Hawaiian Adze Production And Distribution:

Hawaiian Adze Production and Distribution Barbara Lass,1994-12-01 Using a study of stone adzes of the precontact period on the island of Hawai i Lass examines the role of a material resource in the development of cultural complexity

Archaeological evidence is used to analyze the hypotheses that embrace the adaptationist and political approaches to increased complexity

Hawaiian History Richard Lightner,2004-08-30 Hawaii has been referred to as the crossroads of the Pacific This book illustrates how many world cultures and customs meet in the Hawaiian Islands providing a chronological overview highlighted by extracts from important works that express Hawaii s unique history This work starts with chronological chapters on general and ancient Hawaiian history and continues through early Western contact the 19th century and Hawaii s annexation to the United States Topics include politics religion social issues business ethnic groups and race relations

The Ancient Hawaiian State Robert J. Hommon,2013-04-25 The well known list of cradles of civilization primary states from which all modern nation states ultimately derive has traditionally been limited to Egypt Mesopotamia the Indus Valley China Mesoamerica and Andean South America However by drawing on archaeological and ethnohistorical sources Robert J Hommon demonstrates that Polynesia with primary states in both Hawai i and Tonga should be added to that list The Ancient Hawaiian State offers a history of the ancient Hawaiians transformation of their Polynesian chiefdoms into primary state societies The emergence of primary states is one of the most revolutionary transformations in human history and Hawai i s metamorphosis was so profound that in some ways the contact era Hawaiian states bear a closer resemblance to our world than to that of their closely related Eastern Polynesian contemporaries In contrast to the other six regions in which states emerged in the distant proto or pre literate past the transformation of Hawaiian states is documented in an extensive body of oral traditions preserved in written form a rich literature of early post contact eyewitness accounts by participants and Western visitors as well as an extensive archaeological record Tracing the roots and emergence of the Hawaiian states this innovative study offers a detailed model that will advance the analysis of Polynesian political development and shed light on the nature and dynamics of primary state formation

The ^Ancient Hawaiian State Robert J. Hommon,2013-03-08 Drawing on archaeological and ethnohistorical sources this book redefines the study of primary states cradles of civilization from which all modern nation states ultimately derive by arguing for the inclusion of Polynesia which witnessed the development of primary states in both Hawai i and Tonga

Hawaii's Past in a World of Pacific Islands James M. Bayman,Thomas S. Dye,2013-03-12 Given its relatively late encounter with the West Hawaii offers an exciting opportunity to study a society whose traditional lifeways and technologies were recorded in native oral traditions and written documents before they were changed by contact with non Polynesian cultures This book in the SAA Press Current Perspectives Series chronicles the role of archaeology in constructing a narrative of Hawaii s cultural past focusing on material evidence dating from the Polynesians first arrival on Hawaii s shores about a millennium ago to the early decades

of settlement by Americans and Europeans in the nineteenth century A final chapter discusses new directions taken by native Hawaiians toward changing the practice of archaeology in the islands today

X-Ray Fluorescence Spectrometry (XRF) in Geoarchaeology M. Steven Shackley, 2010-10-17 Since the 1960s x ray fluorescence spectrometry XRF both wavelength and energy dispersive have served as the workhorse for non destructive and destructive analyses of archaeological materials Recently eclipsed by other instrumentation such as LA ICP MS XRF remains the mainstay of non destructive chemical analyses in archaeology particularly for volcanic rocks and most particularly for obsidian In a world where heritage and repatriation issues drive archaeological method and theory XRF remains an important tool for understanding the human past and will remain so for decades to come Currently there is no comprehensive book in XRF applications in archaeology at a time when the applications of portable XRF and desktop XRF instrumentation are exploding particularly in anthropology and archaeology departments worldwide The contributors to this volume are the experts in the field and most are at the forefront of the newest applications of XRF to archaeological problems It covers all relevant aspects of the field for those using the newest XRF technologies to deal with very current issues in archaeology

Handbook of Landscape Archaeology Bruno David, Julian Thomas, 2016-06-03 Over the past three decades landscape has become an umbrella term to describe many different strands of archaeology From the processualist study of settlement patterns to the phenomenologist s experience of the natural world from human impact on past environments to the environment s impact on human thought action and interaction the term has been used In this volume for the first time over 80 archaeologists from three continents attempt a comprehensive definition of the ideas and practices of landscape archaeology covering the theoretical and the practical the research and conservation and encasing the term in a global framework As a basic reference volume for landscape archaeology this volume will be the benchmark for decades to come All royalties on this Handbook are donated to the World Archaeological Congress

