Hating Whitey And Other Progrebive Causes:

Summary of David Horowitz's Hating Whitey and Other Progressive Causes Everest Media,2022-05-16T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 When Matthew Shepard was tortured and left to die on the high plains of Wyoming his murder was followed by outpourings of anger and grief from editorial pages and political pulpits across the country 2 The Matthew Shepard killing was used by the left to rally behind society s victims and the absence of conservatives and libertarians in the Capitol protesters only proved the lasting sense of righteousness that fuels the progressive agenda 3 The fact is that it is not tolerable in America to hate blacks but it is okay in our politically correct culture to hate white people Hollywood understands this rule of progressive etiquette 4 The idea that only whites can be racist is a justification for hate crimes as it makes white people the targets of hate crimes simply for being white

Hating Whitey David Horowitz,1999 Ideological hatred of whites has become a growth industry boosted by civil rights activists and liberal academics These once youthful radicals now entrenched in positions of power and influence peddle a warmed over version of the Marxist creed that supported the communist empire and excuses intolerance to the point of murder Betraying the legacy of Martin Luther King this unholy alliance of black civil rights leaders and white radicals threatens to undermine America s moral political and economic institutions Undeterred so it seems by America s Anglo Saxon roots people of every race and creed still flock by the millions to these shores claiming a share of our unparalleled rights and opportunities Yet with staggering hypocrisy a clique of racial warlords and academic malcontents indict our every institution for racial oppression From publisher description Hating Whitey Shlomo Argov,1999 **Liberty Means Freedom for All** Steven H. Propp,2012-11-16 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science Its an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his sett led view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rands philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christi an Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into

sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved **Fire in the Streets**

Douglas R. Groothuis, 2022-08-02 From the origins of critical theory in the bowels of the academy to its use in justifying rioting and arson in the name of a dubious equity agenda an eminent philosopher unmasks the intellectual origins of this mental virus and details steps rational thinkers can take to combat its insidious spread What can we do amidst all the controversies over race and gender in society today Do we have anything constructive to offer the world As Jesus followers we do and this book shows the way A dangerous and revolutionary philosophy is responsible for the street fires in America It fuels the actions of Black Lives Matter and Antifa It invades curricula in public schools and in our military It is in our churches You have heard the phrase white privilege the need for safe spaces on campuses and perhaps the tongue twister intersectionality Behind all of these is an ideology called critical theory which is a form of cultural Marxism that divides society into the oppressed and the oppressors It claims that America is systemically racist and founded on slavery It believes that the voices of the minorities should trump the perspective of the dominant and oppressing culture Unfortunately this flawed perspective is overtaking our culture and infiltrating many of our churches In this book we consider the importance of critical theory explain its origins question its aims and subject it to a logical critique Readers will Gain a better understanding of critical theory See how it is permeating many aspects of society Discover how it opposes a Christian worldview Learn how to counter it constructively A biblical alternative to matters of justice and politics is available One that is right and true One based on the ideals of the American founding Find it in these pages Racism Albert J. Wheeler, 2000

Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World *The New Leviathan* David Horowitz, Jacob Laksin, 2012 Examines the influence of rich and powerful left wing organizations and politicians drawing connections between the Obama administration and progressive groups to explore what the authors believe to be socialist agendas behind hot button issues **Political Conversion** Don Waisanen, 2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars

this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

Between Race and Reason Susan Searls Giroux, 2010-07-28 Inquiring into the future of the university Susan Giroux finds a paradox at the heart of higher education in the post civil rights era Although we think of post civil rights as representing a colorblind or race transcendent triumphalism in national political discourse Giroux argues that our present is shaped by persistent raceless racism at home and permanent civilizational war abroad She sees the university as a primary battleground in this ongoing struggle As the heir to Enlightenment ideals of civic education the university should be the institution for the production of an informed and reflective democratic citizenry responsible to and for the civic health of the polity a privileged site committed to free and equal exchange in the interests of peaceful and democratic coexistence And yet says Giroux historically and currently the university has failed and continues to fail in this role Between Race and Reason engages the work of diverse intellectuals Friedrich Nietzsche W E B Du Bois Michel Foucault Martin Luther King Jr Jacques Derrida and others who challenge the university's past and present collusion with racism and violence The book complements recent work done on the politics of higher education that has examined the consequences of university corporatization militarization and bureaucratic rationalization by focusing on the ways in which these elements of a broader neoliberal project are also racially prompted and promoted At the same time it undertakes to imagine how the university can be reconceived as a uniquely privileged site for critique in the interests of today's urgent imperatives for peace and justice

Intelligent Virtual Agents Thomas Rist, Ruth Aylett, Daniel Ballin, Jeff Rickel, 2003-09-09 This volume containing the proceedings of IVA 2003 held at Kloster Irsee in Germany September 15-17 2003 is testimony to the growing importance of Intelligent Virtual Agents IVAs as a research field We received 67 submissions nearly twice as many as for IVA 2001 not only from European countries but from China Japan and Korea and both North and South America As IVA research develops a growing number of application areas and platforms are also being researched Interface agents are used as part of larger applications often on the Web Education applications draw on virtual actors and virtual drama while the advent of 3D mobile computing and the convergence of telephones and PDAs produce geographically aware guides and mobile entertainment applications A theme that will be apparent in a number of the papers in this volume is the impact of embodiment on IVA research a characteristic differentiating it to some extent from the larger field of software agents

Race and Morality Melvyn L. Fein, 2012-12-06 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn t I after all a tenured professor who didn t need to make a fuss in order to retain his job Didn t it make sense to just kick back and enjoy the easy life I had earned The topic of our tete a tete was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correctness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaranteed that some people would perceive me as a dangerous scoundrel who had to be put in his place

Why Conservatives Tell Stories and Liberals Don't David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford
