Handbook to Literature Northrop Frye, Sheridan Warner Baker, George B. Perkins, 1985 *The Harper Handbook to Literature* , , **I Am Large, I Contain Multitudes** Katie Heffelfinger, 2011-02-15 Drawing on the insights of lyric poetic theory this book offers a fresh reading of Second Isaiah This approach advances an argument that the tensive and conflicted divine voice is primary unifying factor in the sequence of poems *PopLit, PopCult and The X-Files* Jan Delasara, 2015-11-03 For six acclaimed seasons FBI paranormal detectives Mulder and Scully have been chasing monsters and little green men and exposing government conspiracies while espousing the mantras trust no one and the truth is out there This work takes a close look at the popular television series and shows how its style character and narrative structure have continued to tease and please a wide viewing audience every week for six years The first section examines the text of the series and the progression of its mythic story arc This part also looks at the show s use of expressionistic techniques in both its visual and sound effects the related tropes of self reflexive humor irony and the grotesque and its ability to give the audience an occasional strong sensory jolt The second section explores the context that has given rise to The X Files phenomenon in the 1990s The show s gothic horror tradition is established and its contribution to the Zeitgeist of the 90s is also acknowledged **Founders, Classics, Canons** Peter Baehr, 2017-07-05 Founders classics and canons have been vitally important in helping to frame sociology s identity Within the academy today a number of positions feminist postmodernist postcolonial question the status of tradition In Founders Classics Canons Peter Baehr defends the continuing importance of sociology s classics and traditions in a university education Baehr offers arguments against interpreting defending and attacking sociology s great texts and authors in terms of founders and canons He demonstrates why in logical and historical terms discourses and traditions cannot actually be founded and why the term founder has little explanatory content Equally he takes issue with the notion of canon and argues that the analogy between the theological canon and sociological classic texts though seductive is mistaken Although he questions the uses to which the concepts of founder classic and canon have

been put Baehr is not dismissive On the contrary he seeks to understand the value and meaning these concepts have for the people who employ them in the cultural battle to affirm or attack the liberal university tradition *The Languages of World Literature* Achim Hölder, 2024-03-04 This volume opens the series of papers presented at the Vienna Congress of AILC ICLA 2016 beginning with eight keynotes Thirty four further papers are dedicated to the central theme of the conference the linguistic side of world literature under different focal points The volume further contains five roundtables the papers of a workshop of the UNESCO memory of the worlds programme a presentation of the avldigital de platform as well as several bibliographically enriched overviews of the special lexicography of comparative literature up to date versions of the ICLA publications and an example of multiple translations of a famous modern classic *Inchbald, Hawthorne and the Romantic Moral Romance* Ben P Robertson, 2015-10-06 Explores the connections between British and American Romanticism focusing on the novels of Elizabeth Inchbald 1753 1821 and Nathaniel Hawthorne 1804 64 This study argues that Inchbald and Hawthorne are representative of a larger British American cultural confluence during the eighteenth and nineteenth centuries Poetics of Loss Katharina Lempe, 2015 With the removal of death from the public sphere mourning has become a private matter At the same time particularly in poetry the trend is reversed An intensely elegiac quality and a focus on absence death and loss can be observed in contemporary Anglophone poetry This study examines the poetry of Andrew Motion in the context of the contemporary elegy a genre which is at a crossroads between the anti consolatory refusal to mourn the inability to move past grief and the strong wish for redemption from grief Motion s poetry which mainly deals with preemptive attempts to cope with loss can be seen as a typical example for the contemporary melancholy mood in poetry Series Erlanger Studies of English and American Studies Erlanger Studien zur Anglistik und Amerikanistik Vol 15 Subject Poetry Death Studies Literary Criticism *An Independent Stance* W. J. Keith, 1991 Part One of this strongly worded informed and wide ranging collection examines key issues for the future of Canadian criticism Part Two offers new readings of important works by Grove Wilson MacLennan Davies Laurence Hood Wiebe Hodgins and Atwood As W J Keith argues We still have a mission to have our literature recognized as an essential reflection of our national life This is what I mean by retrenchment and consolidation Literature can survive without literary criticism but it cannot survive if it is unknown and unread It is criticism s prime function at the present time to see that it is both known and read with that mature enjoyment which is a combination of emotional sensitivity and humane intelligence As critics scholars editors we shall not be fulfilling our responsibilities or justifying our existence if we attempt anything less Or as Keith modestly observes in his introduction to this collection If this book is of any interest it will be because Canadian literature is an important subject Literary commentators like myself are middle men and should be prepared to admit the fact If this book succeeds in helping readers to appreciate the works of Canadian writers that I discuss and to derive increased pleasure and insight from them it will have served its purpose I can see no other justification for it or for any other work of criticism **The Secular Scripture and**

