Fuertes-Olivera, 2010-03-26 The need for constructing a lexicographical theory with a particular focus on specialised dictionaries for learners is well documented in recent publications. This will imply paying attention to at least four basic lexicographic categories: learners, the learner's situation, the learner's needs, dictionary assistance. In one or other way these categories are analysed in this book whose eleven chapters are grouped into three parts. Part 1 reflects on some of the main ideas defended by the function theory of lexicography, perhaps the theoretical framework that has paid more attention to specialised lexicography. Part 2 presents some proposals that have already been explored in the field of general learner's dictionary and must be incorporated into specialised metalexicography: cultural aspects, figurative meaning, the inclusion of grammatical information, the use of corpora. Part 3 introduces the state of play regarding specialised dictionaries in China and offers some ideas for coping with the proliferation of terminological glossaries in Internet. The book also describes Enrique Alcaraz's academic achievements together with some personal anecdotes and a personal short tribute to his memory.      *Dictionnaire de la Vie Des Affaires* Anna Stevenson, 1999 Destin ceux et celles qui oeuvrent dans le monde des affaires ce dictionnaire fournit la traduction du sens commercial des termes et expressions assortie de nombreux exemples.
