Grove Day, Amos P. Leib, 2021-05-25 Over the past two centuries a considerable number of Hawaiian legends have been translated into English Although this material has been the subject of studies in anthropology ethnology and comparative mythology no study has been made of the translations and the translators themselves Nor has a definitive bibliography of published translations been compiled The purpose of this volume is to provide an extensive annotated bibliography of both

primary translations and secondary retellings in English together with a historical and critical study of the more important translations The World and All the Things upon It David A. Chang, 2016-06-01 Winner of the Modern Language Association's Prize for Studies in Native American Literatures, Cultures and Languages Winner of the American Historical Association's Albert J. Beveridge Award Winner of NAISA's Best Subsequent Book Award Winner of the Western History Association's John C. Ewers Award Finalist for the John Hope Franklin Prize What if we saw indigenous people as the active agents of global exploration rather than as the passive objects of that exploration What if instead of conceiving of global exploration as an enterprise just of European men such as Columbus or Cook or Magellan we thought of it as an enterprise of the people they discovered What could such a new perspective reveal about geographical understanding and its place in struggles over power in the context of colonialism The World and All the Things upon It addresses these questions by tracing how Kanaka Maoli Native Hawaiian people explored the outside world and generated their own understandings of it in the century after James Cook's arrival in 1778 Writing with verve David A. Chang draws on the compelling words of long ignored Hawaiian language sources stories songs chants and political prose to demonstrate how Native Hawaiian people worked to influence their metaphorical place in the world We meet for example Ka'iana a Hawaiian chief who took an English captain as his lover and while sailing throughout the Pacific considered how Chinese Filipinos Pacific Islanders and Native Americans might shape relations with Westerners to their own advantage Chang's book is unique in examining travel sexuality spirituality print culture gender labor education and race to shed light on how constructions of global geography became a site through which Hawaiians as well as their would be colonizers perceived and contested imperialism colonialism and nationalism Rarely have historians asked how non Western people imagined and even forged their own geographies of their colonizers and the broader world This book takes up that task It emphasizes moreover that there is no better way to understand the process and meaning of global exploration than by looking out from the shores of a place such as Hawai'i that was allegedly the object and not the agent of exploration **Polynesian Research: Hawaii** William Ellis, 2012-02-14
