Harvest Time A Diary Of A Slave Family:

Harvest Time Taylor Worthy, 2000-09 This is a saga of one family's life on a plantation and is based on a true story. Slavery is part of American history. It is recorded in the history books. This story then is about the way slavery affected the author's family. From the beginning in Virginia to its conclusion in Madison County, Mississippi, it tells vividly of the trials and tribulations of life as slaves for this family. There were good times, hard times, joys and sorrows much like life today. The 1872 Diary of the Mooresville Macy Farmstead Joyce A. Robinson, Donovan L., 2010-02-22 A Farmstead in Morgan County, IN has stood as a sentinel on the South West corner of Mooresville since 1859 when William Monroe Macy WMM 1820-1911 built the home. It stands in 2010 as the residence of Donovan and Joyce Robinson. WMM was prosperous by local community standards of the period, however, that did not afford him much leisure. He managed many diverse businesses which kept him and his entire family hard at work every season of the year. This book focuses primarily on the personal journal Alva Perry Macy wrote during 1872 while living on this Farmstead. The activities he records are through the eyes of a 14-year-old who seems fascinated with the industry around him. The farm life of the 1870s would not be considered the good old days by most young adults of today. His focus on local people and their names will hopefully provide today's history buffs a chance to put a bit of life on the stark printed pages of genealogy records. To put the journal in perspective, the family history has been explored to properly position the Mooresville Macys of 1872. The Robinsons gathered many facts about the Macys in libraries and from surviving descendants. Many stories have been told numerous times by other authors. The Robinsons have compiled what they believe to be an accurate account of the Macy Farmstead and offer it to the interest of others. Alva is a ninth-generation derivative of Mayflower passengers John Howland and Elizabeth Tilley of 1620. His ancestors also include the early Nantucket settlers Thomas Macy who challenged the raw wilderness of the 1600s. The Macys were somehow driven for 300 years to continue in that vein as they moved inland and westward from the Atlantic to the Pacific. **Bowker's Guide to Characters in Fiction** 2007, 2008-02 **Sugar and Slavery, Family and Race** Pierre Dessalles, 1996-04-24 Diaries of nineteenth-century plantation managers are rare; diaries of French sugar planters are rarer still. Although such works as the diaries of Ella Gertrude Thomas and James Henry Hammond provide insight into the plantation societies of the antebellum South, virtually no contemporary source treats planter-slave relations as extensively or presents a white planter's views on slave society in as much detail as do the letters and diary of Pierre Dessalles. Now Elborg Forster and Robert Forster have translated and edited the most historically and socially significant portions of this unusual work. Previously available only in a four-volume French edition, these materials treat a wide range of topics including the slave economy, management and socialization of the labor force, the role of free blacks in society, the lives led by the plantation owners, and significantly, black-white relations before, during, and after emancipation. **The Black Family in Slavery and Freedom, 1750-1925** Herbert G. Boles, 2021-03-17 Much that is commonly accepted about slavery and religion in the Old South is challenged in this significant book The eight essays included here show that throughout the antebellum period southern whites and blacks worshipped together heard the same sermons took communion and were baptized together were subject to the same church discipline and were buried in the same cemeteries What was the black perception of white controlled religious ceremonies How did whites reconcile their faith with their racism Why did freedmen as soon as possible after the Civil War withdraw from the biracial churches and establish black denominations This book is essential reading for historians of religion the South and the Afro American experience **The British Gentry, the Southern Planter, and the Northern Family Farmer** James L. Huston, 2015-05-04 JAMES L HUSTON is professor of history at Oklahoma State University and the author of *The Panic of 1857 and the Coming of the Civil War* *Securing the Fruits of Labor The American Concept of Wealth Distribution 1765 1900* *Calculating the Value of the Union* *Slavery Property Rights and the Economic Origins of the Civil War* and *Stephen A Douglas and the Dilemmas of Democratic Equality* **Blood and War at my Doorstep** Brenda Chambers McKean, 2011-07-08 Continuing from Volume I Volume II intersperses numerous soldiers letters with those from home The issue of slavery from both the owners and individuals is brought forth Did colored men really serve as Confederate soldiers Did free black men Union soldiers described southern women as defiant beautiful crude and pitiful Read of women aboard blockade runners the fall of Wilmington Sherman s march Stoneman s western raiders and the end of the war Did any civilians die due to these raids Did they idly sit by as their lives and homes were destroyed The war did come to their doorstep during the second half of the conflict Both Volume I and II tell something from each of the state s 87 counties Perhaps you may find information about your ancestor among these pages Information from period newspapers as well as mostly unpublished letters tell their stories **Some Field Family Journeys** Warren James Field, 2011-06-14 There is no available information at this time **Slavery and Forced Migration in the Antebellum South** Damian Alan Pargas, 2015 This book sheds new light on domestic forced migration by examining the experiences of American born slave migrants from a comparative perspective It analyzes how different migrant groups anticipated reacted to and experienced forced removal as well as how they adapted to their new homes **Reconstruction in the Cane Fields** John C. Rodrigue, 2001-05 In *Reconstruction in the Cane Fields* John C Rodrigue examines emancipation and the difficult transition from slavery to free labor in one enclave of the South the cane sugar region of southern Louisiana In contrast to the various forms of sharecropping and tenancy that replaced slavery in the cotton South wage labor dominated the sugar industry Rodrigue demonstrates that the special geographical and environmental requirements of sugar production in Louisiana shaped the new labor arrangements Ultimately he argues the particular demands of Louisiana sugar production accorded freedmen formidable bargaining power in the contest with planters over free labor Rodrigue addresses many issues pivotal to all post emancipation societies How would labor be

