asian American and European rule The resulting symbolic forms speak to cultural intersections and historical processes claims about distinctiveness and commonality and the power of objects institutions and public display to create meaning and enable action The Arts of Kingship pursues questions regarding the nature of cultural exchange how precolonial visual culture engaged and shaped colonial contexts and how colonial art informs postcolonial visualities and identities It will be welcomed by readers with a general and scholarly interest in Hawaiian history and art As it contributes to discussions about colonial cultures nationalism and globalization this interdisciplinary work will appeal to art and architectural historians as well as those studying Pacific history cultural and museum studies and anthropology *Library of Congress Subject Headings* Library of Congress.