Understanding Early Large-Scale Collectives Justin Jennings, 2025-06-30 This volume brings together perspectives from different parts of the world that showcase the wide variety of practices institutions and ideologies that allowed for shared identities and coordinated actions across broad collectives It shows that there are many ways that people can work together How did the world s first large scale collectives come into being For much of our discipline s history the answer was the state People learned how to be part of a larger community via political economic and social scaffolding that tended to build from earlier ways of living in a region This scaffolding was often wobbly and always under construction its flexibility often a design strength rather than a flaw This book demonstrates that violence and rulers often played pivotal roles in large scale collectives but so did gender complementarity markets ritual centers fictive kinship and egalitarianism Earlier evolutionary approaches tended to obscure both the variability and malleability of earlier political forms in a desire to find ideal types hidden beneath cross cultural noise This volume s authors argue that this noise was politics in action and that there was no state or other kind of polity that was above the fray and divorced from the daily

practices that brought people animals and other things together A better understanding of early collective action strategies provides a richer understanding of past politics and just as importantly demonstrates governance alternatives for our contemporary society that struggles to address climate change pandemics and other pressing challenges This book will interest archaeologists and historians as well as anyone who is curious about other ways that we can work together to solve common problems

Theory in Economic Anthropology Jean Ensminger,2002 Comprising 13 contributions mostly based on papers presented at the annual conference of the Society for Economic Anthropology in 1998 at Northwestern University this volume focuses several themes the new institutionalism wealth exchange and the evolution of social institutions small producers interactions with the wider world commodity chains and the formal informal sector distinction and the role for big theory in economic anthropology Annotation copyrighted by Book News Inc Portland OR

Stone Tool Traditions in the Contact Era Charles Cobb,2003-09-10 This is the first comprehensive analysis of the partial replacement of flaked stone and ground stone traditions by metal tools in the Americas during the Contact Era It examines the functional symbolic and economic consequences of that replacement on the lifeways of native populations even as lithic technologies persisted well after the landing of Columbus Ranging across North America and to Hawai i the studies show that even with wide access to metal objects Native Americans continued to produce certain stone tool types perhaps because they were still the best implements for a task or because they represented a deep commitment to a traditional practice Chapters are ordered in terms of relative degree of European contact beginning with groups that experienced brief episodes of interaction such as the Wichita French meeting on the Arkansas River and ending with societies that were heavily influenced by colonization such as the Potawatomi of Illinois Because the anthology draws comparisons between the persistence of stone tools and the continuity of other indigenous crafts it presents holistic models that can be used to explain the larger consequences of the Contact

Feathered Gods and Fishhooks Patrick Vinton Kirch,Mark D. McCoy,2023-07-31 The first edition of Feathered Gods and Fishhooks was the pioneering synthesis of ancient Hawaiian civilization from an archaeological perspective This long awaited revised edition now brings the field up to date incorporating the results from hundreds of archaeological projects undertaken throughout the Hawaiian Islands over the past thirty five years that have benefited from tremendous technological advancements and presents an authoritative account of the origins and progression

of Hawaiian culture prior to the arrival of Europeans. Generously illustrated, this revision includes dozens of new photographs and maps along with a selection of color plates. This volume like its predecessor provides a synthesis of Hawaiian archaeology that avoids unnecessary jargon and is comprehensible to the interested layperson yet is sufficiently detailed to be useful to the professional archaeologist.

Feathered Gods and Fishhooks: The Archaeology of Ancient Hawai'i begins with an explanation of archaeological practice in Hawai'i from antiquarian pursuits in the late nineteenth century through the development of modern research techniques taking into account the recent tensions surrounding the significant shift of archaeology from a largely academic endeavor to a professional consulting enterprise. Following a review of environmental constraints and opportunities and of the main kinds of archaeological evidence, the book explores the latest information on the first Polynesian settlement of Hawai'i. To achieve a holistic view, the wide range of topics discussed in this work include material culture, agricultural systems, population size, ritual architecture, variations in landscapes, and archaeological evidence for historical transformations following European contact. The final chapters survey island by island major sites and patterns of ancient settlement. In total, this book tells a story of Hawaiian history, culture, and wisdom in an attempt to preserve ancestral archaeological records. As with the first edition, the revised *Feathered Gods and Fishhooks* is an indispensable resource on the history of ancient Hawai'i. Of particular note is the extensive bibliography, a key guide to hundreds of often difficult to locate reports and publications on Hawaiian archaeology.