Other Writings on Critical Theory, 1976-1991 Northrop Frye, 2006-12-15 Northrop Frye's *The Secular Scripture* was first published in 1976 and was soon recognized as one of his most influential works reflecting an extensive development of Frye's thoughts about romance as a literary form. This new edition in the *Collected Works of Northrop Frye* series brings *The Secular Scripture* together with thirty shorter pieces pertaining to literary theory and criticism from the last fifteen years of Frye's life. Frye's study illuminates the enduring attraction and deep human significance of the romance genre in all its forms. He provides a unique perspective on popular fiction and culture and shows how romance forms have by their very structural and conventional features an ability to address both specific social concerns and deep and fundamental human concerns that span time and place. In distinguishing popular from elite culture, Frye insists that they are both ultimately two aspects of the same human compulsion to create in the face of chaos. The additional late writings reflect Frye's sense at the time that he was working toward some kind of final statement which eventually saw the light of day only months before his death as *Words with Power* 1990.

Critical Inquiry: Some Winds on Works [] [], 2009-03-01 Here is a collection of sixteen critical papers which inquire into literary problems found in works of eight British authors: Milton, Blake, Wordsworth, Coleridge, Shelley, Keats, Arnold, and Graham Greene, as well as four American authors: Emerson, Frost, O'Neill, and Hemingway. Each critical inquiry herein is imagined as a wind made up of the critic's breath while an author's work is imagined as an enduring rock on which the wind blows. Readers may get wind of the author or the critic and may know how the wind blows and where it lies, but they are expected not to expect any wind to change the rock noticeably. What we want is merely the reader's attention, and we hope their own winds will duly come to help keep the world in winds. [] [] *An Overview of Literature* [] [], 2009.

Of Courtiers and Kings Tawny L. Holm, 2013-11-14 Holm's book is an innovative approach to the biblical Book of Daniel. It places Daniel against the background of story collections, an ancient genre that began in Egypt in the mid-second millennium B.C.E. This work focuses on Daniel 6:4 and provides detailed comparisons with specific bodies of story collections and other related material from the Ancient Near East. In this regard, special attention is given to Egyptian court tales, a large corpus mostly neglected by previous biblical scholars. Thus, this book brings new evidence and fresh insights to the field of Daniel studies, which in recent years has generated constant interest, especially as it pertains to textual issues and literary matters. Setting Daniel against an explicit definition of the story collection genre redefines a vast array of questions concerning textual criticism, compositional history, and the overall nature of the book. For instance, the divergent texts of the narrative parts of Daniel, the Masoretic text and the Greek editions in Theodotion and the Septuagint, now need to be described in part as variant editions or tellings of a common core material rather than as translations of older written texts with clearly traceable genealogies. When Daniel is studied in the context of story collections and kindred compositions from the Ancient Near Eastern and neighboring literatures, new light is shed on the literary traditions and processes from which the Daniel stories arose. There are a greater number of court tales and cycles than previously recognized, as in the case

of Qumran but also the Egypt Demotic corpus The detailed discussion of all these materials allows us to appreciate the Book of Daniel in a much wider literary milieu and it furthers our understanding of the history of its composition and early transmission

Misfit Forms Lorri G. Nandrea, 2015-01-02 The complicated junctions negotiated by the novel during the eighteenth century reveal not only achievements but also exclusions Misfit Forms offers a speculative reconstruction of roads less traveled What if typographical emphasis and its associated transmission of sensuality and feeling had not lost out to transparent typography and its paradigms of sympathetic identification What was truncated when cumulative narrative structures were declared primitive in relation to the unified teleological plot What visions of the novel's value as an arena for experience were sidelined when novel reading was linked to epistemological gain Reading novels by Sterne Charlotte Bronte Defoe Gaskell Hardy and Woolf in tandem with less known works Nandrea illuminates the modes and techniques that did not become mainstream Following Deleuze Nandrea traces the dynamic repetitions of these junctures in the work of later writers Far from showing the eclipse of primitive modes such moments of convergence allow us to imagine other possibilities for the novel's trajectory

German Ecocriticism in the Anthropocene Caroline Schaumann, Heather I. Sullivan, 2017-04-18 This book offers essays on both canonical and non canonical German language texts and films advancing ecocritical models for German Studies and introducing environmental issues in German literature and film to a broader audience This volume contextualizes the broad ranging topics and authors in terms of the Anthropocene beginning with Goethe and the Romantics and extending into twenty first century literature and film Addressing the growing need for environmental awareness in an international humanities curriculum this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective opening the door to a transnational understanding of how the environment plays an integral role in cultural political and economic issues
