**Harry Bertoia, Printmaker** June Kompass Nelson, 2017-12-01 A representation of the principal styles and themes that emerges from Harry Bertoia's printmaking and sculpture work. The seventy-nine monotypes in this catalogue represent the principal styles and themes that emerged not only in Harry Bertoia's printmaking but in his sculpture as well. June Kompass Nelson, author of *Harry Bertoia Sculptor*, analyzes the graphic works and places them in the context of Bertoia's total oeuvre with particular regard to their relationship with his sculpture. A teacher of metalwork and printmaking at the Cranbrook Academy of Arts in Bloomfield Hills, Michigan, Bertoia began working in monotype in 1940, nearly a decade before his first attempts at sculpture, and continually returned to the medium until his death in 1978. Nelson's introduction, biographical material, and well-documented chronology contribute to the portrait of a Michigan artist of international repute who maintained his regionalist sensibility.

*Harry Bertoia, Printmaker* June K. Nelson, *HARRY BERTOIA, PRINTMAKER*, 1988 *Michigan History*, 1987 **Historic Avant-Garde Work on Paper** Sascha Bru, 2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth-century modernist or historic avant-garde: Expressionism, Cubism, Futurism, Dadaism, Surrealism, Constructivism, and many more. With its many collages and photomontages, the historic avant-garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy. Bringing together an international team of scholars, this book shows that the story of paper in the avant-garde has thereby hardly been told. The first section looks at a selection of canonized individual avant-gardists' work on paper to demonstrate that the material and formal analysis of paper in the avant-garde's artistic production still holds much in store. In the second section, chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant-gardists to better promote their work among patrons and to make their work available to a wider audience. Chapters in the third section lay bare how certain groups within the avant-garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts. In the last section of the book, chapters explore how the avant-garde's attentiveness to paper almost always also implied a

critique of the ways in which paper and all that it stood for was treated and labored in European culture and society more broadly The book will be of interest to scholars working in art history modernism and design **American Printmakers of the Twentieth Century** Donald E. Bertoia, 2003 Here is the fascinating story of Bertoia Studio where Sound Sculpture was invented and new ideas of what art is were developed This book documents all the types of original sculptures graphics and commissions made by Harry Bertoia and his son Val Bertoia from the 1950s to the present Harry Bertoia helped Charles Eames to develop a chair design and went on to create the famous Bertoia chairs for Knoll Over 500 photographs show the Bertoias' evolution of ideas that explore the relationships of space color and sound Art collectors have been passionate in their praise and enjoyment of Bertoia's work for over fifty years **SINGULAR IMPRESSIONS** MOSER JOANN, 1997-02-17 The first comprehensive survey of the monotype in America Singular Impressions discusses the work of more than one hundred artists who attracted by the medium's intimacy and freedom made prints ranging from the romantic pastoral landscapes of Bostonian Charles Alvah Walker to the Savarin can self portraits of Jasper Johns Whether created as a brief fling with the technique by John Singer Sargent or as a sustained exploration of its subtleties by Maurice Prendergast monotypes have attracted countless artists who usually work in other media Describing how artists invented new methods and variations on the basic process Joann Moser analyzes the role of the monotype in the Black and White exhibitions of New York's Salmagundi Club at the 1915 Panama Pacific Exposition in San Francisco and in 1920s artists' communities from Provincetown to Taos It was not until the 1970s that the monotype emerged as an alternative to the technical structured enterprise that printmaking had become Recognizing no rules or boundaries artists pushed the previous limits of the medium to create a richer more complex more versatile means of expression *Choice*, 1988 **American Printmakers, 1880-1945** Lynn Barstis Williams Katz, 1993 Provides a means of finding photographic reproductions and biographical critical information on 1429 printmakers and their work a useful one of a kind contribution to art reference literature WILSON LIBRARY BULLETIN A very useful work that will save research time *CHOICE* **The Michigan Historical Review**, 1988 *Bibliographic Index*, 1991 *Artbibliographies Modern*, 1989 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th
