happiness vigor and sexuality Cover *Farm Sanctuary* Gene Baur, 2008-03-04 Leading animal rights activist Gene Baur examines the real cost of the meat on our plates for both humans and animals alike in this provocative and thorough examination of the modern farm industry Many people picture cows sheep pigs and chickens as friendly creatures who live happily within the confines of a peaceful family farm arriving as food for humans only at the end of their sun drenched lives That's what Gene Baur had been told but when he first visited a stockyard he realized that this rosy depiction couldn't be more inaccurate Amid the stench noise and filth his attention was drawn in particular to one sheep who had been cast aside for dead But as Baur walked by the sheep raised her head and looked right at him She was still alive and the one thing Baur knew for sure that day was that he had to get her to safety Hilda as she was later named was nursed back to health and soon became the first resident of Farm Sanctuary an organization dedicated to the rescue care and protection of farm animals The truth is that farm production does not depend on the family farmer with a small herd of animals but instead resembles a large assembly line factory Animals raised for human consumption are confined for the entirety of their lives and often live without companionship fresh air or even adequate food and water Viewed as production units rather than living beings with feelings ten billion farm animals are exploited specifically for food in the United States every year In Farm Sanctuary Baur provides a thought-provoking investigation of the ethical questions involved in the production of beef poultry pork milk and eggs and what each of us can do to stop the mistreatment of farm animals and promote compassion He details the triumphs and the disappointments of more than twenty years on the front lines of the animal protection movement And he introduces

The Emotional Lives of Animals & Children William Crain, 2014-10-17 In 2008 Bill Crain a professor of psychology at The City College of New York and his wife Ellen a pediatrician opened Safe Haven Farm Sanctuary in Poughquag New York The sanctuary provides a permanent home to over 70 animals rescued from slaughter and abusive situations including goats sheep chickens turkeys ducks partridges and a mini horse It also has afforded Bill a tremendous opportunity to observe animals in all manner of emotional states and how their behavior casts light on the emotions of human children In *The Emotional Lives of Animals and Children* Crain honors the work of John Bowlby a psychoanalyst who began his major writings in the 1950s Bowlby drew on biologists observations of animals to provide a compelling account of children s attachment to their caretakers Today the study of attachment is extremely popular Crain writes but one would hardly know that the initial inspiration came from observations of non human animals Moreover there has been little effort to extend Bowlby s work to see how the study of animals illuminates other aspects of child development Crain suggests that the reluctance to follow Bowlby s lead reflects the Western worldview that considers humans as different from and superior to other species To think about children in the same category as animals seems to demean children But Crain discovered that the farm animals emotional behaviors can help us understand those of human children *The Emotional Lives of Animals and Children* is divided into two parts Part one discusses six emotional behaviors that are shared by animals and children fear play freedom care spirituality and resilience Part two addresses the broader social theme of our Western culture s disparagement of animals Initially children do not set themselves apart from nature but experience it with an instinctive empathy However they are eventually taught by our society to detach themselves and to devalue animals Crain writes As people attempt to move beyond society s dominant views of animals they can also draw on a neglected idea that goes back to ancient times This is the view that there is a special wisdom in the child s ways of knowing This view is found in the ancient Chinese Taoist statement wise souls are children About Safe Haven Farm Sanctuary Safe Haven Farm Sanctuary is located in Poughquag New York about an hour and a half outside of New York City Its focus is on the rescue of abused and neglected farm animals In doing so it hopes to raise awareness of the plight of animals raised for food and the benefits of a vegan diet for animals human health and the environment Wherever possible the sanctuary tries to implement environmentally sound practices such as solar heating and the use of reclaimed wood
