Women and British

Party Politics Sarah Childs, 2008-04-08 *Women and British Party Politics* examines the characteristics of women's participation at the mass and elite level in contemporary British politics as voters, party members and elected representatives respectively. It explores what this means for ideas about and the practice of descriptive substantive and symbolic representation. The main focus is on the feminization of British party politics, the integration of women into formal political institutions and the integration of women's concerns and perspectives into political debate and policy in the post 1997 period. Not only specifically designed to bring together cutting edge conceptual developments in the sub discipline of gender and politics with robust British empirical research, this book also presents reflections on how best to study gender and politics. The empirical findings which are presented through the extensive use of case studies derive from a range of research projects which were undertaken over a period of ten years and which make use of a variety of research methods and techniques. This book will appeal to all those with an interest in British Politics, Feminism and European Studies and will provide the reader with an overview of the complex relationship between sex, gender and politics in a conceptually sophisticated fashion.

Women, Quotas and Politics Drude Dahlerup, 2013-05-13 This is the first world wide comparative study of the controversial new trends of gender quotas now emerging in global politics, presenting a comprehensive overview of changes in women's parliamentary representation across the world. This is important reading for all those working to increase women's influence in politics because it scrutinizes under what circumstances gender quotas do increase women's representation and why they sometimes fail. These distinguished international scholars also show how gender balance in politics has become important to a nation's international image and why quotas are being introduced in many post conflict countries. They present key case studies of Afghanistan, Iraq, Argentina, Sweden, South Africa, Belgium, covering almost all major regions of the world: Latin America, Africa, the Arab world, South Asia, the Balkans, The Nordic countries and Europe, New Zealand, Australia and the USA and Rwanda which in 2003 unexpectedly surpassed Sweden as the number one country in the world in terms of women's parliamentary representation. Using a comparative perspective, this book contains analyses of the discursive controversies around quotas; it gives an overview over various types of quotas in use from candidate quotas to reserved seat systems and it throws light over the troublesome implementation process. When do gender quotas lead to actual increase in the number of women in parliament? When are quotas merely a symbolic gesture? What does it imply to be elected as a quota woman? Tackling these and many more key questions, this is a major new contribution to the field. Making an important contribution to our knowledge of gender politics worldwide, this book will be of interest to NGOs, students and scholars of democracy, policy making, comparative politics and gender studies.

Representing Women? Mercedes Mateo Diaz,2024-10-31 This work discusses questions on political participation representation and legitimacy in the European Union national parliaments Three major empirical questions structure the book What affects women s presence in parliaments Does the number of women in parliament have an effect And are women in parliament representing women Empirical evidences show that institutional reforms need a minimal environment in terms of socio economic development so as to prove effective As opposed to the critical mass theory claiming that a few representatives cannot have an impact on the political outcomes here the empirical evidences suggest that smaller groups can also influence the different components of the legislative process The last part turns to the fundamental question of whether a parliament that is descriptively representative i e in which the parliamentarians share certain characteristics with the voters also is a substantively descriptive parliament i e in which the parliamentarians mirror the voters opinions Evidence suggests that the electoral system s level of proportionality influences the extent to which assemblies socially and ideologically mirror their population The book ends by advancing new hypotheses and setting up guidelines for future research

Party Politics, Religion, and Women's Leadership Fatima Sbaity Kassem,2013-12-05 Exploring the interlinkages of political parties religiosity and women s leadership and nominations to public office this book argues that as party religiosity increases women s chances of assuming leadership positions fall Combining qualitative and quantitative methods it advances a new theory of party variation in religiosity

Gender Quotas, Parity Reform, and Political Parties in France Katherine A. R. Opello,2006-01-01 France is notorious for the underrepresentation of women in its halls of politics Having been unsuccessful at implementing quotas for female candidates unlike several of their European neighbors France passed a gender parity law in 2000 that required all political parties to field an equal number of male and female candidates Yet in the 2002 elections the main political parties fell well short of nominating equal numbers of male and female candidates How did parity replace gender quotas as the preferred way to achieve greater representation for women in elected office Why have these gender based measures been embraced by some parties and not others And why do parties sometimes fail to implement quotas and parity Gender Quotas Parity Reform and

Political Parties in France considers this transition from quotas to parity providing a history of French women's rights and the French electoral process as well as an examination of the roles of the Socialist and Gaullist political parties. Compelling and clearly written, Opello has created a work that bridges an existing gap in literature about contemporary France and will appeal to scholars of gender politics and France.