Bronze Age Economics Timothy Earle, 2018-02-13

Timothy Earle has set out to offer the most comprehensive view now available of the economic foundations of early societies, and it may well be that he has succeeded. *Bronze Age Economics* is a pioneering contribution to archaeological theory. Colin Renfrew, University of Cambridge

Advances in Titicaca Basin Archaeology-2 Abigail R. Levine, Alexei Vranich, 2013-12-31

This volume, the second in a series of studies on the archaeology of the Titicaca Basin, serves as an excellent springboard for broader discussions of the roles of ritual authority, coercion, and the intensification of resources and trade for the development of archaic states worldwide. Over the last hundred years, scholars have painstakingly pieced together fragments of the incredible cultural history of the Titicaca Basin, an area that encompasses over 50,000 km². Achieving a basic understanding of settlement patterns and chronology, while large-scale surveys will need to continue and areas will need to be revisited to further refine chronologies and knowledge of site formation processes, the maturation of the field now allows archaeologists to fruitfully invest energy in single locations and specialized topics.

Village Potters of the Troodos Mountains Gloria London, 2024-03-01

Village Potters of the Troodos Mountains: Ceramic Production in Agios Demetrios, Cyprus, 1891-2002 by Gloria London is a study of four generations of female potters working in a remote Cypriot mountain village. Their coil-built jars, jugs, cookware, beehives, ovens, and decorative pots are the subject of the author's ethnoarchaeological research, including her quantitative data on pot sizes, production rates, firing times, and rate of loss. This data will serve archaeologists worldwide who are concerned with craft specialization and standardization, learning

frameworks markings on pots and identifying production locations Excavations at Cerro Azul, Peru Joyce Marcus, 2008-12-31 Recipient of the Jo Anne Stolaroff Cotsen Prize During the Late Intermediate period AD 1100 1470 the lower Canete Valley of Peru was controlled by the walled Kingdom of Huarco While inland sites produced irrigated crops the seaside community of Cerro Azul 130 km south of Lima produced fish for the rest of the kingdom Cerro Azul's noble families lived in large multipurpose compounds with tapia walls Their pottery had its strongest ties with valleys to the south such as Chincha and Ica During the course of excavation the University of Michigan Project excavated two tapia buildings in their entirety saving every sherd from every room walled work area feature and midden This remarkable volume is the final site report on the architecture and pottery of Late Intermediate Cerro Azul **Kasapata and the Archaic Period of the Cuzco Valley** Brian S. Bauer, 2007-12-31 Although the Cuzco Valley of Peru is renowned for being the heartland of the Incas little is known concerning its pre Inca inhabitants Until recently it was widely believed that the first inhabitants of the Cuzco Valley were farmers who lived in scattered villages along the valley floor ca 1000 BC and that there were no Archaic Period remains in the region This perspective was challenged during a systematic survey of the valley when numerous preceramic sites were found Additional information came from excavations at the site of Kasapata the largest preceramic site identified during the survey It is now clear that the Cuzco Valley was inhabited like many other regions of the Andes soon after the retreat of the Pleistocene glaciers and that it supported thriving cultures of hunters and foragers for hundreds of generations before the advent of permanent settlements This edited volume provides the first overview of the Archaic Period 9000 2200 BC in the Cuzco Valley The chapters include a detailed discussion of the distribution of Archaic sites in the valley as well as the result of excavations at the site of Kasapata Separate chapters are dedicated to examining the lithics human burials faunal remains and obsidian recovered at this remarkably well preserved site *People of Ancient Daunian* Camilla Norman, 2024-06-01 The statue stelae of Early Iron Age Daunian north Apulia Italy a group of stone slabs are each incised to represent the garb and accoutrements of a person They detail the clothing and adornment worn by men and women in full regalia plus through additional figurative images drawn on the robes show ritual practices everyday activities and scenes of local legend As such they offer an unparalleled window into the lives of a proto historic people providing a rich source of self representation for what is otherwise a fairly poorly understood society Grounded in the scholarship of post colonial and gender archaeology this book pays full respect to the agency of indigenous communities and the important role of women It considers the stelae not through a Hellenic lens but in the Italo Adriatic context to which they belong This is the first time an in depth holistic study of the Daunian stelae has been undertaken and the first presentation of the material in English Icon, Cult, and Context Maura K. Heyn, Ann Irvine Steinsapir, 2016-12-31 This festschrift honors UCLA professor emerita Susan Downey and her meticulous scholarship on religious architecture and imagery in the Roman Hellenistic world The iconography of gods and goddesses the analysis of sacred imagery in the context of ancient cult practices and the design and decoration of sacred

spaces are the main themes of the book Authors examine such subjects as painting from Dura Europos Hellenistic sculpture at Saqqara in Egypt Roman cameo glass Pompeian fresco and aspects of Venus in portrait sculpture The essays on Dura Europos are especially valuable in light of the present turmoil in the region Professor Downey s influence shines through in these discussions which echo her mentorship of several generations of art history and archaeology students and recognize her scholarly achievements The broad temporal and geographic parameters of the volume are expansive and the juxtaposition of images and analyses leads to surprising new conclusions