reorganized following slavery's demise. Who would wield decision-making power on the plantation? How were former slaves to secure the fruits of their own labor? He finds that while freedmen's working and living conditions in the postbellum sugar industry resembled the prewar status quo, they did not reflect a continuation of the powerlessness of slavery. Instead, freedmen converted their skills and knowledge of sugar production, their awareness of how easily they could disrupt the sugar plantation routine, and their political empowerment during Radical Reconstruction into leverage that they used in disputes with planters over wages, hours, and labor conditions. Thus, sugar planters far from being omnipotent overlords who dictated terms to workers were forced to adjust to an emerging labor market as well as to black political power. The labor arrangements particular to postbellum sugar plantations not only propelled the freedmen's political mobilization during Radical Reconstruction, Rodrigue shows, but also helped to sustain black political power at least for a few years beyond Reconstruction's demise in 1877. By showing that freedmen under the proper circumstances were willing to consent to wage labor and to work routines that strongly resembled those of slavery, *Reconstruction in the Cane Fields* offers a profound interpretation of how former slaves defined freedom in slavery's immediate aftermath. It will prove essential reading for all students of southern African American agricultural and labor history. [Gazette of the Union, Golden Rule and Odd-fellows' Family Companion](#), 1849

Stolen Childhood Wilma King, 2020-03-04 An updated edition of the classic study that took an enormous step toward filling some of the voids in the literature of slavery. The Washington Post Book World: One of the most important books published on slave society. *Stolen Childhood* focuses on the millions of children and youth enslaved in 19th-century America. This enlarged and revised edition reflects the abundance of new scholarship on slavery that has emerged. Wilma King has expanded its scope to include the international dimension with a new chapter on the transatlantic trade in African children, and the book's geographic boundaries now embrace slave-born children in the North. She includes data about children owned by Native Americans and African Americans and presents new information about children's knowledge of and participation in the abolitionist movement and the interactions between enslaved and free children. A jarring snapshot of children living in bondage. This compellingly written work is a testament to the strength and resilience of the children and their parents. Booklist on the first edition

Slavery and Freedom Willie Lee Rose, 1982 Unknown function Edited by William H. Freehling [Tennessee Delta Quiltmaking](#) Teri Klassen, 2024-01-12 *Tennessee Delta Quiltmaking* is an excellent study of quilting in rural West Tennessee. Both black and white quilters inhabit the small farm region, and their quilting traditions are largely shared across racial lines. A study that highlights shared culture rather than seeking to distinguish racial or ethnic contributions is a welcome direction in cultural research. Alan Jabbour, former director of the American Folklore Society Library of Congress. Prior to the 1960s, quiltmaking thrived in the Tennessee Delta as a crucial source of warm bedcovers among cash-poor yet self-sufficient farm households. As agriculture mechanized, rural workers switched to factory jobs and could afford nicer houses and blankets. Quiltmaking survived because women, both black and white,

reinvented it as a hobby that met personal and social needs Though scholars have studied quilt styles with rural southern roots few have considered black and white quiltmakers together or as part of a shared regional culture In Tennessee Delta Quiltmaking Teri Klassen traces how mid twentieth century common quilts developed from nineteenth century styles Through interviews with people from rural households Klassen uncovers the ways in which designs and labor were shared and the ways in which quiltmaking was part of the small farm culture that was common to blacks and whites While quiltmaking was a creative form passed down in families limited means and accessible materials made it both a necessity and a highly evolved custom in southwestern Tennessee s upper Delta region For families in this region the quilt symbolized homemaker competence and self reliance a trait especially valued by sharecroppers and tenant farmers who owned no land The culture of quiltmaking reflected living conditions and values of these folk and Klassen details numerous changes in this culture from how it contributed to small farm stability to how industrialization affected the practice By considering quiltmaking s practical aesthetic and social aspects in a historical mixed race context Tennessee Delta Quiltmaking makes a unique contribution to the study of the Tennessee Delta and the understanding of common quilt design TERI KLASSEN is a postdoctoral research associate at the Mathers Museum of World Cultures at Indiana University Her articles have appeared in Journal of American Folklore Midwestern Folklore and Journalism Quarterly

The Minds of the West Jon Gjerde, 2000-11-09 In the century preceding World War I the American Middle West drew thousands of migrants both from Europe and from the northeastern United States In the American mind the region represented a place where social differences could be muted and a distinctly American culture created Many of the European groups however viewed the Midwest as an area of opportunity because it allowed them to retain cultural and religious traditions from their homelands Jon Gjerde examines the cultural patterns or minds that those settling the Middle West carried with them He argues that such cultural transplantation could occur because patterns of migration tended to reunite people of similar pasts and because the rural Midwest was a vast region where cultural groups could sequester themselves in tight knit settlements built around familial and community institutions Gjerde compares patterns of development and acculturation across immigrant groups exploring the frictions and fissures experienced within and between communities Finally he examines the means by which individual ethnic groups built themselves a representative voice joining the political and social debate on both a regional and national level
