Law in the Roman Provinces Kimberley Czajkowski, Benedikt Eckhardt, Meret Strothmann, 2020-06-11 The study of the Roman Empire has changed dramatically in the last century with significant emphasis now placed on understanding the experiences of subject populations rather than a sole focus on the Roman imperial elites Local experiences and interactions between periphery and centre are an intrinsic component in our understanding of the empire's function over and against the earlier top down model But where does law fit into this new decentralized picture of empire This volume brings together internationally renowned scholars from both legal and historical backgrounds to study the operation of law in each region of the Roman Empire from Britain to Egypt from the first century BCE to the end of the third century CE Regional specificities are explored in detail alongside the emergence of common themes and activities in a series of case studies that together reveal a new and wide ranging picture of law in the Roman Empire balancing the practicalities of regional variation with the ideological constructs of law and empire

Capital, Investment, and Innovation in the Roman World Paul Erdkamp, Koenraad Verboven, Arjan Zuiderhoek, 2020-02-18 Investment in capital, both physical and financial, and innovation in its uses are often considered the linchpin of modern economic growth, while credit and credit markets now seem to determine the wealth as well as the fate of nations. Yet was it always thus? The Roman economy was large, complex, and sophisticated, but in terms of its structural properties, did it look anything like the economies we know and are familiar with today? Through consideration of the allocation and uses of capital and credit and the role of innovation in the Roman world, the individual essays comprising this volume go straight to the heart of the matter, exploring such questions as how capital in its various forms was generated, allocated, and employed in the Roman economy, whether the Romans had markets for capital goods and credit, and whether investment in capital led to innovation and productivity growth. Their authors consider multiple aspects of capital use in
