Has Winter Come:

A Brief History of Imbecility Takamura Kotaro, 1992-07-01 Takamura Kotaro 1883 1956 drew on his studies in New York London and Paris to lay the foundations in Japan for Western style Japanese sculpture through his intricate wood carvings and powerful bronzes But Takamura also composed poems infused with startling energy directness and narrative clarity Among the first to use the vernacular masterfully in verse he has long been recognized as one of Japan's premier modern poets Takamura thus stood in the confluence of two artistic currents both shaping and being shaped by them His personal experiences from exultation to tragedy found expression through this dynamic Hiroaki Sato now captures a lucid picture of Takamura's eloquent struggle with art and with life Originally published in 1980 as *Chieko and Other Poems* this expanded volume includes a new introduction and a new selection of Takamura's essays on art and other subjects The poetry included here is divided into three parts The Journey represents a chronology of the poet's life Chieko is a selection of poems about Takamura's wife which describes his devotion to her for more than thirty years through courtship and marriage during her illness and insanity and continuing after her death and A Brief History of Imbecility is a sequence of twenty autobiographical poems composed in 1947 The essays appearing in English for the first time offer a more complete understanding of Takamura's relationship to art his complex experience of Paris and his views on beauty and creativity Included here are The Latter Half of Chieko's Life a moving prose complement to the Chieko poems and A Last Glance at the Third Ministry of Education Art Exhibition a scathing review of the modern art world the first of its kind in Japan T. A. Prickett, 2011-06 The Story of Preaching is a fresh look at the preacher and preaching from the early days of the Church until today It is not a history of preaching because there are some obvious gaps in the time line What I have attempted to do is to describe the preacher and the characteristics of the period in which he or she lived One of the things which I have tried to do is to show how the preachers handled the issues of their day One of my objectives in doing this is to help the preachers of my day to address the issues of this era as the preachers of old addressed the issues in their time The book will show that some who dared to challenge the attitudes of their day faced many challenges and some even faced death because of their commitment to apply the principles of the gospel to the status quo of their day However the book will show that there were those who challenged the mode of their time without facing death or threats of death They found a way to present their concerns to their constituents in a way that led to success *Come with Me from Lebanon* Arnold H. Sturtevant, 2011-08-19 Come With Me From Lebanon sheds exciting new light on the Song of Solomon What has until now been considered but a beautiful portrayal of God's Love may also prove to be a sleeping giant of end time prophecy This book is certain to stimulate a reappraisal of the Song Harold Duff Bible Teacher Christian Education Conference Speaker President Christian Ministries Inc Sturtevant's allegorical representation may well be right I remember in seminary hearing this general point of view but not with the precision and carefulness of the author's manuscript Kenneth N Taylor Author The

Pluviculture and Meteorological Mumpsimus Arthur Sharp,2019-10-03 This unique book traces the history of climate change through published accounts dating back hundreds of years It s like readers have subscriptions to old newspapers and are reading their predecessors concerns firsthand The author traces the thoughts and actions of climate changers from the Roman and Greek eras and presents eleven inane outrageously costly schemes that they have proposed over the years e g placing an umbrella over the Sphinx diverting the Gulf Stream to warm the climate of Eastern Canada or heating Chicago with underground pipes He warns that taxpayers can expect more of the same types of costly and unnecessary schemes from contemporary climate changers in the near future Ultimately readers are left to decide for themselves if climate change is the most serious challenge of our generation that politicians and scientists claim it is Spoiler alert it isn t Simply put history trumps science in the climate change debate *The Story of Preaching* T.
