Hart Cranes Divided Vision An Analysis Of The Bridge:

Hart Crane's Divided Vision Helge Normann Nilsen,1980 *Hart Crane, a Re-introduction* Warner Berthoff,1989

Hart Crane was first published in 1989 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions More than half a century after his death the work of Hart Crane 1899 1932 remains central to our understanding of twentieth century American poetry During his short life Crane s contemporaries had difficulty seeing past the roaring boy who drank too much and hurled typewriters from windows in recent years he has come to be seen as a kind of last poet whose only theme is self destruction and who himself exemplifies the breakdown of poetry in the modern age Taking as a point of departure Robert Lowell s 1961 valuation of Crane and his power to speak from the center of things Warner Berthoff in this book reappraises the essential character and force of Crane s still problematic achievement Though he takes into account the substantial body of commentary on Crane s work his primary intent is to look afresh at the poems themselves and at the poet s clear eyed and brilliant letters This approach enables Berthoff first to track the emergence and development of Crane s lyric style an art that recreates in compact form the turbulence of the modern city He then explores the background and historical community that nourished Crane s creative imagination and he evaluates Crane s conception of the ideal modern poetic a poetry of ecstasy created with architectural craft His final chapter is devoted to *The Bridge* the ambitious lyric suite that proved to be the climax and terminus of Crane s work Berthoff s emphasis throughout is on the beauty and power of individual poems and on the sanity shrewdness and sense of purpose that informed Crane s working intelligence **Hart Crane** Harold Bloom,2009 Provides insight into five of Hart Crane s most influential works along with a short biography of the poet **Hart Crane** Warner Berthoff, **Hart Crane, a Reference Guide** Joseph Schwartz,1983 **Hart Crane and the Modernist Epic** D. Gabriel,2016-05-24 This study examines Hart Crane s canonical ambitions in *The Bridge* and argues for a new species of epic the modernist epic which also includes Pound s *The Cantos* Eliot s *The Waste Land* and Williams s *Paterson* It offers a close reading of *The Bridge* as a hybrid of lyric and epic modes Crane s sublime and history converge in a complex synthesis of form and ideas The study reconceives Crane s achievement by locating him in an intertextual system of production while also recognizing his poetic making of self Yet in this work Crane assumes a greater political presence than much commentary has entertained **Critical essays on the myth of the american Adam** María Eugenia & Díaz,2001-01-01 *Sixteen Modern American Authors* Jackson R. Bryer,1989 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains *American Studies* **Sixteen Modern American Authors** Jackson R. the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains American Studies *Recreating the World/Word* Lynda D. McNeil, 1992-07-01 This book combines interdisciplinary and comparatist approaches anthropology philosophy psychology and language in the investigation of the mythic mode of thought and language in the post Symbolist poets Arthur Rimbaud Georg Trakl Hart Crane and Charles Olson Part One covers the philosophical tradition from Gottfried Herder to Ernst Cassirer Part Two includes close analytical readings of individual poems by these authors as they enact the mythic mode The conclusion relates the mythic mode to feminist studies of thought and language ***Encyclopedia of American Literature*** Manly, Inc., 2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Brucoli George Parker Anderson Judith S ***Whitman's Queer Children*** Catherine A. Davies, 2012-04-19 The first full length study to explore the idea of a gay epic in American poetry ***Poems Containing History*** Gary Grieve-Carlson, 2013-11-08 Ezra Pound's definition of an epic as a poem containing history raises questions how can a poem contain history And if it can does it help us to think about history in ways that conventional historiography cannot *Poems Containing History Twentieth Century American Poetry's Engagement with the Past* by Gary Grieve Carlson argues that twentieth century American poetry has contained and helped its readers to think about history in a variety of provocative and powerful ways Tracing the discussion of the relationship between poetry and history from Aristotle's *Poetics* to Norman Mailer's *The Armies of the Night* and Hayden White's *Metahistory* the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects twentieth century American poets continue to take history as the subject of their major poems Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in *John Brown's Body* but more often they challenge them as do Robert Penn Warren in *Brother to Dragons* Ezra Pound in *The Cantos* or Charles Olson in *The Maximus Poems* In *Conquistador* Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does while in Paterson William Carlos Williams develops a Nietzschean suspicion of history's value Three major American poets T S Eliot in *Four Quartets* Hart Crane in *The Bridge* and Carolyn Forché in *The Angel of History* present different challenges to professional historiography's assumption that the past is best understood in strictly material terms *Poems Containing History* devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements
