Harrys Bee:

Gleanings in Bee Culture ,1898 *The Vinyl Revival, Gender, and Collecting Aesthetics* Veronica Skrimsjö,2025-09-08
The book explores record collecting and vinyl consumption in the 21st century within the context of the vinyl revival The book highlights gender and how gender disparity is expressed in vinyl communities Veronica Skrimsjö considers vinyl consumerism and collecting and how the collector identifies themselves within the socio political environment of the Global North with a particular focus on gender The book includes considerations of Record Store Day DIY and DI together cultures as well as the historic context needed to evaluate record collecting in the 21st century The work is aimed at both an academic and a general readership and as such strikes a more informal tone Personal experiences are emphasised throughout because vinyl consumers are not a homogenous group and it is only via personal experiences that we can understand the complexity of consumption The personal experience also helps make the content more relatable which is crucial as old stereotypes helped distance the collector from the everyday consumer Readers will benefit from a different perspective on record collecting and consumptions as the book highlights active creative consumption and provides an in depth innovative analysis of how gender inequality is constructed within this context **Yn Vible Casherick, etc** ,1819

Manuscripts in the National Library of Wales (Llyfrgell Genedlaethol Cymru), Aberystwyth National Library of Wales, C. William Marx, 1999 The National Library of Wales was founded to preserve the material of the literary culture and history of Wales hence the number of medieval English language manuscripts is relatively small and the manuscript context for some English texts is one in which Welsh is the main language The best known of the Middle English manuscripts in the NLW are Brogyntyn II 1 Porkington 10 and the Hengwrt manuscript for Chaucer's Canterbury Tales however the collection has been little explored for its Middle English holdings and of the manuscripts listed here fewer than half are included in the Index of Printed Middle English Prose They contain a wealth of materials most notably in historical writings scientific texts and prophecies among the texts not previously recorded are the Davies Chronicle and a version of the Elucidarius
