 Through an empirical multi archival study of a transnational foundation the Harvard Yenching Institute HYI from the 1920s  
 to the early 1950s this book presents the story of transplanting Western American humanities scholarship into Asia China  
 and addresses central questions in U S China relations This book focuses on the HYI s programs in teaching research and  
 publication of Chinese humanities within China to the early 1950s and to a lesser extent its activities at Harvard that had  
 close ties with its China side Through the HYI story the author examines in depth the cooperation tensions adaptation and

integration in the operation management and governance of the HYI's programs on both sides of the Pacific and the complex multi-layered interactions between American educators and their Chinese partners treating each side sympathetically but without losing sight of the big picture. As the first comprehensive study on the subject, the book adopts a concept of cultural engineering which is defined as a conscious design to use cultural heritage to recreate culture in order to promote a society's development to look at key issues in a way which accounts for interactions and initiatives on both sides and shows the difficult path toward developing common interests without neglecting tensions and conflicts thus going beyond the various one-sided historiographies which pit Chinese against Americans or nativist rejection of modernity against cultural imperialism. The HYI experience in China from the 1920s to the early 1950s resonates down to the present day in American relations with the world. The United States faces many similar challenges in the Middle East, Asia, Africa, and Latin America today as in revolutionary China of the 1920s to 1950s. Therefore, this study offers a window onto many issues relating to cross-cultural interactions today, especially between the United States and non-Western nations.

**The Game**  
George Howe Colt, 2019-10-08 A New York Times Notable Book, A Kirkus Reviews Best Book of the Year. From the bestselling National Book Award finalist and author of *The Big House* comes a well-blended narrative packed with top-notch reporting and relevance for our own time. *The Boston Globe* about the young athletes who battled in the legendary Harvard-Yale football game of 1968 amidst the sweeping currents of one of the most transformative years in American history. On November 23, 1968, there was a turbulent and memorable football game, the season-ending clash between Harvard and Yale. The final score was 29-29. To some of the players, it was a triumph; to others, a tragedy. And to many, the reasons had as much to do with one side's miraculous comeback in the game's final forty-two seconds as it did with the months that preceded it: months that witnessed the assassinations of Martin Luther King and Robert F. Kennedy, police brutality at the Democratic National Convention, inner-city riots, campus takeovers, and looming over everything, the war in Vietnam. George Howe Colt's *The Game* is the story of that iconic American year as seen through the young men who lived it and were changed by it. One player had recently returned from Vietnam. Two were members of the radical antiwar group SDS. There was one NFL prospect who quit to devote his time to black altruism; another who went on to be Pro Bowler Calvin Hill. There was a guard named Tommy Lee Jones and a fullback who dated a young Meryl Streep. They played side-by-side and together forged a moment of startling grace in the midst of the storm. Vibrant, energetic, and beautifully structured, NPR's this magnificent and intimate work of history is the story of ordinary people in an extraordinary time and of a country facing issues that we continue to wrestle with to this day. *The Game* is the rare sports book that lives up to the claim of so many entrants in this genre. It is the portrait of an era. *The Wall Street Journal*

*In Gatsby's Shadow* Larry Haeg, 2004-10-01 In the closing decades of the nineteenth century Minnesota produced three young men of great talent who each went east to become writers Two of them became famous F Scott Fitzgerald and Sinclair Lewis This is the story of the third man Charles Macomb Flandrau Flandrau a model of style and worldly sophistication and destined almost everyone agreed for greatness was among the most talented young writers of his generation His short stories about Harvard in the 1890s were called the first realistic description of undergraduate life in American colleges and sold out of the first printing in a few weeks From 1899 to 1902 Flandrau was among the most popular contributors to the Saturday Evening Post Alexander Woollcott rated him the best essayist in America And Viva Mexico Flandrau s account of life on a Mexican coffee plantation is a classic perhaps the best travel book ever written by an American Yet Flandrau turned his back on it all Financially independent he chose a solitary epicurean life in St Paul Mexico Majorca Paris and Normandy In later years he confined his writing to local newspaper pieces and letters to his small circle of family and friends Using excerpts from these newspaper columns and unpublished letters Larry Haeg has painstakingly recreated the story of this urbane talented witty lazy enigmatic supremely private man who never reached the peak of literary success to which his talent might have taken him This very readable biography provides a detailed and honest portrayal of Flandrau and his times It will fascinate readers interested in writers life stories and scholars of American literature as well as general readers interested in midwestern literary history      **Arms and the University** Donald
