Harrington The Commonwealth Of Oceana And A System Of Politics

James Harrington

Harrington The Commonwealth Of Oceana And A System Of Politics:

Harrington: 'The Commonwealth of Oceana' and 'A System of Politics' James Harrington, 1992-08-20 James Harrington's brief career as a political and historical theorist spans the last years of the Cromwellian Protectorate and the Restoration of 1660. This volume comprises the first and last of Harrington's writings. Harrington was the first theorist to interpret the English Civil Wars as a revolution, the result of a long-term process of social change which led to the decay of the old political order. *The Commonwealth of Oceana* 1656 is a fictionalised presentation of English history up to the victory of the New Model Army, explaining the fall of the monarchy and proposing a republic to replace it. *A System of Politics*, written after the Restoration, is a scheme of history and political philosophy erected on the foundations of his previous works. Professor Pocock's introduction emphasises Harrington's place as a pivotal figure in the history of English political thought. This edition also contains a chronology of events in Harrington's life and a guide to further reading.

The Commonwealth of Oceana ; And, A System of Politics James Harrington, 1992 James Harrington's brief career as a political and historical theorist spans the last years of the Cromwellian Protectorate and the Restoration of 1660. This 1992 volume comprises the first and last of Harrington's writings. Harrington was the first theorist to interpret the English Civil Wars as a revolution, the result of a long-term process of social change which led to the decay of the old political order. *The Commonwealth of Oceana* 1656 is a fictionalised presentation of English history up to the victory of the New Model Army, explaining the fall of the monarchy and proposing a republic to replace it. *A System of Politics*, written after the Restoration, is a scheme of history and political philosophy erected on the foundations of his previous works. Professor Pocock's introduction emphasises Harrington's place as a pivotal figure in the history of English political thought. The Commonwealth of Oceana* James Harrington! James Harrington, 1656

Machiavelli, Hobbes, and the Formation of a Liberal Republicanism in England Vickie B. Sullivan, 2006-12-14 Argues that some English writers of the seventeenth and early eighteenth centuries synthesized a liberal republicanism

The American Theory of Church and State Loren P. Beth, 2002 **The Politics of Virtue** John Milbank, Adrian Pabst, 2016-08-22 Contemporary politics is dominated by a liberal creed that champions negative liberty and individual happiness This creed undergirds positions on both the right and the left free market capitalism state bureaucracy and individualism in social life The triumph of liberalism has had the effect of subordinating human association and the common good to narrow self interest and short term utility By contrast post liberalism promotes individual fulfilment and mutual flourishing based on shared goals that have more substantive content than the formal abstractions of liberal law and contract and yet are also adaptable to different cultural and local traditions In this important book John Milbank and Adrian Pabst apply this analysis to the economy politics culture and international affairs In each case having diagnosed the crisis of liberalism they propose post liberal alternatives notably new concepts and fresh policy ideas They demonstrate that amid the current crisis post liberalism is a programme that could define a new politics of virtue and the common good **African, American and European Trajectories of Modernity** Peter Wagner, 2015-03-09 African American and European Trajectories of Modernity asks why from some moment onwards Europe and the rest of the world entered into a particular relationship one of domination conceived as a kind of superiority and as an advance OCLC **Jewish Representation in British Literature 1780-1840** M. Scrivener, 2011-09-26 Describing Jewish representation by Jews and Gentiles in the British Romantic era from the Old Bailey courtroom and popular songs to novels poetry and political pamphlets Scrivener integrates popular culture with belletristic writing to explore the wildly varying treatments of stereotypical Jewish figures

[The Experience of Revolution in Stuart Britain and Ireland](#) Michael J. Braddick, David L. Smith, 2011-06-09 This volume ranges widely across the social religious and political history of revolution in seventeenth century Britain and Ireland from contemporary responses to the outbreak of war to the critique of the post regicidal regimes from royalist counsels to Lilburne's politics and across the three Stuart kingdoms However all the essays engage with a central issue the ways in which individuals experienced the crises of mid seventeenth century Britain and Ireland and what that tells us about the nature of the Revolution as a whole Responding in particular to three influential lines of interpretation local religious and British the contributors all leading specialists in the field demonstrate that to comprehend the causes trajectory and consequences of the Revolution we must understand it as a human and dynamic experience as a process This volume reveals how an understanding of these personal experiences can provide the basis on which to build up larger frameworks of interpretation

The English Republican tradition and eighteenth-century France Rachel Hammersley, 2013-07-19 The English republican tradition and eighteenth century France offers the first full account of the role played by seventeenth and eighteenth century English republican ideas in eighteenth century France Challenging some of the dominant accounts of the republican tradition it revises conventional understandings of what republicanism meant in both Britain and France during the eighteenth century offering a distinctive trajectory as regards ancient and modern constructions and highlighting variety

rather than homogeneity within the tradition Hammersley thus offers a new and fascinating perspective on both the legacy of the English republican tradition and the origins and thought of the French Revolution The book focuses on a series of case studies featuring such colourful and influential characters as John Toland Viscount Bolingbroke John Wilkes and the Comte de Mirabeau This book will thus be of value to all those interested in the fields of intellectual history and the history of political thought seventeenth and eighteenth century British history eighteenth century French history and French Revolution studies British Identities before Nationalism Colin Kidd,1999-03-13 Inspired by debates among political scientists over the strength and depth of the pre modern roots of nationalism this study attempts to gauge the status of ethnic identities in an era whose dominant loyalties and modes of political argument were confessional institutional and juridical Colin Kidd's point of departure is the widely shared orthodox belief that the whole world had been peopled by the offspring of Noah In addition Kidd probes inconsistencies in national myths of origin and ancient constitutional claims and considers points of contact which existed in the early modern era between ethnic identities which are now viewed as antithetical including those of Celts and Saxons He also argues that Gothicism qualified the notorious Francophobia of eighteenth century Britons A wide ranging example of the new British history this study draws upon evidence from England Scotland Ireland and America while remaining alert to European comparisons and influences **Thomas Hobbes and Political Thought in Ireland, C.1660-c.1730** Matthew Ward,2024 Thomas Hobbes is now regarded as one of England's greatest political philosophers This book considers his reception in Ireland where it is suggested the Leviathan was released In doing so the book demonstrates the variety and sophistication of political thought in Ireland **Beyond the Republican Revival** Eric Ghosh,2020-10-29 This is the first book length treatment of both the non positive and the positive liberty strands of the republican revival in political and constitutional theory The republican revival pursued especially over the last few decades has presented republicanism as an exciting alternative to the dominant tradition of liberalism The book provides a sharply different interpretation of liberty from that found in the republican revival and it argues that this different interpretation is not only historically more faithful to some prominent writers identified with the republican tradition but is also normatively more attractive The normative advantages are revealed through discussion of some central concerns relating to democracy and constitutionalism including the justification for democracy and the interpretation of constitutional rights The book also looks beyond republican liberty by drawing on the republican device of sortition selection by lot It proposes the use of large juries to decide bill of rights matters This novel proposal indicates how democracy might be reconciled with constitutional review based on a bill of rights Republicanism is not pitted against liberalism the favoured values and institutions fit with liberal commitments The English Republican Exiles in Europe during the Restoration Gaby Mahlberg,2020-10 Offers a transnational perspective on 17th century English republicanism focusing on the lived experiences of English republican exiles *The Oxford Handbook of English Prose, 1640-1714* ,2024-10-23 The Oxford

Handbook of English Prose 1640 1714 is the most wide ranging overview available of prose writing in English during one of the most tumultuous periods in British and Irish history Stretching from the outbreak of the English Civil Wars to the death of Queen Anne the last Stuart monarch the volume is unprecedented in the breadth of its coverage of an age in which prose moved from the margins of cultural life in Britain to its centre The volume also breaks new ground in the diversity of the prose writing it covers its thirty six chapters by an array of established literary critics and historians capture the excitingly multiple forms that prose took in what was a golden age for non fictional writing but which also saw the emergence of modes of prose fiction that became part of the origin story of the eighteenth century novel This Handbook reflects that multiplicity and diversity in its structure Four longer introductory chapters map the changing contexts of the publication and reception of prose in the period as well as the influence of the classical heritage and the role of relations with continental Europe The subsequent thirty two chapters are organized by different categories of prose writing The contributors approach key authors and texts from various and often unconventional perspectives The volume offers coverage of well known writers and texts while also capturing the assortment of prose writing in a time of rapid political and social change there are chapters on for example Bites and Shams Circulation Narratives Keys Pornography Recipe Books True Accounts and even Handbooks

The Rule of Law History, Theory and Criticism Pietro Costa, Danilo Zolo, 2007-05-06 Authors Costa and Zolo share the conviction that a proper understanding of the rule of law today requires reference to a global problematic horizon This book offers some relevant guides for orienting the reader through a political and legal debate where the rule of law and the doctrine of human rights is a concept both controversial and significant at the national and international levels

Systemic Corruption Camila Vergara, 2022-06-07 A bold new approach to combatting the inherent corruption of representative democracy This provocative book reveals how the majority of modern liberal democracies have become increasingly oligarchic suffering from a form of structural political decay first conceptualized by ancient philosophers Systemic Corruption argues that the problem cannot be blamed on the actions of corrupt politicians but is built into the very fabric of our representative systems Camila Vergara provides a compelling and original genealogy of political corruption from ancient to modern thought and shows how representative democracy was designed to protect the interests of the already rich and powerful to the detriment of the majority Unable to contain the unrelenting force of oligarchy especially after experimenting with neoliberal policies most democracies have been corrupted into oligarchic democracies Vergara explains how to reverse this corrupting trajectory by establishing a new counterpower strong enough to control the ruling elites Building on the anti oligarchic institutional innovations proposed by plebeian philosophers she rethinks the republic as a mixed order in which popular power is institutionalized to check the power of oligarchy Vergara demonstrates how a plebeian republic would establish a network of local assemblies with the power to push for reform from the grassroots independent of political parties and representative government Drawing on neglected insights from Niccol Machiavelli Nicolas de Condorcet Rosa

Luxemburg and Hannah Arendt Systemic Corruption proposes to reverse the decay of democracy with the establishment of anti oligarchic institutions through which common people can collectively resist the domination of the few

Reason of State Thomas Poole, 2015-07-20 This historically embedded treatment of theoretical debates about prerogative and reason of state spans over four centuries of constitutional development Commencing with the English Civil War and the constitutional theories of Hobbes and the Republicans it moves through eighteenth century arguments over jealousy of trade and commercial reason of state to early imperial concerns and the nineteenth century debate on the legislative empire to martial law and twentieth century articulations of the state at the end of empire It concludes with reflections on the contemporary post imperial security state The book synthesises a wealth of theoretical and empirical literature that allows a link to be made between the development of constitutional ideas and global realpolitik It exposes the relationship between internal and external pressures and designs in the making of the modern constitutional polity and explores the relationship between law politics and economics in a way that remains rare in constitutional scholarship