Volume 10:1 Bernstein, Colleen Kattau, Katherine Ndinda, Lisa Bernstein, 2009-07-17 Women's Activism for Gender Equality in Africa. This volume on Women's Activism for Gender Equality in Africa is a special collaboration between the Journal of International Women's Studies (JIWS) and Wagadu, two open access journals that address gender issues within a transnational and cross-cultural context. Using interdisciplinary feminist and activist approaches, these essays explore individual and collective actions undertaken by African women in cultural, social, economic, historical, and political contexts. In revealing the diversity of African women's activism, the underlying issues around which women's social change work develops, and the impact that work has on individuals and communities, this volume has significance for women and men throughout the world.

Women as Foreign Policy Leaders Sylvia Bashevkin, 2018-08-02. What difference does gender make to foreign diplomacy? What do we know about women's participation as decision makers in international affairs? *Women as Foreign Policy Leaders*, among the first systematic studies in the field, demonstrates how four high-profile appointees in the United States staked out their presence on the global scene and provided a crucial antidote to the silencing of women's voices in global politics.

Where Women Run Kira Sanbonmatsu, 2010-02-09. Why don't more women run for office? Why are certain states more likely to have female candidates and representatives? Would strengthening political parties narrow the national gender gap? *Where Women Run* addresses these important questions through a rare and incisive look at how candidates are recruited. Drawing on surveys and case studies of party leaders and legislators in six states, political scientist Kira Sanbonmatsu analyzes the links between parties and representation, exposing the mechanism by which parties' informal recruitment practices shape who runs or doesn't run for political office in America. Kira Sanbonmatsu has done a masterful job of linking the representation of women in elective office to the activities of party organizations in the states. She combines qualitative and quantitative data to show how women are navigating the campaign process to become elected leaders and the changing role of party organizations in their recruitment and election. It is a significant contribution to the study of representative democracy.

Barbara Burrell, Northern Illinois University: Sanbonmatsu has produced an excellent study that will invigorate research on the role of political parties and the recruitment of women candidates. Using a variety of methods and data sources, she has crafted a tightly constructed, clearly argued, and exceedingly well-written study. A commendable and convincing job.

Gary Moncrief, Boise State University: Sanbonmatsu offers important insights in two neglected areas of American politics: the role of political parties in recruiting candidates and the continued underrepresentation of women in elected office. Connecting the two subjects through careful qualitative and statistical methods, insightful interpretation of the

literature and interesting findings the book is a significant new addition to scholarship on parties gender and political recruitment Linda Fowler Dartmouth College Kira Sanbonmatsu is Associate Professor of Political Science at Rutgers University and Senior Scholar at the Eagleton Institute of Politics Center for American Women and Politics CAWP She was previously associate professor at Ohio State University She is the author of Democrats Republicans and the Politics of Women's Place

Affirmative Action Policies and Judicial Review Worldwide George Gerapetritis, 2015-08-03 This book discusses affirmative action or positive discrimination defined as measures awarding privileges to certain groups that have historically suffered discrimination or have been underrepresented in specific social sectors The book's underlying rationale is that one cannot place at the same starting point people who have been treated differently in the past because in this way one merely perpetuates a state of difference and in turn social gaps are exaggerated and social cohesion is endangered Starting out with an introduction on the meaning and typology of affirmative action policies the book goes on to emphasise the interaction of affirmative action with traditional values of liberal state such as equality meritocracy democracy justice liberalism and socialism It reveals the affirmative action goals from a legal and sociological point of view examining the remedial cultural societal pedagogical and economy purposes of such action After applying an institutional narrative of the

implementation of affirmative action worldwide the book explains the jurisprudence on the issue through syntheses and antitheses of structural and material variables such as the institutional recognition of the policies the domains of their implementation and their beneficiaries The book eventually makes an analytical impact assessment following the implementation of affirmative action plans and the judicial response especially in relation to the conventional human rights doctrine by establishing a liaison between affirmative action and social and group rights The book applies a multi disciplinary and comparative methodology in order to assess the ethical standing of affirmative action policies the public interests involved and their effectiveness towards actual equality In the light of the above analysis the monograph explains the arguments considering affirmative action as a theology for substantive equality and the arguments treating this policy as anathema for liberalism A universal discussion currently at its peak **Women's Political Discourse** Molly A.

Mayhead, Brenda DeVore Marshall, 2005-09-21 Following an overview of women s political discourse from the early twentieth century this book features selected women governors representatives and senators of the past several decades from Jeannette Rank in the first woman elected to the US House of Representatives to Hillary Rodham Clinton
